1

1 Vernagel

This super absorbent powder prevents spillages, minimises residual odours and reduces the risk of cross-infection. It is designed to soak up bodily fluids, such as blood, vomit or urine, and can be used in a urine bottle before use or straight onto a floor spillage. Available as loose powder or in convenient sachets.

Vernagel can easily be disposed of in a macerator.

- Eases nurse workload and saves laundry costs
- Reduces risk of cross infection
- Minimises or eliminates residual odours
