Maximum user weight

2 CouchCane™

This solid steel, 1m long base with anti-slip pads which is placed under furniture, provides stability and prevents furniture from sliding. The long handled cane is height adjustable and interchangeable for left or right side positioning. The cushioned handle provides extra assistance needed to rise from the settee, chair or recliner. Can be height adjusted from 725 to 800mm (28½ to 31½").

081530690

Maximum user weight

3 Bariatric Patient/Dinner Chair

This chair has been designed to be individually adjusted to provide comfortable seating. The backrest can be adjusted +/- 60mm (+/- 2½") and the tubing is bent to provide maximum comfort. The chair is height adjustable from 420 to 550mm (16½ to 21¾"). The armrests are constructed so that they go beyond the seat. This makes it easier to get a good grip when sitting down and getting up. They also bend outwards for a better grip so that the user's body does not get squeezed getting in to and out of the chair. Made from high-tech lightweight tubing to ensure the highest strength at the lowest weight. Seat width 710mm (28"). Seat depth 400 to 520mm (15¾ to 20½"). Overall width 830mm (32¾"). Weight 7.7kg.

B BARIATRIC

These products are designed for bariatric users

1 Easi-Riser Table with Standard Base

This functional, heavy-duty table is ideal for the healthcare environment, especially for hospitals, nursing and residential care home use. The sturdy, light oak laminated tabletop has a raised upstand to prevent items from rolling or falling off. Height adjustable using the easy to use handle, allowing the table to be adjusted to the required height. Anti-trapping safety feature allows the table to rise automatically as it comes in contact with the user. Supplied with four swivel castors for ease of manoeuvrability. Height adjustable between 720 to 1100mm (29 to 44"). Width 930mm (37"). Depth 400mm (16"). Weight 25kg. Maximum total load 30kg.

091089986

2 Easi-Riser Table with Curved Base

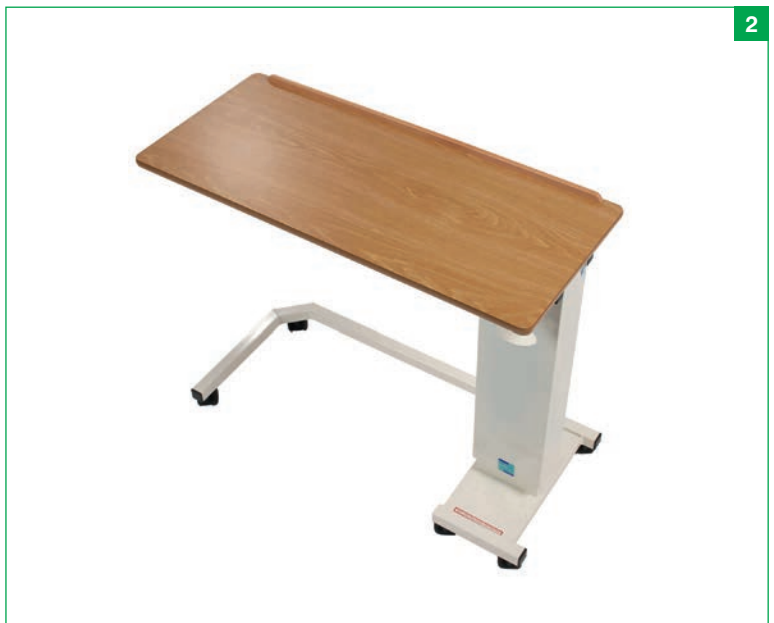

A similar version to the standard base table, but with a curved base to allow the table to be positioned around an armchair or wheelchair. Height adjustable between 720 to 1100mm (29 to 44"). Width 930mm (37"). Depth 400mm (16"). Weight 25kg. Maximum total load 30kg.

091089994

3 Easi-Riser Table with Tilting Top and Curved Base

This version of the Easi-Riser has a tilting tabletop and curved base, offering greater benefits to the user. The unique curved base allows the table to be positioned around an armchair or wheelchair. Size of small section 180×400mm (7¹/₅×16"). Size of larger tilting section 700×400mm (28×16"). Weight 25kg. Maximum total load 30kg.

