Discover relaxation with a Riser Recliner Armchair from Patterson Medical

Finding the perfect armchair is a really important investment. There are lots of things you will need to bear in mind – from colour and style to whether you need easy-clean upholstery or a size which fits into a small room.

All of our riser recliner chairs come with well padded upholstery to ensure superb comfort at all times. Each chair also features two side pockets for easy storage and include protective, washable head and armrest covers. Our easy to use handsets can be hooked over

a stitched handset holder to prevent loss or damage to the handset.

Quiet and reliable motors with a battery back-up system which enables the chair to be raised and lowered in the event of a power failure (batteries included) are supplied as standard. All chairs have anti-entrapment sensors to prevent anything getting caught in the chair's mechanism and the Soraya has the benefit of a fully enclosed mechanism eliminating the risk of entrapment.

2 year limited warranty

(on all chairs featured on pages 972-975, wooden frame and electrical components only).

1 Sofia

2 Sienna

1 Sofia Days	2 Sienna Days
--	---

A compact riser recliner chair which is perfect for those with smaller physiques. The reduced dimensions of the Sofia allow it to fit easily into smaller rooms. The single motor design means that the chair is easy to control with just two buttons ("rise" or "recline"). Available in a traditional button-back design. Available in four colour options: cinnamon; mocha; oatmeal and floral.

- 922B1A** Sofia Riser Recliner - Cinnamon
- 922B2A** Sofia Riser Recliner - Mocha
- 922B3A** Sofia Riser Recliner - Oatmeal
- 922B5A** Sofia Riser Recliner - Floral

Maximum user weight **115 kg** **18 st**

A comfortable, compact chair which is perfect for those with small to medium physiques. This chair has a single motor and early-rise ottoman to enable the user to raise their legs without fully reclining the chair. The Sienna also features a new stylish backrest design with a higher backrest for additional comfort. Castors offer ease of manoeuvrability. Available in four colour options: cinnamon; mocha; oatmeal and floral.

1

1 Bariatric Patient/Dinner Chair

It is often a problem for bariatric users to be seated comfortably. Sometimes the seat depth is too short, sometimes too deep or with no back support. This chair has been designed to be individually adjusted to provide comfortable seating.

The backrest can be adjusted +/- 60mm (+/- 2 1/2") and the tubing is bent to provide maximum comfort. The chair is height adjustable from 420 to 550mm (16 1/2 to 21 3/4"). It is very important to adjust the chair to the right height to ensure success in getting in to and out of it. If the chair is too high for the user their feet will lift off the floor, making it difficult to get seated. If it is too low, the user will have trouble getting up. The armrests are constructed so that they go beyond the seat. This makes it easier to get a good grip when sitting down and getting up. They also bend outwards for a better grip and so that the user's body does not get squeezed getting in to and out of the chair. Made from high-tech lightweight tubing to ensure the highest strength at the lowest weight. Seat width 710mm (28"). Seat depth 400 to 520mm (15 3/4 to 20 1/2"). Overall width 830mm (32 3/4"). Weight 7.7kg.

2 Adjustable Metal Framed Chair with Riser Seat

This self-rising chair is fitted with detachable springs on the underside of the seat to enable the correct tension to be adjusted to suit the weight of the user. The seat offers assistance to the user when sitting or rising from the chair. Adjustable in height to suit a range of users, the steel frame offers both strength and durability. The seat and back are padded for comfort and are covered in easy to clean vinyl. Available in either brown or cream vinyl. Seat width 483mm (19"). Seat height 406 to 508mm (16 to 20"). Weight 16.4kg.

3 Powered Lift Chair

This attractive powered lifting seat provides an affordable solution to the problem of restricted personal mobility. It enables users to rise from and lower to a seated position in safety and comfort. The unique horizontal lifting position is ergonomically friendly and does not tip the user forward, but gently lifts them to standing. Simple to use, the arm-mounted switch is operated using one easy lever. The shaped back offers good support and has a variable height pillow. Strong and compact in design, it uses only one third of the floor space needed by a standard riser recliner. Small rear wheels allow easy transport from room to room. Covered in a crib 5 vinyl, suitable for nursing homes and hospital use. Available in three sizes.

1 UpEasy Power Lifting Cushion

The UpEasy power lifting cushion can easily transform any armchair, or sofa into a riser chair. It provides 100% lift for users and due to the non-slip base, it can be safely used in recliners. Weighing just 5.4kg, this power cushion has a built in carry handle, which makes it extremely portable. The UpEasy power lifting cushion is an affordable alternative for those who need a riser chair, or a portable accessory for those who already own one. Suitable for people who need assistance to sit or stand due to insufficient upper or lower body strength. To operate the seat, simply flick either of the power levers up, and then place your hands on the chair arms while you are being lifted, the cushion will stop automatically when it reaches its maximum height, or can be stopped by gently pushing the lever down. The levers are detachable, enabling the seat to be operated from either side. Supplied with a machine washable blue cover that may be wiped clean with a damp cloth. Seat depth 480mm (19"). Seat width 410mm (16"). Maximum height of seat 250mm (10"). Minimum height of seat 60mm (2 1/2"). Cable length 3.7m (12ft). Weight 5.4kg.

2 Uplift Seat Assist

A portable, lightweight, lifting cushion that transforms any chair into an automatic lifting chair. Self-powered and easy to adjust to a user's weight, it provides a stable, gentle lift that supports up to 80% of a user's weight. It has a built in carry handle and flattens for easy transport or storage. The memory foam cushion conforms to the shape of the user's body providing a superior level of comfort. Supplied with a black, waterproof cover that can be wiped clean with a cloth or removed and machine washed, making it ideal for use in any situation.

Available in two user weight ranges. Seat width 430mm (17").

Seat depth 480mm (19"). Base width 380mm (15").

Base depth 410mm (16"). Seat height closed 50mm (2").

Seat height open 260mm (10"). Weight 4.1kg.

User Weight Range

AA3262 35-105kg (5 1/2-16 1/2st)

AA3263 90-160kg (14-25st)

3 UpEasy Lifting Cushion

Similar to the Uplift Seat Assist but with a standard, shaped foam cushion and a navy, water resistant cover. Specifications are the same as the Uplift.

User Weight Range

AA3260 43-100kg (6 3/4-15 3/4st)

AA3261 90-154kg (14-24 1/4st)

1

1 Lift Assist Seat

This lifting cushion provides assistance when the user has difficulty getting up from a seated position. It may be placed on an existing chair to lift up to 80% of the users weight. A high-density foam cushion provides exceptional comfort and support and adds only 25mm (1") to the height of the seat. The six settings adjust easily between 40 and 110kg (6³/₄ and 17¹/₄st). Seat size 460 x 530mm (18 x 21"). Weight 3.7kg.

AA3171

Maximum user weight

2 Tenderlift Cushion Riser

The Tenderlift cushion is an easily operated, electric riser cushion that fits most chairs and wheelchairs, giving an alternative to riser chairs. A simple button control handset allows the user to raise, lower and stop the cushion at an angle to suit them. It is easy to use, even for those with little or no upper body strength.

Seat depth 495mm (19"). Seat width 430mm (17"). Seat height when closed 180mm (7"). Weight 10kg.

AA3270

1 CouchCane™ with Assist-A-Tray

With an ergonomic safety handle, this chair aid makes standing and sitting easy and safe. The swivel tray has multiple uses and incorporates a cup holder and utensil compartment. The frame is adjustable in length and height to fit either side of the couch or chair. On the base of the frame there are super grip rubber pads to ensure stability and protect the floor from damage. Height of tray 650 to 800mm (25½ to 31½"). Height adjustment 850 to 1000mm (33½ to 39¼"). Dimensions of handle 150 x 150mm (6 x 6"). Diameter of handle 31mm (1¼"). Base length adjustment 500 to 900mm (20 to 35½"). Tray dimensions 400 x 450mm (15¾" x 17¾"). Weight limit of tray 13kg. Weight 8.9kg.

09 142 3979

Maximum user weight **114 kg** **17¾ st**

2 CouchCane™

This solid steel, 1m long base with anti-slip pads which is placed under furniture, provides stability and prevents furniture from sliding. The long handled cane is height adjustable and interchangeable for left or right side positioning. The cushioned handle provides extra assistance needed to rise from the settee, chair or recliner. Can be height adjusted from 725 to 800mm (28½ to 31½").

09 116 0712

Maximum user weight **118 kg** **18½ st**

3 Stand Easy

Ideal for anyone who needs that extra help getting from a seated to a standing position. This sturdy standing frame offers a secure solution to those who require assistance when getting in or out of a chair, wheelchair, bed or even car. The frame features a dual handle option which allows users to adopt either a push or a pull motion when raising or lowering and allows freedom to walk forward without obstruction. Features adjustable handle height and base width for added versatility. Internal width 500 to 700mm (19¾" to 27½"). External width 530 to 730mm (21 to 28¾"). Lower handles 620 to 800mm (24½ to 31½"). Upper handles 820 to 1000mm (32¼ to 39¼"). Weight 11kg.

1 Flexi Porter Chair

Designed with the user in mind, this chair offers comfort, support and a friendly appearance, suiting most needs and a variety of users. This chair is suitable for a number of client groups; domestic/home use, nursing/residential care homes and the hospital environment. Available in three sizes, with the added function to adjust the seat depth for additional comfort and support. The fully adjustable back allows the user to choose the desired sitting position. The waterfall back design has fully adjustable fibre cushions, with a vapour permeable fabric, offering maximum comfort with the flexibility to change the back support for individual users. The seat incorporates a contoured memory foam cushion with 4 way stretch vapour permeable fabric, helping with pressure management. Supplied in blue Boltaflex fabric, which is waterproof, hard wearing, breathable and anti-microbial fungal. Seat depth adjustment: 350 to 525mm (13³/₄ to 20¹/₂"). With many features as standard this chair offers a wide range of options for easy move-ability, comfort and support. These include:

- Lockable castors
- Adjustable seat depth
- D rings for pelvic positioner
- Push handle with rubber grips
- Waterfall fibre filled back cushion
- Padded sliding footplate with removable cover
- Fully adjustable ramped seat angle; 10°, 20° and 30°
- Adjustable back position

1 Easi-Riser Table with Standard Base

This functional, heavy-duty table is ideal for the healthcare environment, especially for hospitals, nursing and residential care home use. The sturdy, light oak laminated tabletop has a raised upstand to prevent items from rolling or falling off. Height adjustable using the easy to use handle, allowing the table to be adjusted to the required height. Anti-trapping safety feature allows the table to raise automatically as it comes in contact with the user. Supplied with four swivel castors for ease of manoeuvrability. Height adjustable between 720 to 1100mm (29 to 44"). Width 930mm (37"). Depth 400mm (16"). Weight 25kg. Maximum total load 30kg.

