REVOREACH

Revolutionary Design

Sleek and modern, the RevoReach™ has been designed with the user in mind. The contemporary design is robust and uses ergonomic principles, making the product range as comfortable to use as possible.

Revolving Jaw

The revolving jaw head allows objects to be picked up from a variety of angles. It can be locked in position at 30° angles for increased flexibility.

Lightweight & Well Balanced

The correct balance of a reaching aid can be a significant factor when it comes to providing optimum control and a secure grip. For this reason the weight is distributed towards the handle making the reacher easier to control.

Key Features

- Ergonomic handle design reduces finger and wrist strain
- Attractive slip-resistant handle provides a more secure grip
- Robust construction for security and durability
- Slip-resistant ridged jaws provide additional grip when picking up objects
- Adjustable rotating jaw head operated by a pull and twist action offers flexibility - Adjustable in 30° increments
- Two models available to suit user requirements

1 RevoReach™ Xcel

This robust reacher benefits from an ergonomically designed handle with a trigger that requires minimal finger extension and allows the use of all fingers for a more powerful grip. The short trigger design is ideal for anyone with arthritic fingers or a weak grip.

	Length	Weight
091204825 Standard	660mm (26")	210g
091204833 Long	810mm (32")	230g

2 RevoReach™ GripLock

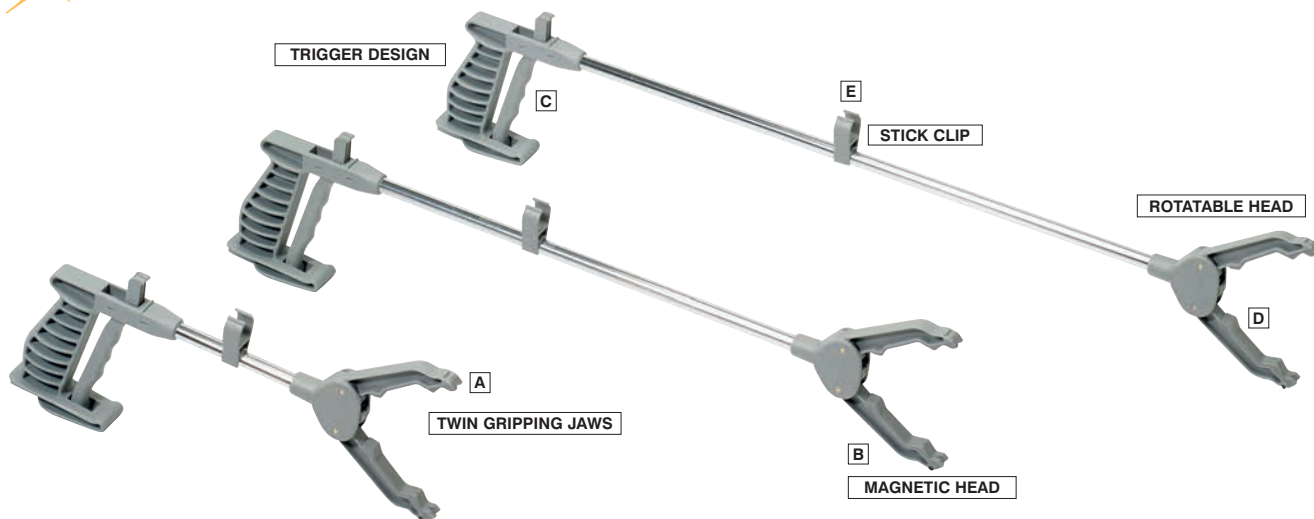

This unique reacher has additional features, making it as easy to use as possible. The GripLock benefits from an innovative locking mechanism that allows the jaws to be locked in place once an item is gripped, enabling the user to concentrate their efforts on moving the object, rather than maintaining their grip of the item. There are three main functions of the lock:

- **Standard Lock** - The standard locking feature allows the lock to be engaged using either the thumb or hand to turn the locking catch. This allows the user to grip an object then engage the lock once they have achieved a secure hold
- **Grip & Hold** - This innovative function allows the lock to be set so that as the trigger is squeezed, the jaws automatically lock. This is ideal for anyone who lacks the dexterity to use the lock catch when gripping an item, and is also very useful for gaining a tighter hold on an item that has already been gripped
- **Fine Tune Grip** - a useful feature that allows the jaws to be locked half way so they have a smaller range of movement. This is a useful function when picking up smaller objects as it allows a more precise grip and allows the reacher to retrieve items from tight spaces

	Length	Weight
091204791 Standard	660mm (26")	220g
091204809 Long	810mm (32")	240g

RETAIL PACKAGED

1 Homecraft Pick-Up Reacher

A unique lightweight, robust and wear resistant reacher. Ideal for retrieving or reaching a wide variety of items in the home, garden or out shopping. Available in four lengths, with or without optional extras.