1 Days Over Armchair Table

This armchair table has a modern, curved laminated teak table top that is easily adjusted in height and angle, enabling the user to read, etc. For additional comfort, it comes with a stylish side table to accommodate refreshments, which can be fitted to either the left or right hand side of the table. Maximum load 10kg. Table top 1090×410mm (43×16"). Side table top 200×200mm (8×8"). Overall width 1310mm (51½"). Height adjustable 750 to 915mm (29½ to 36"). Internal width 906mm (35½").

081610971

2 Kidney Over Chair Table

Based on the concept of the curved office desk, this over chair table is designed to provide maximum armchair comfort. The "kidney" shaped table top provides the user with a comfortable resting position whilst having a large usable work surface. The ergonomically designed height adjustment levers are easy to use, ideal for arthritic hands. This table is the ultimate in both comfort and visual appeal with the beech effect top having a cream retaining edge to match the hard wearing nylon powder coated frame. Fitted with four locking castors for added security and stability. Supplied flat packed. Height adjustable 650 to 800mm (25½ to 31½"). Internal width 690mm (27¼"). Table top width 1040mm (41"). Depth 590mm (23¼"). Table top depth 350mm (14"). Maximum load 25kg.

091171321

3 Fully Adjustable Bed and Chair Table

Attractive, laminated top table that can be fully adjusted to use over a bed or a chair. The table is adjustable in height, width and angle to fit a wide range of users and furniture. Comes with a reversible side table for right or left hand use. Fitted with four locking castors, adding stability and reassurance. An added feature to this table is the safety locking mechanism that avoids over extension. Overall table width 720 to 1220mm (28¼ to 48"). Height adjustable from 700 to 910mm (27½ to 35¾"). Table depth 490mm (19¼"). Table width 900mm (35½"). Weight 12.5kg. Maximum load 15kg.

091558253 **B** Flat Pack Version

2 Days Overbed Table with Castors

The overbed table has a laminated teak top and two independent points for adjusting the height which allow the top to be angled. Rails on the sides of the table top prevent items from slipping off. The four castors allow the table to easy glide to and from the bed or chair, ideal for those with limited strength and mobility. Maximum load 10kg. Height adjustment 610 to 910mm (24 to 36"). Table size 610x400mm (24x15 3/4"). Castors 50mm (2").

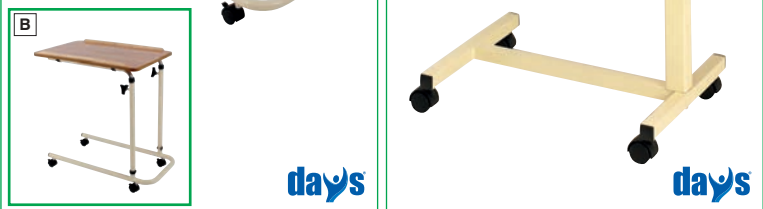

- 091325745** **A** Fixed Version
091558261 **B** Flat Packed Version

3 Days Overbed Table with Plastic Top

For ease of cleaning, this overbed table has a lightweight plastic top. The height can be adjusted with the ratchet handle. With four castors, the table can be easily moved around the room. Ridge around table edges help to prevent items slipping off. Height adjustment 750 to 1060mm (29 1/2 to 41 3/4"). Table top 705x375mm (27 3/4 x 14 3/4"). Clearance required 92.5mm (3 1/2"). Width between bars at base. 560mm (22"). Width of base bar 340mm (13 1/3"). Maximum load 10kg.

081611045

4 Days Overbed Table

Manufactured from chrome plated and powder coated steel tubing, featuring an easy to clean laminated teak top. The top has raised edges and open corners to prevent items slipping off. Fitted with four castors for easy manoeuvring. Height adjustable from 530 to 820mm (21 1/4 to 32 3/4"). Table top size 540x400mm (21 1/4 x 15 3/4"). Maximum load 10kg.