AA3712

2

2 Easi-Riser Table with Curved Base

A similar version to the standard base table, but with a curved base to allow the table to be positioned around an armchair or wheelchair. Height adjustable between 720 to 1100mm (29 to 44"). Width 930mm (37"). Depth 400mm (16"). Weight 25kg. Maximum total load 30kg.

AA3713

3 Easi-Riser Table with Tilting Top

All the features and benefits of the standard Easi-Riser with a two piece tabletop that allows the user to keep some items secure. The addition of the tilting table provides more flexibility and can be adjusted from 0-60° to accommodate different positions required by the user. Size of small section 180 x 400mm (7¹/₅ x 16"). Size of larger tilting section 700 x 400mm (28 x 16"). Weight 25kg. Maximum total load 30kg.

AA3714

4

4 Easi-Riser Table with Tilting Top and Curved Base

This version of the Easi-Riser has a tilting tabletop and curved base, offering greater benefits to the user. The unique curved base allows the table to be positioned around an armchair or wheelchair. Size of small section 180 x 400mm (7¹/₅ x 16"). Size of larger tilting section 700 x 400mm (28 x 16"). Weight 25kg. Maximum total load 30kg.

AA3715

5

5 Ashbourne Overchair Table

An extra-wide overchair table that can be positioned over the majority of any armchair or wheelchair. To accommodate different chair heights, the tabletop height can be manually adjusted from 590 to 830mm (23³/₅ to 33¹/₅"). The four castors can swivel in any direction for ease of manoeuvrability. Features three raised upstands to assist in keeping items secure on the tabletop. Width 840mm (33³/₅"). Depth 360mm (14¹/₂"). Weight 10.5kg. Maximum total load 30kg.

1 Kidney Over Chair Table

Based on the concept of the curved office desk, this over chair table is designed to provide maximum armchair comfort. The "kidney" shaped table top provides the user with a comfortable resting position whilst having a large usable work surface. The ergonomically designed height adjustment levers are easy to use, ideal for arthritic hands. This table is the ultimate in both comfort and visual appeal with the beech effect top having a cream retaining edge to match the hard wearing nylon powder coated frame. Fitted with four locking castors for added security and stability. Supplied flat packed. Height adjustable 650 to 800mm (25¹/₂ to 31¹/₂"). Internal width 690mm (27¹/₄"). Table top width 950mm (37¹/₂"). Depth 590mm (23¹/₄"). Table top depth 350mm (14").

09 117 1321

1

2 Over Armchair Table

Days

This armchair table has a modern, curved laminated teak table top that is easily adjusted in height and angle, enabling the user to read etc. For additional comfort, it comes with a stylish side table to accommodate refreshments, which can be fitted to either the left or right hand side of the table. Maximum load 10kg. Table top 1090 x 410mm (43 x 16"). Side table top 200 x 200mm (8 x 8"). Overall width 1310mm (51¹/₂"). Height adjustable 750 to 915mm (29¹/₂ to 36"). Internal width 890mm (35¹/₂").

758

2

3 Fully Adjustable Bed and Chair Table

Attractive, laminated top table that can be fully adjusted to use over a bed or a chair. The table is adjustable in height, width and angle to fit a wide range of users and furniture. Comes with a reversible side table for right or left hand use. Fitted with four locking castors, adding stability and reassurance. An added feature to this table is the safety locking mechanism that avoids over extension. Overall table width 720 to 1220mm (28¹/₄ to 48"). Height adjustable from 700 to 910mm (27¹/₂ to 35³/₄"). Table depth 490mm (19¹/₄"). Table width 900mm (35¹/₂"). Weight 12.5kg. Maximum weight capacity 15kg.

3

1 Tea Time Bed and Chair Table

This tea time table incorporates two table tops that work independently to enable the user to place a drink on the small table and a book or newspaper on the large table. Both are adjustable in height to suit the users' different requirements. A high quality table that provides the ultimate in versatility, by being suitable for use over a bed or chair. Retaining edges prevent items slipping off the large table top. Large top size 610 x 458mm (24 x 18"). Small top size 458 x 150mm (18 x 6"). Height adjustable from 580 to 900mm (22¹/₄ to 35¹/₂").

109620 Cream

09 120 4130 Brown

2 Dual Action Over Table

With a large tilting section and a small fixed section for items that need to be kept level, this table is useful in a number of situations. The wood effect, laminated tabletop has an edging strip at the front and the back of the tilting section to prevent items falling off. The small fixed section measures 203 x 381mm (8 x 15") and the larger tilting section is 610 x 381mm (24 x 15"). Easily height adjustable with a single clamp between 711 and 1118mm (28 and 44"). Weight 9.3kg.

AA3742

3 Overbed Table with Tilt Top

This useful trolley table can be used with a bed or a chair. Easily height adjustable with a single clamp between 711 and 1118mm (28 and 44"). The laminated light grey table top has a lip around all edges and is 600 x 400mm (23¹/₂ x 15³/₄"). 102mm (4") overbed clearance required. Weight 7.2kg.

AA3740

4 Deluxe Bed or Chair Table

An elegant cantilever style table, adjustable in height and tilt. The top is laminated plastic with a lip to prevent items from sliding off. The table top tilts up to 90° either side and the whole frame can be folded flat for storage. The upright post may be adjusted to 80° to allow the table to be positioned closer to the user. Supplied with four castors, two of which are lockable. Available in two colour ways: white frame with white table top; black frame with walnut style table top.

Height 610 x 940mm (24 x 37"). Table top 600 x 400mm (23¹/₂ x 15³/₄"). Weight 9kg.

AA3750A White

AA3750B Walnut

5 Overbed Table with Plastic Top

Days

For ease of cleaning, this overbed table has a lightweight plastic top. The height can be adjusted with the ratchet handle. With four castors, the table can be easily moved around the room. Ridge around table edges helps prevent items slipping off. Height adjustment 750 to 1060mm (29¹/₂ to 41³/₄"). Clearance required 92.5mm (3¹/₂"). Maximum load 10kg.

872

1 Overbed Table Days

The overbed table has a laminated teak top and two independent points for adjusting the height, which allows the top to be angled. Rails on the sides of the table top prevent items from slipping off. No castors allow the table to be used with a bed or chair with a low clearance. Maximum load 10kg. Height adjustment 610 to 910mm (24 to 36"). Table top size 610 x 400mm (24 x 15³/₄").

751

2 Adjustable Bed and Chair Table

This table can be adjusted in height from 620mm (25") to 940mm (37¹/₂") to accommodate different heights and patient positions. Four plastic feet are mounted on the base, ideal for use with low base beds and chairs. The attractive light oak laminate top has raised upstands to help retain items when the top is tilted between 0 to 70°. Supplied flat packed. Table height 620 to 940mm (25 to 37¹/₂"). Width 620mm (25"). Depth 400mm (16").

AA3730

3 Overbed Table with Castors Days

The overbed table has a laminated teak top and two independent points for adjusting the height which allow the top to be angled. Rails on the sides of the table top prevent items from slipping off. The four castors allow the table to easy glide to and from the bed or chair, ideal for those with limited strength and mobility. Maximum load 10kg. Height adjustment 610 to 910mm (24 to 36"). Table size 610 x 400mm (24 x 15³/₄"). Castors 50mm (2").

751C

4 Adjustable Bed Table

This versatile trolley table can be used with bed or chair to provide a convenient tiltable table. The frame has height adjustable upper sections controlled by clamping screws, which allow the table to tilt. Fitted with four castors for manoeuvrability. Table height (flat) 595 to 790mm (23¹/₂ to 31"). Table tilts up to 50° either side. Foot clearance 90mm (3¹/₄"). Table top 540 x 405mm (21 x 16"). Weight 5.9kg.

AA3734

5 Overbed Table Days

Manufactured from chrome plated and powder coated steel tubing, featuring an easy to clean laminated teak top. The top has raised edges and open corners to prevent items slipping off. Fitted with four castors for easy maneuvering. Height adjustable from 530 to 820mm (21¹/₄ to 32³/₄").

Maximum load 10kg.

753C

6 Table Valet

A portable table ideal for TV dinners, bedside meals, reading and hobbies. This lightweight table folds quickly and easily for storage and transportation. The wipe clean top has a lip to prevent items from rolling off and is adjustable in both height and angle. Table top 520 x 400mm (20¹/₂ x 15³/₄"). Height adjustment from 530 to 730mm (20³/₄ to 28³/₄"). Weight 2.5kg.

AA3701

1 Adjustable Bed Raisers Homecraft

These metal framed bed raisers are width and height adjustable, providing the user with a more comfortable position whilst getting in and out of bed. The width adjustment allows the raisers to be used on a single, double, queen or king-size bed. To keep the raiser at the required height, a grub screw is inserted into the tube using an Allen key, which is supplied. The telescopic frame is easily installed and adjusted using the black knob. The raiser is fixed to the side of the bed frame using screws for security. Supplied as a pair, one for each end of the bed. Castor size 50mm (2"). Bed width 900 to 1540mm (35¹/₂ to 60¹/₂").