Features

A Twin Gripping Jaws

The jaws have sculptured liners which give an excellent grip. The Pick-Up is operated by a wire not a cord eliminating fraying or stretching.

B Magnetic Head

There is a magnet attached to the jaw which allows easy retrieval of pins, paper clips and other small ferrous items.

C Trigger Design

The trigger is designed for comfort and is large and roomy to allow use of all fingers. The short trigger distance is ideal for stiff, arthritic fingers. The trigger projects through the top of the handle to allow it to be squeezed in the conventional manner, or pushed using the palm of the hand.

D Rotatable Head

The head can easily rotate to suit individual tasks.

E Stick Clip

The Pick-Up is supplied with a removable stick clip, allowing it to be clipped on to wheelchairs and walking frames etc.

1 Homecraft Handi-Reacher™

An ultra lightweight, robust reacher that will assist those with restricted reach and/or mobility problems. Features a single moving jaw operated with a trigger action from the handle. The head is complete with a magnet for picking up small metal objects e.g. pins and a hook to aid dressing. The jaw may be rotated 360° to avoid the need to rotate the wrist which may be painful to certain users. The trigger operated by four fingers instead of the usual two is easy to grip and operate.

1 Homecraft Easireach II

Made from lightweight aluminium, this reacher is designed for people with limited reach and/or mobility. The jaw opening is highly visible and features a slip resistant surface for a secure hold on the object. Available in standard or folding versions. Constructed with a cord running through the tube, which operates the plastic jaw. This cord style allows the reacher to be folded in the centre for ease of storage and transportation. All models include a magnet tip, a hook for dressing, a rubber lined jaw and a device that allows the reacher to be clipped to a stick or walker.

1 Sammons Preston Lightweight Reachers

A high quality durable aluminium reacher that is extremely lightweight and ergonomically designed for comfort. Designed for picking up objects, the reacher's serrated high visibility yellow jaw and flexible foam rubber tip conform to the contours of any object, working together to ensure a firm, secure grip. Hands remain comfortable on the ergonomically designed trigger action handle. Available as a standard model in 660mm (26") and 810mm (32") lengths or a folding model, 660mm (26") long for easier transportation. The jaw opens to 76mm (3").

	Length	Weight
081022524	Long 810mm (32")	225g
081022565	Folding 660mm (26")	196g
081022607	Standard 660mm (26")	168g

2 Suction Top Reacher

Aluminium reacher with circular rubber tips that provides a powerful secure grip. The large trigger can be operated by using the palm of the hand, making it easier for people with limited finger strength. The suckers operate by being pulled together by two metal strips rather than by a cord that can stretch or break. This gives a stronger more secure and durable grip. Two lengths available.

1 Homecraft Moulded Fluted Grab Rails

This cost effective range of plastic grab rails is made from white PVC tubes with moulded end fittings. They have circular fixing plates which have a covering disc supplied that clips into place, hiding the screw heads. The tubes are fluted along their length to provide better grip for wet hands. Diameter of tubes 38mm (1 1/2"). Distance from wall 50mm (2 1/3"). Disc diameter 91mm (3 3/5"). No electrical earthing required. The covering disc is available as a spare, making this product suitable for refurbishment.

	Length	Weight

081306216	610mm (24")	595g
081306224	914mm (36")	885g

2 Homecraft Moulded Fluted Grab Rail System

This high quality grab rail system has been designed around the popular moulded fluted grab rails. The bars can easily be cut to any length and then slotted into a choice of fittings. Most runs can be accommodated using the T-Pieces and 90° elbows. The rail can be completed with end caps in T-Pieces or standard end brackets as used with the standard fluted rails. All of these can be purchased separately. As the fluted bars fit into ribbed sections, the bars will not twist in a users grip. We recommend that a standard solvent adhesive be used at all of the joints between the various parts. No electrical earthing is required.