091439157

5 Dual Action Over Table

With a large tilting section and a small fixed section for items that need to be kept level, this table is useful in a number of situations. The wood effect, laminated tabletop has an edging strip at the front and the back of the tilting section to prevent items falling off. The small fixed section measures 203x381mm (8x15") and the larger tilting section is 610x381mm (24x15"). Easily height adjustable with a single clamp between 711 and 1118mm (28 and 44"). Weight 9.3kg.

091090091

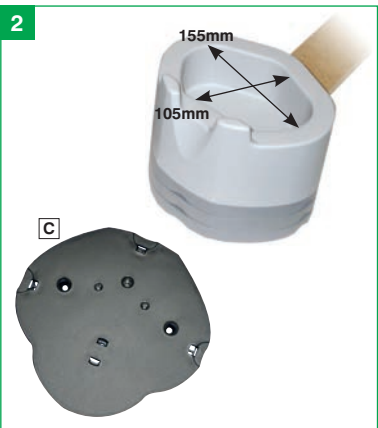

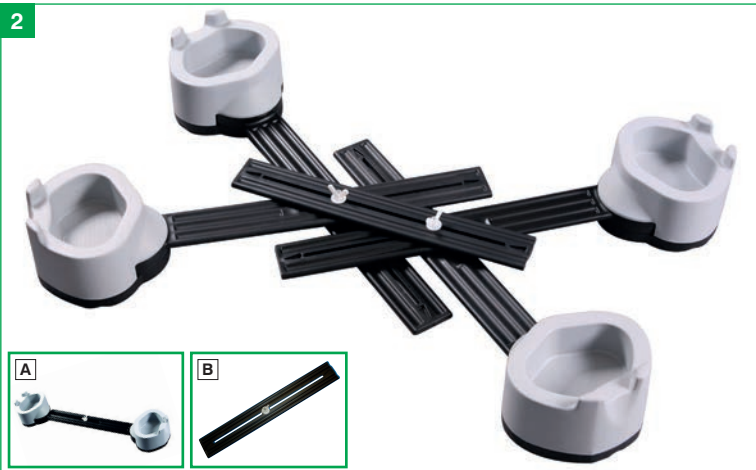

6 Adjustable Bed and Chair Table

This table can be adjusted in height from 620mm (25") to 940mm (37 1/2") to accommodate different heights and patient positions. Four plastic feet are mounted on the base, ideal for use with low base beds and chairs. The attractive light oak laminate top has raised upstands to help retain items when the top is tilted between 0 to 70°. Supplied flat packed. Table height 620 to 940mm (25 to 37 1/2"). Width 620mm (25"). Depth 400mm (16").

1 Medeci Furniture Raisers

These unique secured raisers enable a variety of furniture to be raised at the heights required for the user. The raisers are easily fitted to a wide range of beds and chairs. Armchairs and beds with castors can be raised from 100mm (4") to 178mm (7"). Chairs and beds with wooden legs can be raised from 50mm (2") to 127mm (5"). The raisers are suitable for uneven floors and are unobtrusive, reducing the risk of tripping. Each set is supplied with four castor replacement bobbins so that when fitting to an armchair or divan bed the castors can be replaced with the adaptors for an even more secure fit. Internal diameter 70mm (2³/₄").

091186972

Maximum load weight **500 kg** **78 st**

2 Langham Multi-Purpose Raiser

Unique in design and versatility, this modular raiser has been carefully developed using feedback received from Occupational Therapists. Designed to raise chairs, settees and beds equally well. Discreet when used under furniture, but has maximum support giving security and reassurance. Each support pivots on the link bars to ensure a snug fit to the side of the furniture either at the corner or as a central support along the side of the bed supported. The whole unit is height adjustable with simple to use clip on sections, each 20mm (3/4"), giving a wide range of heights. Height without adjusters is 80mm (3¹/₄"). Supplied as individual sections to ensure you have the parts you need to customise the raiser for the job required. For example, to raise an armchair by 115mm (4¹/₂"), you would require two raiser packs, one pack of spreader bars and one pack of height adjusters, leaving you with five spreader bars and four height adjusters for the next chair or bed. See below reference charts for further assistance.