Height

- 09 117 6254** Static 60 - 310mm (2¹/₄ - 12¹/₄")
- 09 117 6262** Wheeled 97 - 347mm (3³/₄ - 13¹/₂")

Maximum total load **318 kg** **50 st**

2 Medeci Furniture Raisers

These unique secured raisers enable a variety of furniture to be raised at the heights required for the user. The raisers are easily fitted to a wide range of beds and chairs. Armchairs and beds with castors can be raised from 100mm (4") to 178mm (7"). Chairs and beds with wooden legs can be raised from 50mm (2") to 127mm (5"). The raisers are suitable for uneven floors and are unobtrusive, reducing the risk of tripping. Each set is supplied with four castor replacement bobbins so that when fitting to an armchair or divan bed the castors can be replaced with the adaptors for an even more secure fit.

09 118 6972

Maximum total load **500 kg** **78 st**

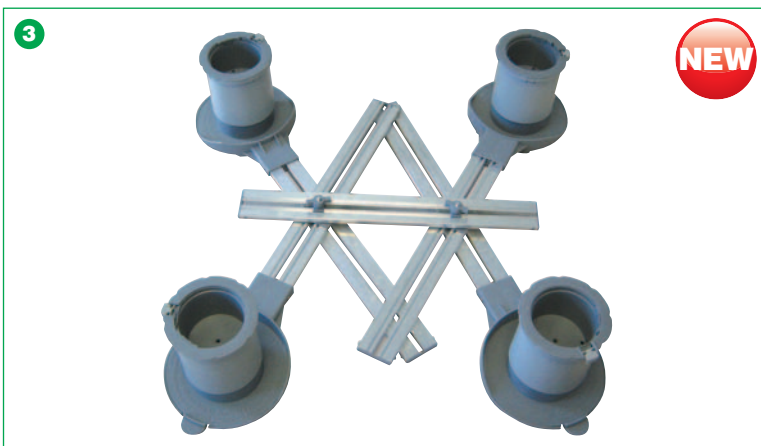

3 Medeci Furniture Link Arms

The Medeci furniture link arms are for use with the Medeci furniture raisers. The link arm system has been developed to enhance the versatility of the popular Medeci Furniture Raisers. Manufactured from aluminium, the link arms are strong and lightweight with the added benefit of being able to be machine cleaned. The furniture raisers simply clip in, without the need for tools. The standard unit is supplied in a chair formation but can be separated into linked pairs and used with additional short or long stretcher bars, to allow use in a wide range of formations and different applications. The Medeci furniture raisers must be ordered separately.

1 Langham Multi-Purpose Raiser

Unique in design and versatility, this modular raiser has been carefully developed using feedback received from Occupational Therapists. Designed to raise chairs, settees and beds equally well. Discreet when used under furniture, but has maximum support giving security and reassurance. Each support pivots on the link bars to ensure a snug fit to the side of the furniture either at the corner or as a central support along the side of the bed supported. The whole unit is height adjustable with simple to use clip on sections, each 20mm (3/4"), giving a wide range of heights. Height without adjusters is 80mm (3 1/4"). Supplied as individual sections to ensure you have the parts you need to customise the raiser for the job required. For example, to raise an armchair by 115mm (4 1/2"), you would require two raiser packs, one pack of spreader bars and one pack of height adjusters, leaving you with five spreader bars and four height adjusters for further assistance.

3 Langham Linked Bed Raiser

Similar to the AA3364, this has two sets of two moulded blocks linked together for use with a bed. The blocks have a broad base for stability, and are adjustable in height, using the inserts supplied. Once adjusted, the units are secured with a wing nut. Height raise 64 to 121mm (2½ to 4¾") in 19mm (¾") increments. Maximum width of leg 70mm (2¾") diameter. Overall width adjustment 965 to 1422mm (38 to 56"). Weight 3.4kg.

AA3370	500 kg	78 st
Maximum total load		

4 Etac Step Furniture Risers

Step furniture risers are used to raise the height of beds, chairs or tables. The height is adjusted by use of detachable blocks. They fit most furniture legs and are easily mounted without the need for any tools. Step is made of oak which makes it a very durable furniture riser and looks nice in any environment. Available in two models: Step I is suitable for rising tables and chairs with thin legs. Step II is more suitable for beds with legs up to a width of 100mm (4") and has a track for bedsteads. Height raise 50, 75, 100 or 125mm (2, 3, 4, or 5").

2 Leg-X Adjustable Raisers

Moulded sleeves that have plastic inserts to give different height raises to chairs. Integral fins and domed base give a pressure fit over the leg. Useful for odd-shaped legs. Supplied as a set of four with inserts. Sleeve height 200mm (8"). Maximum leg diameter 45mm (1 3/4"). Height raise 75, 100 or 125mm (3, 4 or 5"). Weight 255g each. Supplied as set of four.

AA3320
Maximum total load **320 kg** **50 1/4 st**

3 Ladywell Adjustable Chair Raisers

Homecraft

Steel sleeves with epoxy coating and an internal platform that raises the height of a chair leg and clamps securely to it. Height is selected by moving the platform to one of two positions. A flexible plastic plate protects the leg where the raiser is secured. Supplied as a set of four. Height raise 70 or 95mm (2 3/4 or 3 3/4"). Maximum width of leg 40mm (1 3/4"). Weight 350g each.

AA3330
Maximum total load **318 kg** **50 st**

4 Medeci Furniture Jack

The Medeci Furniture Jack is an ideal tool for anyone who is involved in the physical raising of furniture; it enables elevation and support of furniture during the placement of raisers. Based on the lever principal, it is light, compact and quick to use. The extendable handle gives additional leverage and simple repositioning of the support bars allows the user to elevate the furniture to the required height. For example, when raising a divan bed the support bars will be lower than when raising a bed with legs. This is due to the section of furniture being raised is a different distance from the floor. Prevents potential personal injury by supporting furniture while raisers are fitted.

1 Parnell Premier Bed Rail

The Parnell bed rail is the ideal solution to help get in or out of bed. Its attractive, ergonomic design complements virtually any bedroom. Functional, strong, hygienic and safe, it provides the user with confidence and independence. Stored flat when not in use, it can be easily assembled and quickly fitted to the bed without the use of tools. Designed for use with electrically adjustable beds, the bed rail can also be used on domestic beds including divans, pine and steel or wooden frame beds. The bed rail is also compliant with the BS EN 1970:2000 standard. Fits to single or double beds on either side, with a clamp that firmly sits between the floor and the bed base. Comes complete with a full length and width steel floor frame for added stability. The front base is flat so there is no tripping hazard or obstacle to wheelchairs or walking frames. As standard, the rail height is 810mm (32") high. Floor frame length 810mm (32"), width 410mm (16"). Rail height 810mm (32"), width 280mm (11"). Weight 9.5kg.

Maximum user weight **115 kg** **18 st**

2 Parnell Premier Plus Bed Rail

All the same benefits as the standard Parnell Premier Bed Rail with a few additions. The height to the top of the handrail has been increased to approx 920mm (36 1/4"), making it suitable for higher beds or beds with very thick mattresses. The lead screw has additional height to cater for beds with a high clearance. The rail is also suitable for the larger user, with a maximum user weight of 165kg (26st). Designed for profiling beds it also fits conventional domestic beds. Very simple to assemble and fit to the bed with no tools or ties or straps of any kind being required. Independently tested to the load requirements of BS EN 1970:2000. Rail height 920mm (36 1/4")

Maximum user weight **165 kg** **26 st**

3 Elland Bed Grab Rail

The Elland bed grab rail has been designed especially to attach to the framework of metal beds. Can be fitted to either fixed or profiling beds. Supplied with two heavy-duty screw clamps that fix to the metalwork of the bed. Handle height 650mm (26"). Handle width 350mm (14"). Weight 2kg.

AA3477

Maximum user weight **180 kg** **28 st**

4 Bed Loop

Days

The bed loop provides additional support when getting into and out of bed, or can simply be used as an additional aid to achieve a comfortable position. The bed loop can be easily positioned onto the frame of the bed and can be secured by two ergonomic easy to grip hand knobs. Designed for use with the CasaBeds and similar styles of bed.

1 Bed Leaver™

For many people, rising from a lying to a sitting position and then standing is extremely difficult. Bed grab rails can provide the answer in most cases and also help restore independence to the user. The Liftwell Bed Leaver Bed Grab Rail has become one of the healthcare industry's best known and trusted bedroom aids. Consisting of a coated steel rail attached to a hard-wearing, wooden baseboard that is sealed and lacquered. Supplied with fixing straps to secure the rail in position on any size bed. Width 330mm (13"). Length 600mm (23½"). Handle Height 500mm (19½"). Weight 4kg.

AA3472

Maximum user weight

2 Easyleaver™ Bed Rail

This device enables the user to pull themselves from a lying position to a seated position when in bed. It also provides support when standing or entering and leaving the bed, thus helping to promote independence within the bedroom. May be used with most beds and cannot be felt through a standard depth mattress. Easy to assemble and supplied with fixing straps for extra security. Suitable for single to king size beds. Width 365mm (14¾"). Length 620mm (24½"). Handle height 470mm (18½"). Weight 3.1kg.

AA3470

3 Folding Easy Fit Bed Rail

The Folding Easy Fit Bed Rail provides a simple to fit alternative that can be used on both slatted and divan beds. The innovative folding design enables the bed rail to be stored and transported flat, but simply opened out and secured with clips when required for use. The bed rail is easily fitted by positioning it between the mattress and bed base with no straps required. The unique anti-slip sections help to retain the bed rail in position during use, reducing movement and increasing security. Overall size: Width 700mm (27¹/₂"). Depth 580mm (23"). Height 530mm (21").

805 Double

Maximum user weight **125 kg** **19 1/2 st**

Quick, easy fitting to most bed widths, the Homecraft Mattress Elevator has a smooth, quiet action. Supplied with a small, discreet and lightweight transformer. Available with side guards, for extra safety.