- 091101765** A T-Piece - Pack of 2
- 091101799** B 90° Elbow
- 091101831** C 800mm Bar
- 091101773** D End Bracket

INFORMATION
Rail length measurements are from the centre of the fixing plate. The maximum user weight/load for these products is dependent upon the choice of fixings used and the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 Days EasyBar Suction Grab Rail

The EasyBar suction grab rail offers a sturdy and safe support to the user without having to screw the product to the wall. It benefits from safety lock indicators that display green when secure and red when the rail is not secured. It is designed for use only on smooth and non-porous surfaces such as tiles, glass, porcelain or fibreglass. Ideal for assisting the user when standing and suitable for temporary or permanent use. No fixings required, making it very convenient when away or travelling.

INFORMATION

Rail length measurements are from the centre of the fixing plate. The maximum user weight/load for these products is dependent upon the choice of fixings used and the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 Prima Grab Rails

An innovation in safety grab rail design. The Prima grab rails feature special soft grip mouldings around the bar to reduce the risk of slipping, even with wet soapy hands. The bars are strong, one-piece moulded plastic with the super reinforced strength of an internal non-rust aluminium tube. The ergonomic grip is comfortable and never cold to touch. The straight bars can be mounted horizontally, vertically or diagonally. The two specially designed angled rails are ideal for the toilet, helping the users with weak hand strength to rise from the seat. Available in a range of six different lengths and angles to suit most locations.

Mint	White	Length

Maximum user weight

MAXIMUM LOAD
The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 Natural Grip Plastic Grab Rails

Ergonomically designed grab rails that provide the best possible shape to fit the users hand. Made from polypropylene with a stainless steel moulded insert throughout the length of the rail for additional strength. Suitable for inside or outside use. No electrical earthing required.

	Length	Diameter(Narrowest/Widest)
091100882	300mm	25mm/32mm
091100908	450mm	25mm/32mm
091100924	600mm	25mm/32mm

2 Prima Outdoor Grab Rail

The Prima Outdoor Grab Rail has been designed to assist in entering and exiting the home. The subtle colour allows the bar to blend into its surroundings and be more discreet when positioned on brickwork or a darker background. The bar gives superior grip and strength due to the slip resisting rings and the aluminium inner core.

1 Homecraft Steel Newel Rail

This white, epoxy coated steel rail turns 90° around the newel post, avoiding the need to let go. There is a left and right handed version, as viewed looking up the stairs (091101369 pictured). Length 673mm (26 1/2"). Diameter 25mm (1") coated steel tube. Weight 720g.

- 091101351 Left
- 091101369 Right

2 Homecraft Ringwood Wall to Floor Grab Rail

Based on the popular Ringwood range of grab rails. This Wall to Floor Grab Rail is made in larger diameter steel tubing for greater comfort and easier grip. The rail has a diameter of 32mm (1 1/4") and a white epoxy coating that makes it suitable for indoor or outdoor use. The rail fixes to the floor and wall measuring 760mm (30") from the floor and 780mm (30 3/4") from the wall. For easy storage and transportation the rail comes in two pieces and is self assembly (by a simple but extremely strong bullet catch mechanism).

081330901

3 Homecraft Handy Rail

This unique and practical rail has been designed in conjunction with Physiotherapists, Occupational Therapists and Manual Handling Advisors. The rail is designed to provide support when navigating steps up to the door of a house and is suitable for use on step inclines from one to four steps.

- Designed to replace permanent rails with concreted in posts, reducing installation time significantly
- The rail can be installed either way round to suit different step inclines
- Can also be used to provide support at the side of a toilet or wash basin
- Suitable for indoor or outdoor use
- Manufactured from durable powder coated steel

Specifications

Height: 710mm

Distance from wall: 510mm

Length of rail: 540 or 400mm depending on fitting position (long rail section at top or bottom)

Weight: 4.6kg

2 Derby Half Step

The Derby Half-Step halves the door step rise for those with limited mobility. The large platform allows the user to become steady before attempting the actual step. The plastic construction ensures that the step is tough yet will not rust. It comes complete with a slip resistant rubber mat. The four feet are adjustable to ensure that the step can be levelled for use. Step length 400mm (15 3/4"). Width 740mm (29"). Height 110mm (4 1/4").

081533777

Maximum user weight

3 Bigfoot Half Step

The Bigfoot Half Step meets the needs of anyone who finds the height difference between a door and the ground outside too much to achieve in one go, such as at patio doors. The step halves the height between the door and the ground, allowing the user to be steady on the large surface before attempting the next step.

It is height adjustable from 100-120 mm (4-5") to offer the perfect step height, and it offers a high weight limit of up to 50 stones (318 kg).

Optional handles can be fitted on the left, right or both sides, to give additional support when stepping down. It is also supplied with a security fixing kit for the best possible stability and to prevent it being taken away.