1 Parnell Premier Bed Rail

The Parnell bed rail is the ideal solution to help get in or out of bed. Its attractive, ergonomic design complements virtually any bedroom. Functional, strong, hygienic and safe, it provides the user with confidence and independence. Stored flat when not in use, it can be easily assembled and quickly fitted to the bed without the use of tools. Designed for use with electrically adjustable beds, the bed rail can also be used on domestic beds including divans, pine and steel or wooden frame beds. The bed rail is also compliant with the BS EN 1970:2000 standard. Fits to single or double beds on either side, with a clamp that firmly sits between the floor and the bed base. Comes complete with a full length and width steel floor frame for added stability. The front base is flat so there is no tripping hazard or obstacle to wheelchairs or walking frames. As standard, the rail height is 810mm (32") high. Floor frame length 810mm (32"), width 410mm (16"). Rail height 810mm (32"), width 280mm (11"). Clearance required 38mm (1 1/2"). Weight 9.5kg.

091172550

Maximum user weight

2 Parnell Premier Plus Bed Rail

All the same benefits as the standard Parnell Premier Bed Rail with a few additions. The height to the top of the handrail has been increased to approx 920mm (36 1/4"), making it suitable for higher beds or beds with very thick mattresses. The lead screw has additional height to cater for beds with a high clearance. The rail is also suitable for the larger user, with a maximum user weight of 165kg (26st). Designed for profiling beds it also fits conventional domestic beds. Very simple to assemble and fit to the bed with no tools or ties or straps of any kind being required. Independently tested to the load requirements of BS EN 1970:2000. Rail height 920mm (36 1/4"). Clearance required 38mm (1 1/2").

homecraft

1 Homecraft Double Loop Bed Stick

This bed stick has a double loop to assist users getting in and out of the bed. It fits securely under the mattress, is adjustable in width and fits single and double beds. Length 980 to 1430mm (38¹/₂ to 56¹/₄"). Height 445mm (17¹/₂").

Maximum user weight **106 kg** **16¹/₂ st**

2 Homecraft Bed Grab Rail

An ultra sturdy bed grab rail, offering stability and confidence to those that have difficulty getting into and out of bed. The height adjustable frame can be positioned to suit virtually any divan style bed. Two legs rest upon the floor and the frame is secured into place via the three colour coded straps provided, ensuring minimal movement when in use. Supplied flat packed, the Homecraft bed grab rail is simple to assemble and fit. Height of handle 850 to 950mm (33¹/₂ to 37¹/₂") from the floor. Width of handle at the top 265mm (10¹/₂"). Size of under mattress frame 620 x 325mm (24¹/₂ x 12³/₄"). Weight 3.5kg.

091089481

Maximum user weight **127 kg** **20 st**

3 2-in-1 Bed Rail

This 2-in-1 Bed Rail is an award winning bed rail that helps provide secure support for users when getting in and out of bed. The bed rail can be used on both divan and slatted beds. Not suitable for profiling beds.

A slim yet tough base increases the strength of the handles, which allows for a maximum user weight of 25st (160kg). It also minimises the impact of the bed rail under the mattress, giving you a more restful night's sleep. The ergonomic handle makes it comfortable for the user's lifting action from sitting to standing.

The Bed Rail is held securely in place using two easy fit straps. It is detached from the base by two e-clips enabling it to be positioned as required for either type of bed. Can be autoclaved at cleaning cycles up to 80°C. Length 615mm (24"). Width 335mm (13"). Height from bed (slatted) 515mm (20¹/₄"). Base depth 15mm (1/2").

091435221

Maximum user weight **160 kg** **25 st**

4 Slatted Bed Grab Rail

Suitable for slatted beds. Large base frame for maximum under mattress stability. Base width 625mm (24¹/₂"). Base length 775mm (30¹/₂"). Base to top of handle 480mm (19").