1 Mattress Elevator Homecraft

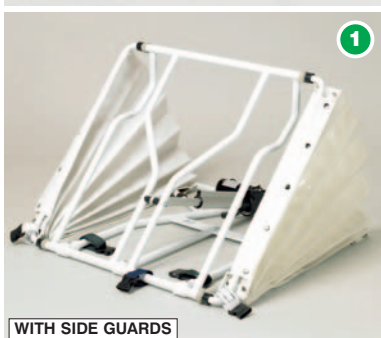

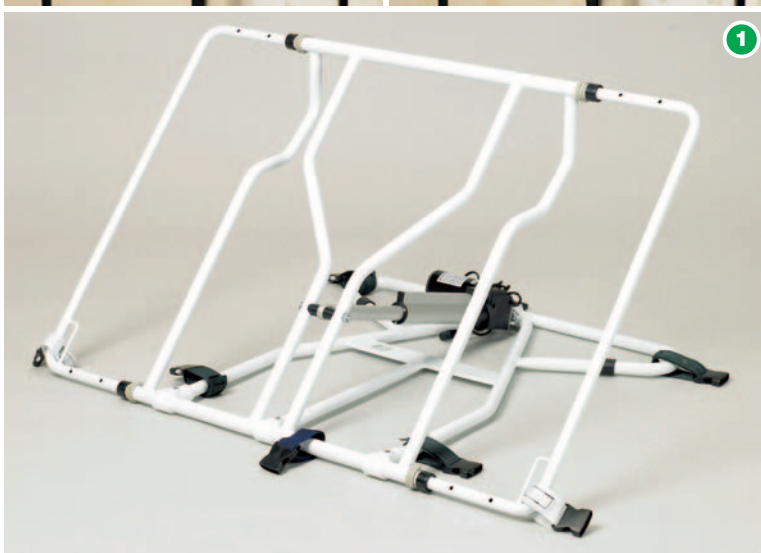

The Homecraft Mattress Elevator allows those confined to bed for long periods to sit or lie comfortably with a high degree of independence. Easily width adjustable for single through to queen size beds, using the safety pin clip system. Securely fixed into place using colour coded straps that simply clip together around the bed base and mattress. When in use, the Homecraft Mattress Elevator allows the user to rise and recline smoothly, quietly and safely at the touch of a button, thus reducing the need for manual handling. Due to the superior design, the drive mechanism cannot be felt through the mattress, even when in a fully reclined position. The compact transformer is unobtrusive, silent and can be easily hidden. The Homecraft Mattress Elevator allows a user weight of up to 254kg (40st) to be raised and maintained at any angle between 9° and 72°. Available with side guards that, when fitted, will help prevent pets or children from becoming trapped. Overall length 725mm (28½"). Overall width 740 to 1410mm (29 to 55½"). Range of movement 9° to 72°. Weight of elevator unit 11.2kg.

1 Inflatable Mattress Raiser

Easy to install and cost effective solution for those who require assistance whilst in bed. This simple to use, lightweight mattress raiser allows the user to raise or lower any existing mattress, up to 450mm (18") thick. Ideal for sufferers of acid reflux, hiatus hernia, or simply for those who would like to read, eat or watch television in bed. The air bladder reverts completely flat when not in use at a touch of a button. The hand controller features illuminated buttons for those with limited vision. Consists of three pieces; a wedge shaped air bladder, an electric air pump and a hand controller. Available in three mattress sizes; single, double and queen, all which can be maintained at an angle of 39°. The single inflatable wedge can lift up to a maximum load of 227kg (35³/₄st), the double and queen wedges can lift up to 454kg (71st). Overall width range; single 900mm (36"), double 1350mm (54") and queen 1500mm (60"). Weight 4kg.

	Size	
AA3850	Single	900mm (36")
AA3851	Double	1350mm (54")
AA3852	Queen	1500mm (60")

2 Pillow Lifter Homecraft

Unlike a mattress elevator, this device enables the user to lift and lower one person on a double bed to the desired position, without disturbing the other person. The electrically powered pillow lifter is operated with an easy to use hand control, enabling the user to raise and maintain the pillow at an angle between 9° and 72°. The frame has a maximum user weight of 254kgs (40st) and a width of 740mm (29") for the larger user. A thick padded, flame retardant mattress is provided to ensure excellent comfort for the user. Can be easily wiped clean. Length 1000mm (39¹/₄"). Maximum width 740mm (29"). Weight 15kg.

Maximum load weight **150 kg** **23¹/₂ st**

5 Rope Ladder Bed Hoist Homecraft

A simple idea to assist with sitting up in bed. The bottom ends of the cords tie around the bed legs, and the plastic ladder rungs can be gripped by the user to pull themselves up in bed on a hand over hand movement. Suitable for single or double beds. Rung length 200mm (8"). Diameter 25mm (1"). Cord length 3 metres (9'10"). Weight 285g.

AA3660

Maximum user weight **114 kg** **18 st**

MAXIMUM LOAD
The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1

1 Mattress Tilter

The Mattress Tilter is used under the mattress at the bottom of the bed to relieve the symptoms of swollen ankles, varicose veins or lower back pain. Alternatively, it can be used under the mattress at the top of the bed to relieve respiratory problems. Size 610 x 640 x 130mm (24 x 25 1/4 x 5").

AA39001

2 Inflatable Elevator Cushion

This inflatable cushion is designed to comfortably relax and elevate the user's legs. Being extremely versatile it can also be used as a back or head support or as a foot cushion. It is easily inflated and deflated with the pump supplied, making it fully portable. Size 635 x 685mm (25 x 27"). Weight 500g.

AA3625

3 Adjustable Bed Length Reducer

Aides in preventing people from slipping down when seated in bed, thus reducing the persons movement in bed. Can be adjusted from 300 to 400mm (12 to 16") to accommodate the majority of users. Width 825mm (33"). Height 300mm (12"). Weight 4kg.

09 116 0035

4 Bed Foot Rest

This foot support provides comfortable foot positioning and helps to prevent foot drop. There are two sides to choose from, one angled, one straight, to accommodate different foot positioning requirements. Also useful for keeping the sheets and blankets off the user's feet. Straps secure the vinyl covered, padded support in the desired place. Size 610 x 330 x 254mm (24 x 13 x 10").

551183

5 Foot Board

A simple device to help prevent people from slipping down when seated in bed. Covered in fleece for comfort, this product is easily attached to the mattress of a divan bed using a quick release buckle. Fits single to king sized beds. Width 450mm (18"). Weight 1kg.

1 Adjustable Cot Sides Homecraft

Adjustable in width, length and height to fit virtually any divan bed. The quick and simple adjustment allows the bed to be installed on a small single, single, double or king-size bed. To use the cot sides with a double or king-size bed, the optional extension kit is needed. The base frame fits between the mattress and the bed base to add stability. The height can be easily adjusted using the pin clip system. By a simple push of the quick release button, the cot side drops down, allowing for a patient to be moved. The cot sides can be simply removed to give access for making the bed. Side rail length 1300 to 1843mm (51¹/₄ to 72¹/₂"'). Height of top rail over bed base 430 to 525mm (17 to 20³/₄").

- 09 117 6221** Single Sided
- 09 117 6239** Double Sided
- 09 132 4391** Optional extension kit

2 Castle Adjustable Cot Sides Homecraft

The Castle cot sides fit between the mattress and the bed base. Adjustable in width for single or double beds and also in length. They can be adjusted in height, using a pin clip system. The cot side is dropped down by a simple push button release and raised up with a click, lock action. The whole side can be removed easily to give quick access for making the bed. Bed width 840 to 1370mm (33 to 54"). Side rail length 1266 to 1866mm (50 to 74"). Height of top rail over bed base 366 to 591mm (14¹/₂ to 23"). Side drop on release 250mm (10").

		Weight
AA3418	One Side	9.1kg
AA3420	Two Sides	14.4kg

3 Night Rail Homecraft

This rail is secured by means of two long arms that slip under the mattress. It can be easily removed and disassembled into three pieces for storage. The clip-on nylon cords must be secured around the legs of the bed for safety. It is not to be used for children under the age of eight. Height above base 360mm (14¹/₄"'). Width of mattress arms 610mm (24"). Length of side rail 935mm (37"). Weight 2.3kg.

AA3452

4 Side Wedges Homecraft

These side wedges help to prevent a patient from falling out of bed and are especially suitable in situations where restraint is an issue. A cotton draw sheet is held in place by straps that have quick release buckles. The wipe clean wedges are secured into position onto the draw sheet with two hook and loop strips. Size of wedges 900 x 200 x 200mm (35¹/₂ x 8 x 8").

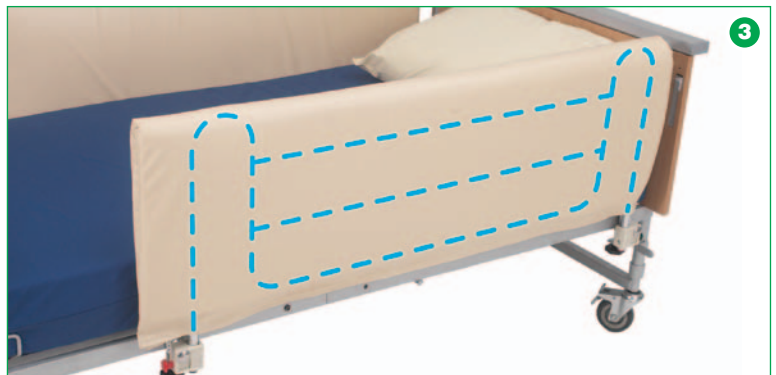

- AA3497** Side Wedges and Draw Sheet Kit
- AA349701** Additional Pair of Side Wedges
- AA349702** Additional Draw Sheet

1 Cot Side Bumpers **Homecraft**

Made from thick foam, covered with vapour permeable, wipe clean fabric. These bumpers are made to fit a variety of cot sides and are easily fastened in place. Supplied as a pair. Length 1524mm (60"). Depth 381mm (15"). Weight 1kg each. **AA3440**

2 Full Length Cot Side Bumpers

These foam pads are covered with a wipe clean vinyl and have a hook and loop closure along the length to secure them to a range of cot sides. Suitable for most profiling beds. Supplied as a pair, each one 2m (78³/₄" long. When mounted, they are 390mm (15¹/₄" deep. Weight 2kg each. **AA3441**

3 Cot Side Bumper for 3 & 4 Bar Chrome Rails **Days**

These cot bumpers have closed ends to totally cover the trombone type rails. The closed ends ensure a secure fit and cover the vertical spaces. The bumpers are suitable for the 3 bar and 4 bar rail. Available in two lengths.