The plastic half steps is built for the outdoors: it's long-lasting even in cold or heat and will not rust. The step has four over-moulded feet which grip firmly against the ground and offer adjustability, so that the step can be made level on uneven ground.

1 Homecraft Tapturn Turners

These strong moulded turners simply hook over the top of a X type tap, to make it easy to turn. They are supplied as a Red and Blue pair for hot and cold taps. Length 140mm (5½"). Weight 65g.

091102102 Retail Packed - Pair

091102094 Non Retail - Pair

2 Derby Tap Turners

Attractive, easy to use tap turners that can be used on crosshead and crystal taps. The soft textured handles provide a comfortable and secure grip whilst in use. There is no installation required due to the screw handle that tightens the grip on the tap. Colour coded so that those with limited vision can identify the required tap. Length 180mm (7⅓"). Width 70mm (2¾"). Height 45mm (1¾").

091102169

3 Homecraft Crystal Tap Turner

This ingenious device clamps around the top of cylindrical tap tops, and provides the leverage to turn them easily. The barrel of the handle is spring loaded to allow the jaws to clamp down on the tap, which is gripped by soft non-slip rubber linings in the jaws. The jaws can also be locked in position. The handle is comfortable and easy to grip. For use with taps up to 60mm (2½") in diameter. Closed length 190mm (7½"). Weight 112g.

For easy opening of bottles

Dycem non-slip roll has many uses

Self adhesive non-slip strips for an enhanced built-up grip

Dycem products make a difference every day

Dycem® non-slip[©]

Making Life Easier

Dycem Non-Slip has been specially designed to overcome many of the stabilisation and gripping problems encountered by people in hospitals, care homes, clinics, at home and on-the-go.

Dycem products have been widely used by therapists for many years, serving people with special needs and/or visual impairments.

Dycem is also a great aid for those who have had a stroke or who simply need a little extra help.

The products are not-sticky but grip firmly on both sides to provide support, stability and confidence during every day activities and exercise.

Dycem Non-Slip:

- Multipurpose – grips, holds and opens
- Long-lasting – easy to clean and reuse
- Non-toxic and latex-free
- Dycem products contain an antimicrobial which has been proven to inhibit the growth of Campylobacter, E.coli, Listeria, MRSA and Salmonella
- Has been proven to grip objects at an angle of up to 45°

1

Prevent unwanted movement or spillages in a totally flexible way by using a Dycem Non-Slip Reel. Simply cut the section or shape you want and grip anything with ease. The reels provide unbeatable grip for any item. They fit discreetly under items in the clinic or home, or in your pocket when out on the go.

2 | Dycem® Non-Slip Bulk Reel Dispenser

This dispenser can sit on a table. The non-slip material has a protective film on both sides, which will keep the material clean until ready to dispense. The protective film also makes cutting easier – pull out the desired length, cut and peel the film from both sides when ready to use. A smaller bulk roll is also available supplied in a card dispenser only.

- 091200021** Bulk Reel only 40cm×15m Blue
- 091200005** Bulk Reel supplied with Cardboard Dispenser 20cm×15m

CARDBOARD DISPENSER WITH 20cm BULK REEL

Anchor your items onto any surface with Dycem Non-Slip's long-lasting non slip mats.

Dycem non-slip mats provide unbeatable grip for any item and have been proven to grip up to a 45° angle. Keep your things secure by using them on a range of surfaces.

These easy to use non-slip mats are antimicrobial, making them very hygienic. They are also made from non-toxic materials and do not contain any latex. These anti slip mats have so many uses that you will struggle to find a place that you can't use them. They are available in a range of sizes and colours.

1 Easi-Grip Chiropodist Scissors

The long loop handles allow the whole hand to be used for controlling the scissors, which is ideal for those with a weak grip. The extended shank helps users who have difficulty bending and the angled blades give a good cutting position, with the top blade being slightly serrated to stop it slipping. The blades are made of stainless steel. Overall length 200mm. Blade length 30mm. Weight 55g.

091102870 Retail Packed

2 Easi-Grip Scissors

Easi-Grip Scissors are extremely lightweight with plastic handles and stainless steel blades. The continuous loop handle automatically reopens the scissors when pressure is released. As they require only a gentle squeeze to operate them, they can be used between fingers and thumb or fingers and the palm of the hand. They are supplied with a blade guard for safe storage and are available with round or pointed blades in both right and left handed versions. The Mini Easi-Grip Scissors can be used either right or left handed and are ideal for both young children and those with restricted growth, plus for use when cutting threads, wool and fine craft work.