1 Folding Easy Fit Bed Rail

The Folding Easy Fit Bed Rail provides a simple to fit alternative that can be used on both slatted and divan beds. The innovative folding design enables the bed rail to be stored and transported flat, but simply opened out and secured with clips when required for use. The bed rail is easily fitted by positioning it between the mattress and bed base with no straps required. The unique anti-slip sections help to retain the bed rail in position during use, reducing movement and increasing security. Overall size: Width 700mm (27½"). Depth 580mm (23"). Height 530mm (21").

091422054

Maximum user weight

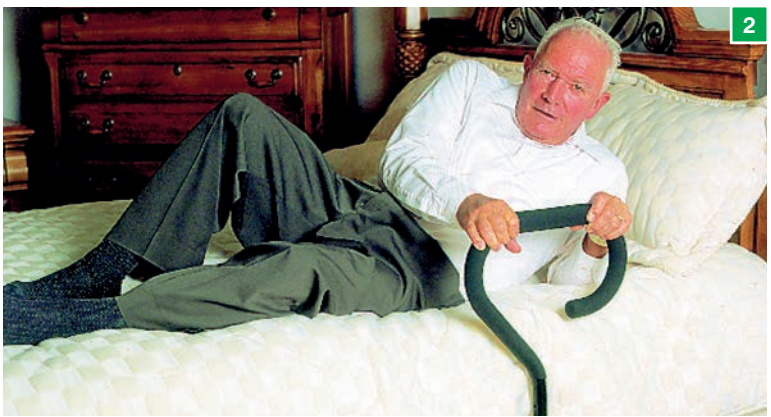

2 BedCane™

Heavy gauge steel handle with cushion grip provides support getting in and out of bed. The base is placed under the mattress and a safety strap secures the base to the bed. A removable pin makes the BedCane foldable for storage and portability. Supplied with an organiser pocket which fits over the handle. Adjusts in height from 482 to 559mm (19 to 22").

WITH SIDE GUARDS

COLOUR CODED STRAPS

Quick, easy fitting to most bed widths, the Homecraft Mattress Elevator has a smooth, quiet action. Supplied with a small, discreet and lightweight transformer. Available with side guards, for extra safety.

1 Homecraft Mattress Elevator

The Homecraft Mattress Elevator allows those confined to bed for long periods to sit or lie comfortably with a high degree of independence. Easily width adjustable for single through to queen size beds, using the safety pin clip system. Securely fixed into place using colour coded straps that simply clip together around the bed base and mattress. When in use, the Homecraft Mattress Elevator allows the user to rise and recline smoothly, quietly and safely at the touch of a button, thus reducing the need for manual handling. Due to the superior design, the drive mechanism cannot be felt through the mattress, even when in a fully reclined position. The compact transformer is unobtrusive, silent and can be easily hidden. The Homecraft Mattress Elevator allows a user weight of up to 254kg (40st) to be raised and maintained at any angle between 9° and 72°. Available with side guards that, when fitted, will help prevent pets or children from becoming trapped. Overall length 725mm (28 1/2"). Overall width 740 to 1410mm (29 to 55 1/2"). Range of movement 9° to 72°. Weight of elevator unit 11.2kg.

RETAIL PACKAGED
These products are supplied in retail packaging.

MAXIMUM LOAD
The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 Mattress Topper

The surface of this mattress topper allows it to mould to the body's shape evenly and provide extra comfort. Depth is 50mm (2").

	Size	Dimensions	Weight
091090844	Single	900 x 1980mm (35½ x 78")	1.7kg
091090851	Double	1450 x 1980mm (57 x 78")	2.9kg

2 Mattress Tilter

The Mattress Tilter is used under the mattress at the bottom of the bed to relieve the symptoms of swollen ankles, varicose veins or lower back pain. Alternatively, it can be used under the mattress at the top of the bed to relieve respiratory problems and hiatus hernia. Size 460×630×130>20mm (18×25×5>1"). Made from polyurethane foam. Cover is polyester velour.

091090398

3 Inflatable Elevator Cushion

This inflatable cushion is designed to comfortably relax and elevate the user's legs. Being extremely versatile it can also be used as a back or head support or as a foot cushion. It is easily inflated and deflated with the pump supplied, making it fully portable. Latex free. Size 635×685mm (25×27"). Weight 500g.