- 875** 1300mm (51¹/₄")
- 876** 1830mm (72")

4 Connected Cot Side Bumpers

To prevent the patient from pushing their limbs between the cot sides and the mattress, this unit has two bumpers that are sewn together with a connecting loop. Covered in a wipe clean vinyl, the bumpers are well padded for protection against knocks and bumps. Once in position, the mattress secures the system. Length 1400mm (55"). Height 390mm (15¹/₄"). **AA3496**

5 Cot Side Bumpers with Mesh **Days**

This cot side bumper is covered in FR cream PVC with inner CM foam and a hook and loop system to close. The bumpers with mesh ensures the two bar wooden rails are totally enclosed, providing a safe and friendly environment. **874M**

6 Posey Horseshoe Wedge

Helps prevent patients from entrapment in the headboard, footboard or side rails. Also deters patients from bed exit. The hook and loop flaps secure the wedge under mattress and the straps secure to the side rails, headboard or footboard. The wedge rises 250mm (10") above the mattress surface. Made of soft, durable foam and covered in wipe-clean vinyl, making cleaning easier. Length 950mm (38"). Height 425mm (17"). Depth 50mm (2"). **09 116 0746**

1 Casaflex Safety Mat Days

The Casaflex safety floor mats have been designed to provide added security in combination with the Casabeds. There are two versions available; one flat and one space conserving folding mat.

Length 2000mm (78³/₄"). Width 670mm (26¹/₄").
Depth 90mm (3¹/₂").

CX35F **A** Casaflex Folding Mat

CX35 **B** Casaflex Flat Mat

FOLDED

1

1 Large Folding Bedside Mat Homecraft

To be located alongside the bed for vulnerable patients that are at risk of falling. The mat will act as a cushion for the patient. Easily folded away, using the supplied securing strap and handle for transportation or storage. Can be easily wiped clean. Length 1700mm (67"). Width 890mm (35"). When folded length 850mm (33½").

09 117 3210

2

2 Easy Access Bedside Mat Homecraft

With a thickness of 50mm (2") and an angled edge, wheelchairs can easily roll on or off the mat. Made from high density foam with a vapour permeable cover with a non-slip base. The mat can be easily folded away, using the supplied securing strap and handle for transportation or storage. Can be easily wiped clean. Length 1700mm (67"). Width 650mm (25½"). When folded length 850mm (33½").

09 117 3202

3

3 Triple Folding Bedside Mat Homecraft

A high density foam mat that is covered with a vapour permeable cover and a non-slip base. The mat can be easily folded away, using the supplied securing strap and handle for transportation or storage. Can be easily wiped clean. Length 1700mm (67"). Width 650mm (25½"). When folded length 566mm (22").

09 117 3194

4 Fall Out Mat

Suitable for use with a low level bed, this high density foam mat is covered in vinyl and folds for storage. Helps to reduce the possibility of impact related injuries when the situation dictates that bed rails should not be used. The mat folds into three for storage and transport. Size 1850 x 600 x 50mm (72¾ x 23½ x 2").

1

1 Bedside Cabinet with Overbed Table Days

Attractive, beech MDF wood-effect bedside cabinet with ABS-protected edges. Incorporates an overbed table with a tilt adjustment mechanism, which can be folded away when not in use. Supplied with four castors allowing easy positioning, with two brake versions for safety. Colour co-ordinated with the Casabed range offering a great combination for the bedroom. The cabinet is supplied ready assembled but the fittings require self-assembly. Width 530mm (21"). Depth 450mm (17³/₄"). Height 865mm (34"). Weight 40kg.

R3

2 Bedside Cabinet without Overbed Table Days

Similar to the cabinet above, but without the overbed table. The top drawer is lockable with chrome effect fittings. Width 425mm (16³/₄"). Depth 450mm (17³/₄"). Height 865mm (34"). Weight 26kg.

R4

3 Bedroom Commode Chair Homecraft

This attractively designed woven commode chair integrates subtly into virtually any home décor. The wipe clean weave is flexible and forgiving, giving ample support and comfort for the user. A vinyl covered foam seat pad is supplied, providing a comfortable chair when not in use as a commode. The moulded plastic seat is ergonomically shaped for comfort and also accommodates the easily removable pan, which is supplied with a lid and folding handle for ease of use. Seat height 462mm (18"). Seat width 437mm (17"). Seat depth 437mm (17"). Width at top 519mm (20¹/₂"). Total height 769mm (30¹/₄"). Base width 562mm (22"). Weight 7kg.

- 1022 Options & Accessories

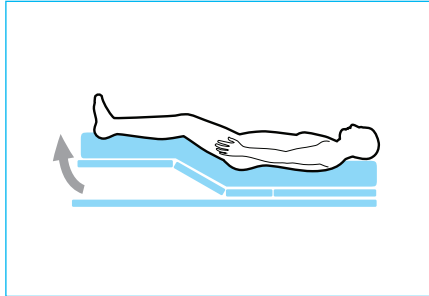

What positioning options do **casabeds™** offer?

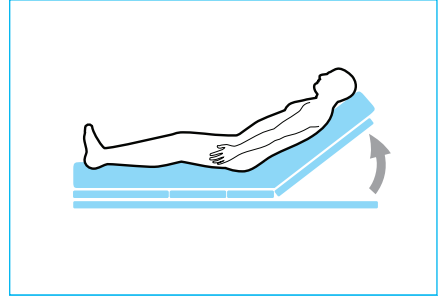

No Profiling

Users may not always want to have their legs or back elevated. If this is the case they can simply set the bed to its flat or almost flat position.

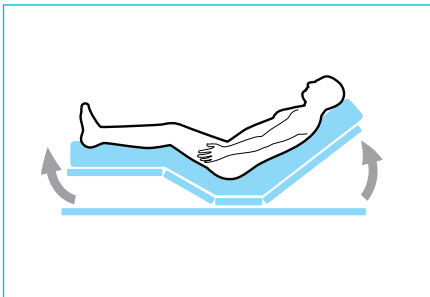

Leg Elevation

Leg elevation helps to reduce fluid and pressure in your legs and ankles, making it an ideal position to soothe away aches and pains from tiredness or injury.

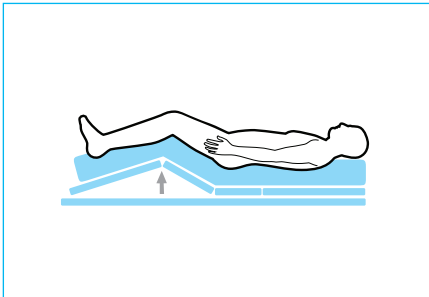

Back Elevation

Back elevation offers great general positioning. Casabeds can elevate your back by up to 70 degrees, offering comfort and support for relaxing, reading, watching television or even eating in bed. Some people also find back elevation helps to relieve respiratory conditions.

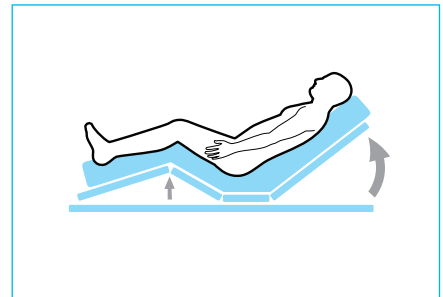

Back Elevation with Leg Elevation

This position enables users to achieve the benefits of both back and leg elevation. Back and leg elevation can also help users get into and out of bed safely and easily.

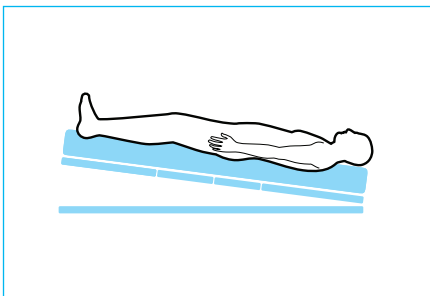

Knee Brake

Allows the user to lie flat with the knees bent, offering additional support for the knee area.

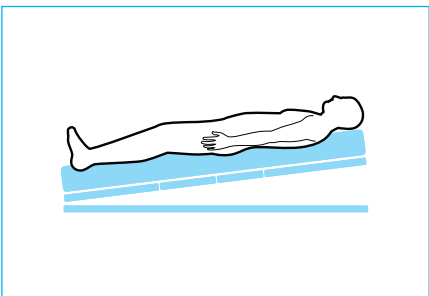

Back Elevation with Knee Brake

Offers great general positioning for the user, with comfort and support for the back and knee area.

Trendelenburg

Allows the user's feet to be raised higher than the head, for a variety of medical purposes. Ideal for postural drainage, this position should only be used under professional supervision.

Anti-Trendelenburg

This position provides added pressure relief for various areas of the body. Must only be used under medical supervision.

