2 Affinity Portable Flexible Table

The portable/flexible massage table can be used for a wide variety of treatments. It features a 75° lifting head section, sturdy construction and removable breathing hole have quickly established this table as one of the best in the market. Specially shaped end plates allow excellent access at either end. Comfortable "Therafoam" cushioning system gives support and comfort even during long treatments. Height adjustable from 63-81cm, can be adjusted using the "Easi-turn" knobs which are easy to grip.

Features:

- 10 position lifting back rest
- Rapid set up reducing delay between appointments or allowing your treatment room to be used for other purposes
- Durable double backed PVC upholstery resisting nicks and tears for years of continued use
- Triple-ply "Therafoam" 50mm rated semi-firm for sports and remedial massage
- Foam-filled high strength luxury carry handles, for improved portability
- Free two year warranty on this item covering, frame, base and factory faults on the vinyl
- Carry case included as standard

Dimensions: Length 185cm. Width 68cm. Weight 16.8kg.

2

1 Affinity Marlin Portable Table

A truly portable couch at only 14.5kgs. With a one touch height adjustment feature, this aluminium table is designed to be put up quickly, used and taken to the next appointment, with the minimum of strain and difficulty for the therapist. It is exceptionally rigid, can take large clients without fuss, and its lifting head section enables the most beneficial position for the client and therapist. Height adjustable from 58-81cm, precise telescopic legs allow the height to be adjusted rapidly whilst still retaining the stability required for high impact treatments.

Features:

- 10 position lifting back rest
- Rapid set up reducing delay between appointments
- Durable double backed PVC upholstery resisting nicks and tears for years of continued use
- Triple-ply "Therafoam" 50mm rated semi-firm for sports and remedial massage
- Foam-filled high strength luxury carry handles
- 450lb impact strength (32st dropped from 7") plus high strength when force is applied across the table (lateral movement)
- Carry case included as standard
- Dimensions: Length 185cm, Width 63cm
- 2 year warranty

1 Homecraft Electric Adult Tilt Table

An economical tilt table that includes some outstanding features. Manufactured to a very high standard, it represents exceptional value for money. Tilt tables are used extensively in functional rehabilitation where the requirement to stand or be upright is of paramount importance. Standing can improve quality of life, assist in the natural gravitational functions of the body, re-educate balance mechanisms affected by long periods of lying and give a degree of independence. The design of this tilt table also means that the footboard can be removed so it can be used as a plinth featuring a negative head section and breathing hole with plug. With an extremely smooth movement, this tilt table is designed to promote confidence in both the client and the therapist.

Features

- Smooth electric tilt operation
- 0 to 90° tilt adjustment
- Four large braking castors for safety and ease of movement
- Three straps for added client safety
- Side handles to promote client confidence
- Worktable as standard
- Flame retardant upholstery
- Steel frame with powder coated finish for strength and durability

Height 71cm. Length 183cm. Width 60cm.

- 091135771** Blue UK Plug
- 091135813** Beige UK Plug

2 Homecraft Electric Paediatric Tilt Table

This electric tilt table has been especially designed for children, catering for a number of treatment requirements to improve the quality of life for the smaller patient. Brightly coloured in blue and red vinyl to promote compliance, it also features an adjustableommel and pelvic supports to improve confidence for both the child and the therapist.

Features

- Electric tilt operation
- 0 to 90° tilt adjustment
- Four large braking castors for safety and ease of movement
- Height adjustable footboard andommel
- Adjustable pelvic supports
- Flame retardant, brightly coloured upholstery
- Steel frame with powder coated finish for strength and durability

1 Rolyan® Reach'N Range Overhead Pulley

Simple to use for re-building muscles and increasing range of motion. Dual overhead pulley offers extra stability and can be used with weights on one handle to counterbalance the strength of the opposite extremity. Weights (not included) can be added as strength improves. Overhead system positions the patient away from the door, allowing more free range-of-motion patterns, such as PNF patterns. Appropriate for home and clinic use.

081297134

2 Rolyan® Reach'N Range Pulley

Easy-to-use pulley system for strengthening weakened shoulders and increasing range of motion. Features the innovative, easily adjusted ROM stop to control range-of-motion patterns. Easy length adjustability to fit patients quickly. Lightweight and compact for travelling convenience. Fits standard and thick doors. Recommended for home use only.