091089820

4 Foot Board

A simple device to help prevent people from slipping down when seated in bed. Covered in fleece for comfort, this product is easily attached to the mattress of a divan bed using a quick release buckle. Fits single to king size beds. Width 450mm (18"). Weight 1kg.

091089937

5 Homecraft Bed Fleece

1 Parnell Premier Cot Side Rail

The Parnell Premier Cot Side Rail has been designed for use with all domestic beds including adjustable beds. Tested by the University of Newcastle to BS EN60601-2-52:2010, the Parnell Premier Cot Side Rail helps to prevent patients from falling out of bed. Easy to assemble and fit with no tools, ties or straps required. The front footplates are flat so there is no tripping hazard or obstacle to wheelchairs or walking frames. Able to withstand a force/pull of 50kg in any horizontal direction when attached to the bed. Can be used with single, double or king size beds. Overall length 1220mm (48"). Overall height 870mm (34 1/4"). The inner bars have a distance of 80mm (3 1/4"). Minimum clearance required 30mm (1 1/4"). Maximum clearance of 318mm (12 1/2").

091322023

Maximum user weight

2 Homecraft Castle Adjustable Cot Sides

The Castle cot sides fit between the mattress and the bed base. Adjustable in width for single or double beds and also in length. They can be adjusted in height, using a pin clip system. The cot side is dropped down by a simple push button release and raised up with a click, lock action. The whole side can be removed easily to give quick access for making the bed. Bed width 840 to 1370mm (33 to 54"). Side rail length 1266 to 1866mm (50 to 74"). Height of top rail over bed base 366 to 591mm (14 1/2 to 23"). Side drop on release 250mm (10").

Weight

091089309 One Side 9.1kg
091089325 Two Sides 14.4kg

3 Homecraft Night Rail

This rail is secured by means of two long arms that slip under the mattress. It can be easily removed and disassembled into three pieces for storage. The clip-on nylon cords must be secured around the legs of the bed for safety. Height above base 360mm (14 1/4"). Width of mattress arms 610mm (24"). Length of side rail 935mm (37"). Weight 2.3kg.

091089358

4 Side Wedges

These side wedges help to prevent a patient from falling out of bed and are especially suitable in situations where restraint is an issue. A cotton draw sheet is held in place by straps that have quick release buckles. The wipe clean wedges are secured into position onto the draw sheet with two hook and loop strips. Size of wedges 900x200x200mm (35 1/2x8x8").

091089671 Side Wedges and Draw Sheet Kit

Specifications

Length	183cm (72")
Width	43cm (17")

091438266

1 Homecraft Cot Side Bumpers

Made from thick foam, covered with wipe clean fabric. These bumpers are made to fit a variety of cot sides and are easily fastened in place. Supplied as a pair. Length 1524mm (60"). Depth 381mm (15"). Weight 1kg each.

091089333

2 Full Length Cot Side Bumpers

These foam pads are covered with a wipe clean vinyl and have a hook and loop closure along the length to secure them to a range of cot sides. Suitable for most profiling beds. Supplied as a pair, each one 2m (78³/₄") long. When mounted, they are 390mm (15¹/₄") deep. Weight 2kg each.

091089341

3 Connected Cot Side Bumpers

To prevent the patient from pushing their limbs between the cot sides and the mattress, this unit has two bumpers that are sewn together with a connecting loop. Covered in a wipe clean vinyl, the bumpers are well padded for protection against knocks and bumps. Once in position, the mattress secures the system. Length 1340mm (53"). Height 760mm (30").

091089663

4 Posey Horseshoe Wedge

Helps prevent patients from entrapment in the headboard, footboard or side rails. Also deters patients from bed exit. The hook and loop flaps secure the wedge under mattress and the straps secure to the side rails, headboard or footboard. The wedge rises 250mm (10") above the mattress surface. Made of soft, durable foam and covered in wipe-clean vinyl, making cleaning easier. Length 950mm (38"). Height 425mm (17"). Depth 50mm (2").

081138965