Hypo Chloride Solution Compatible - 1:100,000 parts diluted (or to be used in conjunction with local infection control guidelines)	

Features and Benefits

- A** Temperature sensitive visco elastic foam surface (Castellated cut) - provides excellent patient comfort by conforming to the body contours
- B** Finest quality CMHR foam base - prevents patient bottoming out & enhances longevity
- C** Multi-stretch, vapour permeable fabric (impregnated with an anti-fungal agent) - reduces shear & friction forces, whilst assisting infection control policies.
- D** Fully high frequency welded cover - prevents fluid ingress & aids decontamination processes (can be laundered up to 80°C)
- E** Toughened PU / non-slip base - provides a robust protective surface against hydrolysis / strikethrough
- F** Fully replaceable parts - ensures great value for money

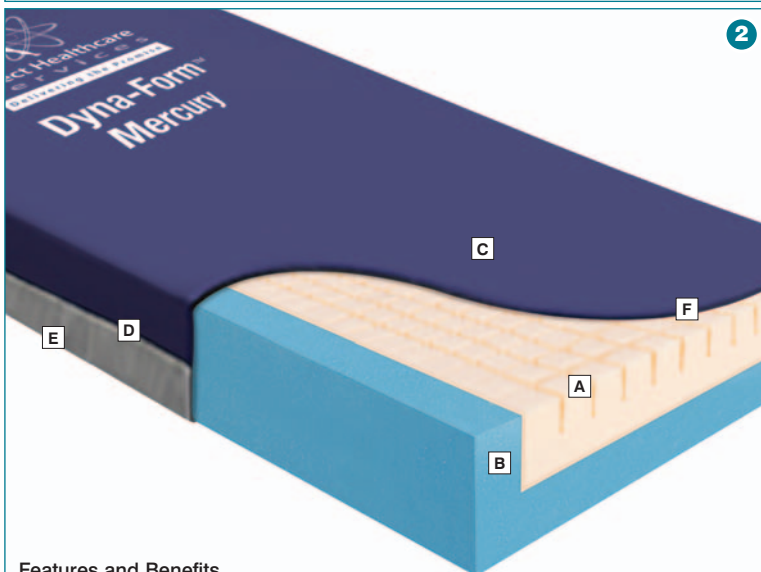

2 Mercury Dyna-Form™ Mattress

This mattress is specifically designed for users considered to be at high / very high risk of pressure ulcer development. Comprising a specialist "castellated cut" and blends of the finest quality Combustion Modified High Resilient Foam (CMHR), this product provides not only the best pressure re-distribution properties, but great patient comfort and product longevity. Side wall construction enables primary stability for patient transfer purposes. Complete with a durable, multi-stretch, vapour permeable cover and a toughened polyurethane base, the Mercury™ mattress provides aid to the ever important infection control standards of a modern hospital, nursing or homecare environment.

INFORMATION

For more Bariatric products, please see page 1034.

1 Pressure Relieving Mattress Homecraft

This low to medium risk mattress is robust yet light to use. The deep, luxury grade foam surfaces surround a supportive core. Ideal as a replacement mattress with no 'add-on topper' needed, meaning excellent value for money. The vapour permeable, two-way stretch cover has a wipe clean surface with no laundering required. Waterproof and fire retardant, the cover also has a zip on three sides for easy inspection or removal. Size 1930 x 910 x 150mm (76 x 36 x 6"). Weight 10kg.

AA3968

Maximum user weight

SUITABLE FOR THOSE AT LOW TO MEDIUM RISK OF DEVELOPING PRESSURE ULCERS

1

2 Dr Prelease Overlay

This effective gel overlay supports the body whilst reducing excess pressure on bony prominences, helping to minimise the risk of skin ulceration. Coated with a fluid resistant PU film, which helps to prevent bacteria growth. Ideal for those who are uncomfortable in bed or have to lie for extended periods.

	Size	Weight
AA3905A	1050 x 480mm (41 x 19")	8kg
AA3905B	680 x 450mm (28 ³ / ₄ x 17 ³ / ₄ "	5kg
AA3905C	1880 x 650mm (74 x 25 ¹ / ₂ "	23kg

2

3 Flexon 2000 Mattress Overlay

Designed for use with a standard mattress, this mattress overlay is made from 100mm (5") highly resilient contoured foam, which will cushion and protect whilst supporting the patient's profile. Covered with a multi-stretch, vapour permeable cover with double stitched seams to ensure a protective barrier to fluids. Available in two sizes.

	Size	Dimensions	Weight
AA39004	Single	1950 x 860mm (78 x 34 ¹ / ₂ "	8kg
AA39005	Double	1900 x 1370mm (76 x 55")	12kg

Maximum user weight

3

4 Mattress Topper

The surface of this mattress topper allows it to mould to the body's shape evenly and provide extra comfort. Depth is 75mm (3").

	Size	Dimensions	Weight

1 Russka Pressure Relieving System

A new concept in pressure care, this system consists of a control unit and a choice of two overlays to best match your requirements.

Control Unit

This unit has built in software enabling inner cushion pressure settings, based on the Body Mass Index of each patient. The unit is virtually noise and vibration-free, and allows high-quality resting comfort, enhancing the quality of life of bedridden patients. When the patient changes position, the automatic pressure adaptation feature quickly modifies the pressure required in the overlay. Two-year guarantee. (Extended to 5 following recommended service regime). Size of unit 240 x 240 x 110mm (9 1/2 x 9 1/2 x 4"). Weight 3kg.

Russka 2500 Overlay

This low air loss overlay provides proven treatment success to patients at risk of pressure sores, and is ideal as a semi-disposable overlay for single patient use. Micro-perforations on the overlay facilitate an improved microclimate and lying stability is improved due to the two-chamber system. Supplied with a vapour permeable cover. Suitable for the prevention and treatment of pressure ulcers up to and including level III on the Norton scale, and for immobile patients who use a standard mattress and rely on optimal cushion pressure distribution. Overlay size when filled is 1980 x 900 x 110mm (78 x 35 1/2 x 4 1/4"). Weight 3kg. One-year guarantee.

Russka 3000 Overlay

This low air-loss overlay provides proven treatment success to pressure-area-risk patients. Designed for re-use with chemical cleaning, it is particularly suitable for use in hospitals and home-loan stores. The 3000 overlay offers improved stability for patients in lying position and is extremely efficient for all pressure stages. Supplied with a breathable top cover and detachable bottom cover. It is recommended for the prevention and treatment of pressure ulcers up to and including level IV on the Norton scale, immobile patients who use a standard mattress and rely on optimal cushion pressure distribution, and those patients who suffer from pain caused by long bed-ridden periods. Overlay size when filled is 1980 x 980 x 140mm (78 x 38 1/2 x 5 1/2"). Weight 6kg. Can be re-used following chemical cleaning. Two-year guarantee.

2 Tamora Alternating Mattress Overlay

Dynamic alternating overlay system for the prevention and treatment of pressure ulcers, can work alongside the Viola alternating cushion to provide 24 hour patient care. It consists of 20 removable cells, enabling each cell to be repaired or replaced. The mattress is supplied with a two-way stretch polyurethane waterproof and vapour permeable cover that helps to reduce shear and friction. To comply with infection control standards, the cover has welded seams and enclosed zips as standard to prevent fluid ingress and mattress contamination. The air feed tubing guards against cross infection. The mattress has securing straps to prevent movement and a CPR function fitted as standard. The quiet pump has audio and visual alarms with one visual alarm that indicates the optimum inflation level. The controls feature an adjustable weight setting overlay to be used on different weights of patients.

Mattress size 860 x 1980 x 125mm (34 x 78 x 5"). Total weight 11kg.

3 S-Mate™ Cushion

The S-Mate cushion is made from raised square cells of polyurethane gel on a foam base. The exterior is covered with a water-resistant and breathable Lycra fabric. The raised cells are placed at equal distances from one another allowing the air to circulate and improving comfort. Weight 3kg. Size 400 x 400 x 50mm (15³/₄ x 15³/₄ x 2").

AA3975

Maximum user weight **100 kg** **15³/₄ st** **SUITABLE FOR THOSE AT LOW RISK OF DEVELOPING PRESSURE ULCERS** **LOW**

4 Dr Prelease™ Gel Cushion

This easy to use cushion is made of polyurethane gel, which has lower heat conductivity and helps keep the pad at a mild temperature. Available with a single or a dual airbag to give additional protection to the ischemic area.

The air circulates between the cells in the airbags, reducing pressure concentrations around bony prominences and providing relief and comfort to the medium risk user. The gel only cushion offers basic pressure relief and shear reduction for people at low risk of developing pressure ulcers. Cushion size 425 x 425mm (16³/₄ x 16³/₄").

4 Relax Gelcell Cushion

A unique combination of air and gel technology that provides effective pressure relief and comfort to the high risk user. The cushion has 34 interconnected air-filled cells, each covered with a layer of pressure relieving silicone-based Trugel. As pressure is applied, air circulates to each cell, distributing weight evenly, thus reducing high pressure concentrations around lean prominences. The cushion can be quickly and easily adjusted to suit the comfort of the user. Covered in a stretchy and breathable material with anti-slip base which reduces the effects of shear and helps support good posture. Easy to clean and maintain. Length 425mm (17"). Width 425mm (17"). Height 50mm (2"). Weight 2kg.

09 116 0241

SUITABLE FOR THOSE AT **HIGH RISK OF DEVELOPING PRESSURE ULCERS**

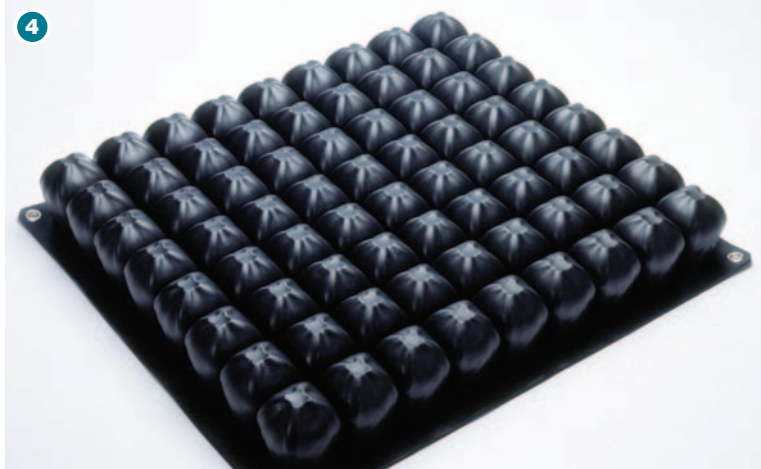

5 Relax Gelcell G2 Cushion

For high risk patients, the cushion cells are split into two separate air chambers allowing the air pressure to be adjusted differently on each side of the cushion. Each of the cells are contoured towards the rear. When pressure is applied, the air circulates to each of the cells, distributing weight evenly. The Trugel helps maintain body temperature, thus reducing the risk of shear and friction. Lightweight and easy to clean. Length 425mm (17"). Width 425mm (17"). Height 50mm (2"). Weight 2kg.

09 116 0258

SUITABLE FOR THOSE AT **HIGH RISK OF DEVELOPING PRESSURE ULCERS**

1 Visco Care Cushion Homecraft

This Visco Elastic cushion offers affordable pressure relief for the high-risk user. Suitable for use in both wheelchairs and day care chairs, the anti-slip base provides additional security. The two-way stretch cover is waterproof and can be easily wiped clean. A water resistant zip allows the cover to be removed when required. Size 430 x 430 x 80mm (17 x 17 x 3 1/4"). Weight 1.1kg.

AA3979

Maximum user weight **158 kg** **24 3/4 st**

SUITABLE FOR THOSE AT HIGH RISK OF DEVELOPING PRESSURE ULCERS

2 Gel Cushion Homecraft

Wheelchair users and seated patients are at high risk of developing pressure sores. They need a reliable cushion that will prevent the onset of these sores and where necessary assist in the management of existing sores. This cushion has a carefully designed 'no lump' gel sac with bactericide incorporated into a foam exterior. It assists patient movement and gives excellent stability in use. It reduces interface pressures and provides high conformity giving specific ischial and perineal pressure protection. Covered in a breathable fabric that is waterproof and can be wiped clean. Two way PU coated nylon stretch permanent cover. Size 430 x 430 x 80mm (17 x 17 x 3 1/4"). Weight 2.4kg.

AA3957

Maximum user weight **108 kg** **17 st**

SUITABLE FOR THOSE AT HIGH RISK OF DEVELOPING PRESSURE ULCERS

3 Gel Plus Cushion Homecraft

Development of the original Gel cushion has led to this unique Gel Plus cushion that combines combustion modified high resilient foam with visco elastic heat sensitive foam and silicon gel, to provide the user with the ultimate in comfort. Designed for those wheelchair users or seated patients that are at high risk of developing pressure sores. The cushion cover offers a PU coated 2 way stretch fabric top/side panels and non-slip base with sewn seams and zip opening. Size 430 x 430 x 80mm (17 x 17 x 3"). Weight 1.5kg.

09 116 3906

Maximum user weight **127 kg** **20 st**

SUITABLE FOR THOSE AT HIGH RISK OF DEVELOPING PRESSURE ULCERS

4 Airy™ Cushion

Constructed from neoprene cells, which act to keep steady pressure in the cushion at all times and to maintain the softness of the cells in all environments. Not affected when autoclaved or if exposed to severe cold climates. The ischials are immersed fully in the cushion, giving an even distribution of pressure. Independent cells assure superior airflow between the cells via the ventilation channels. Useful for clients who are at high risk from pressure sores. Supplied with a cover and a hand pump. Size 406 x 457mm (16 x 18").

4 Foam Ring Cushion

This durable foam cushion has a recess in the centre for comfort when seated. Extremely cost effective, it is supplied with a cover that can be removed for washing. Size 420 x 320mm (16¹/₂ x 12¹/₂"). Height 75mm (3"). Weight 350g.

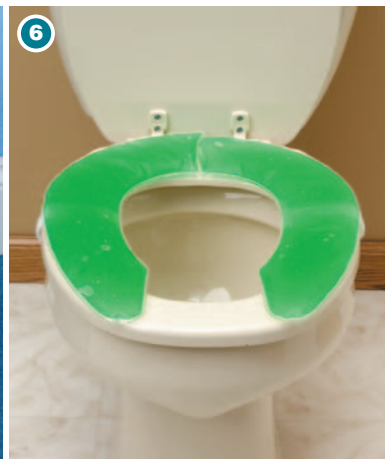

AA3922**5 Economy Rubber Ring Cushion**

An inflatable rubber ring cushion to help provide additional comfort to the user. The surface of the ring is lightly patterned to prevent slipping. External diameter 457mm (18"). Internal diameter 160mm (6¹/₂"). Weight 490g.

AA3938**6 Inflatable PVC Ring Cushion**

This ring cushion inflates easily by mouth, making it ideal for use when travelling. The surface has a suede like feel for additional comfort. External diameter 457mm (18"). Weight 150g.

AA3939

1 Commode Cushion

Clinically proven commode cushion that provides better pressure relief and distribution than visco-elastic and some leading air cushions. Washable at 40°C, the cushion can be used as supplied or with an optional autoclavable cover as illustrated. Size 500 x 500 x 100mm (20 x 20 x 4"). Weight 600g.

- AA2391 Cushion
- AA2392 Cover Only

Maximum user weight **90 kg** **14 st**

2 Commode Pressure Gel Cushion

Designed to fit most commodes to provide pressure relief. This cushion conforms to the body contours, significantly reducing the pressure. Size 410 x 430mm (16 x 17") with oval hole. Weight 4.1kg.

AA2390

Maximum user weight **127 kg** **20 st**

3 Commode Gel Cushions

These 20mm (3/4") thick gel-filled cushions with cut out, provide additional comfort for those needing to sit on the toilet, commode or shower chair for long periods. The gel pack is baffled to keep the gel located in bony areas. The supple polyurethane material is soft and gentle on skin. Aperture size 200 x 250mm (8 x 10").

Size
555357 Standard Cushion 400 x 400mm (16 x 16")

Maximum user weight **136 kg** **21 1/4 st**

4 Commode Ring

This ring-shaped cushion can be used on most commodes or toilet seats to provide comfort. Covered in waterproofed cotton with a soft, fibre filling. External diameter 406mm (16"). Internal diameter 270mm (10 1/2"). Weight 425g.

AA2394

5 Gel Toilet Pads

These two curved gel pads provide additional comfort and pressure relief when seated on the toilet for long periods. Gel will not leak even if the pads are cut or punctured. Supplied with removable anti-slip covers that are machine washable. Latex free.

AA2629

6 Horseshoe Gel Cushion

This unique, high viscosity gel filled cushion provides additional comfort to people who need to sit on the toilet for long periods of time. The sectioned design keeps the gel located in high pressure areas, whilst the soft and supple polyurethane outer is gentle on the skin. The flow-able gel helps to prevent shearing of the skin. Four hook and loop straps secure the cushion to the toilet seat. Latex free.

**2 Inflatable Bath Cushion**

This inflatable cushion gives additional comfort and support when bathing. Four sucker feet on the underside secure it to the bath. Size 455 x 455mm (18 x 18"). Weight 200g.

AA1814

Maximum
user weight

**3 Gel Bath Cushion**

These bath cushions are filled with high viscosity gel and sectioned to ensure the gel remains located in specific pressure areas. The outer cushion is made from soft polyurethane, which is gentle on the skin. The two-ply viscous gel design prevents sheer between the user and the cushion and provides additional comfort when bathing. Two sizes available. Weight 1.9kg.

557448 300 x 300 x 20mm (12 x 12 x 4/5")

09 116 3781 410 x 410 x 20mm (16 x 16 x 4/5")

**4 Waffle® Multi-Care Pad**

A double cushion offering relief to the back and the seat area in a wheelchair. Can also be used laterally to cradle and stabilise the patient. The low air profile reduces pressure and helps prevent and treat pressure ulcers. Adjustable straps can be used to attach the cushion to a chair. Size 400 x 920mm (16 x 36¼"). Weight 900g.

AA3943

Maximum
user weight

**5 Full Length Waffle® Chair Cushion**

Similar in function and appearance to item 4 above, but designed to fit the whole chair length for total pressure care. May also be used in the bath, to offer comfort and relief. Adjustable straps can be used to attach the cushion to a chair. Size 530 x 1830mm (21 x 72"). Weight 1.4kg.

1 Viola Alternating Cushion System

The Viola alternating cushion and pump can work alongside the Tamora alternating mattress overlay or independently to provide superb care to the patient. Specifically designed to deliver a high degree of care for the patient, this competitively priced pressure relieving system is suitable for medium to high risk pressure ulcer treatment. To set the system for the optimum performance, the user can control the comfort using the control knob whilst seated. Pressure indicators which are visible on the control unit identify when the pressure has reached the preset level and warn the user that the pressure is below an acceptable level. The cushion is provided with a two-way stretch polyurethane waterproof and vapour permeable cover, reducing shear and friction. Consists of a pump, a seat cushion, a foam support base and 6 alternating cells. Cushion size when inflated 425 x 425 x 100mm (17 x 17 x 4"). Weight 5kg.

Maximum user weight

SUITABLE FOR THOSE AT MEDIUM TO HIGH RISK OF DEVELOPING PRESSURE ULCERS

2 Wheelchair Fleece

This wool pile fleece brings warmth and comfort. It is machine washable, fire retardant, and is secured with strong fabric ties to prevent slippage on the wheelchair. Size 890 x 432mm (35 x 17"). Weight 420g.

AA3990

3 Padded Wheelchair Cushion

This quilted, fibre filled cushion, covers seat, back and arms of either chair or wheelchair. Seat size 360 x 260mm (14 x 10"). Weight 2kg.

AA3980

4 Curved Wheelchair Cushion

Homecraft

Firm crescent shaped foam pad to take sag out of a folding wheelchair seat. Size 432 x 432 x 51mm (17 x 17 x 2"). Weight 520g.

AA3959

5 Wheelchair Arm Covers

Homecraft

These simple but effective wheelchair arm covers fit snugly to the chair and give the wheelchair user more comfort. They are easy to attach with hook and loop fastenings and take up little space within the chair. Size 460 x 70 x 100mm (18 x 2³/₄ x 4"). Supplied as a pair. Weight 400g per pair.

AA3960

6 Foam Seat Cushion

This high-grade foam cushion is ideal for a variety of situations. It can be used to elevate an easy chair or used in a wheelchair to provide additional comfort. Covered with a wipe clean PVC fabric. Size 430 x 430 x 80mm (17 x 17 x 3¹/₄"). Weight 725g.

AA3913

DELIVERY

Delivery is approximately 2 to 3 weeks. Please contact Customer Services for more information.

1 Memory Foam Leg Support Pillow

Supports the knee and heel, ideal to help relieve symptoms of varicose veins and fatigue. Manufactured with a comfort memory foam layer and supplied with a removable, cleanable cover. Length 740mm (29 $\frac{1}{2}$ "). Width 580mm (23 $\frac{1}{5}$ "). Height 300mm (12"). Weight 4.5kg.

	Size	Weight
AA3906A	Small	160g
AA3906B	Medium	200g
AA3906C	Large	270g

3 Sheepskin Elbow and Heel Comforters

Made from 25mm (1") pile real lambswool fleece, these Elbow and Heel Protectors have padded hook and loop straps for maximum comfort. Machine washable. Supplied in single units.

AA3986A	Heel Protectors
AA3986B	Elbow Protectors

4 Heel Pad

This heel pad improves comfort on the susceptible heel areas, whether in bed or when seated. The hook and loop strap closure allows them to be individually fitted. Supplied in pairs. Weight 200g each.

AA3901

5 Gelbodies Heel and Elbow Protectors

The Trugel pressure relieving gel, enveloped in a soft and stretchy Coolband material, ensures these heel and elbow protectors give superior relief. Suitable for long term care, they can be used in the hospital and homecare environment. They are user friendly, lightweight, discreet and provide protection for both the heel and elbow from development of pressure sores. Sold in pairs.

	Size	Dimensions
AA3908A	Small	200-250mm (8-10")
AA3908B	Medium	250-300mm (10-12")
AA3908C	Large	300-360mm (12-14")
AA3908D	X-Large	360-410mm (14-16")

6 Gelbodies Heel and Ankle Protectors

Made from the same high quality materials as the heel and elbow protectors above, but with a larger gel pad to protect the ankle bones and help prevent the development of pressure sores when side lying. Sold in pairs.

	Size	Dimensions
AA3909A	Small	200-250mm (8-10")
AA3909B	Medium	250-300mm (10-12")
AA3909C	Large	300-360mm (12-14")

7 Gelbodies Universal Knee Protectors

Made from the same high quality materials as the Gelbodies protectors above, these universal knee protectors are designed to protect the knees from the development of pressure sores in the side lying position. Sold in pairs.

	Size	Dimensions
AA3982A	Small	230-280mm (9-11")
AA3982B	Medium	280-330mm (11-13")
AA3982C	Large	330-410mm (13-16")

1 Elbow and Heel Protectors Rolyan

Cushioned heel and elbow protectors with a foam pad which can be used in hospitals, nursing homes and extended care facilities. They can be machine washed and dried. They have a stretchable body and are knitted proportionately. Medication can be applied to pad when needed. One pair supplied.

	Max Length	Weight
A731S	230mm (9")	65g
A731M	280mm (11")	70g
A731XL	330mm (13")	75g

2 Elbow and Heel Protectors with Shock Absorbing Padding Rolyan

Helps protect the joint by diffusing and distributing pressure. Comfortable, stretchable stocking is proportionately knitted for a close fit. The shock absorbing Akton pads included with the protectors will not bottom out. May be used following a sudden injury or trauma to the elbow or heel, or simply to protect the joint as it rests against the surface. Pad is removable for washing. Sold as a pair.

	Max Length	Weight
A730001	230mm (9")	170g
A730002	280mm (11")	175g
A730003	330mm (13")	180g

3 Heel and Elbow Protectors

The 3mm thick polyurethane pad is held in place by a stretchable, soft terry loop material inside with a flat knit on the outside. The foam pad is tacked to the material to prevent slippage, yet allows the user to move the joint without a shearing effect. Five colour-coded adult sizes available. Machine washable. Sold in pairs.

AA3903C Medium 300-360mm (12-14")
AA3935A Calibrated Hand Pump

2 Heelift™ Suspension Boot

The Heelift Suspension Boots relieve heel pressure by suspending the heel in space. It is ideal for pressure sore prevention and treatment, and for those with diabetes, cardiovascular disease, dietary deficiencies, and more. Adjustable hook and loop straps and elevation pads allow for a custom fit; Tricot backing and polyethylene stiffener reduce friction and enhance client mobility. Prevents foot drop, unlike pillows or flat foam pads. The smooth Heelift is specifically designed for edematous legs to minimise chance for irritation or pressure points. Machine washable. Latex free.

- 1066 Warmth

1 Compression Stocking Aid Rolyan

A stocking aid which will apply support hosiery quickly and evenly. Grooves catch the compression stocking and prevent it from popping off. Works like a traditional sock aid - just pull the stocking over the shell, insert the foot and pull the cord to bring the hose up onto the leg. Suitable for Class 1 and 2 stockings. Recommended for below knee stockings but may still be suitable for some above knee models.

Small: 130mm wide x 140mm high (5¹/₄ x 5¹/₂"').
Large: 150mm wide x 145mm high (6 x 5³/₄"').

		Weight
A75440	Small	960g
A75441	Large	980g

2 Ezy-As™ Compression Stocking/Garment Applicator

The Ezy-As reduces the effort and pain when applying compression garments to both arms and legs. Designed to be used by patients independently or by carers of patients who are unable to apply their own stockings. The lightweight and robust Ezy-As doesn't disturb dressings or pull on fragile skin for a more comfortable feel for the user. Easy to use on a variety of different sorts of stockings. The optional handle attachment is able to help clients who have poor balance and difficulties reaching their feet. Available in three different sizes.

		Size (circumference)
09 131 8021	Small	280 to 350mm (11 to 13 ³ / ₄ "')
09 131 8039	Medium	320 to 400mm (12 ¹ / ₂ to 15 ³ / ₄ "')
09 131 8047	Large	380 to 470mm (15 to 18 ¹ / ₂ "')
09 131 8054	Optional handle	

3 Sock and Stocking Aid with Comfy Foam Handles

Comfy and simple to use device that helps individuals pull on socks or stockings. Just place the garment over the flexible plastic core, insert foot and pull the cord's two soft, foam handles to bring the garment over the heel and up the leg. For one-handed use, use the continuous loop cord with foam handle. Four versions available. Core length 240mm (9¹/₂"'). Cord length 600mm (24"'). Width 100mm (4"').

2083	
208302	Continuous Loop
208303	Continuous Loop with Notch
208304	Continuous Loop Wide Style

4 Sock Aid Rolyan

So easy to use, simply pull the sock over the aid, insert the foot and pull the straps to bring the sock up over the foot. The cord style helps apply shorter socks whilst the wide style helps apply socks for people with larger feet. The wide style also features a flat design, preventing the sock aid rolling whilst the sock is being applied.

Cord style: Length 255mm (10"'). Width 100mm (4"').
Wide style: Length 255mm (10"'). Width 127mm (5"').

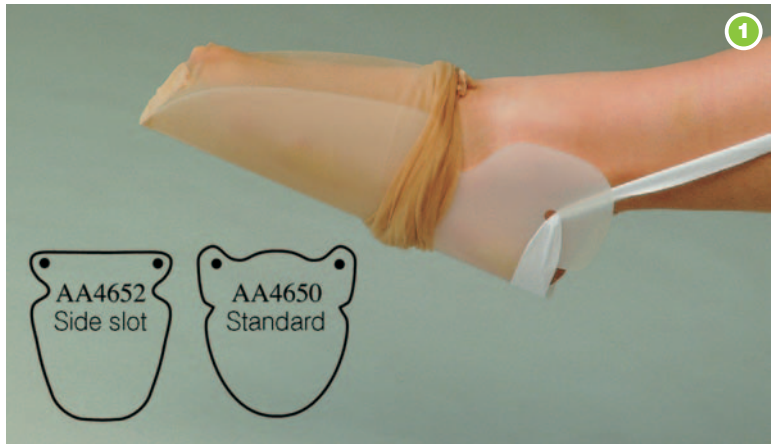

A75420	Cord Style
A7545	Wide Style

1 Dorking Stocking Aid Homecraft

A simple, inexpensive device to assist with putting on a stocking or sock especially if bending and reaching to the foot is difficult. It consists of a strong, shaped, flexible plastic gutter with long cotton tapes attached to the top. The stocking or sock is fed on to the plastic and held in place with the side notches. The foot is put in the open end of the stocking, which is then pulled over the foot and up the leg using the tapes. Cord length 920mm (36"). Gutter length 229mm (9"). Weight 55g.

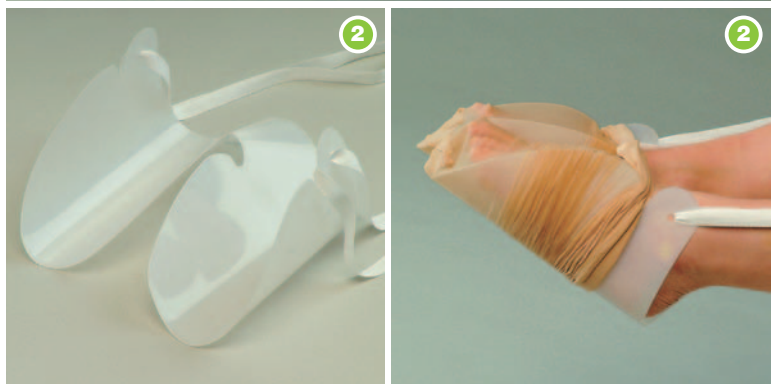

- AA4650Y** Standard - Retail Packed
- AA4650W** Standard - Non Retail
- AA4652Y** Side Slot - Retail Packed
- AA4652W** Side Slot - Non Retail

2 Dorking Tights Aid Homecraft

This works on the same principle as the stocking aid above, but has a double gutter to enable it to be used for tights. Cord length 920mm (36"). Gutter Length 229mm (9"). Weight 106g.

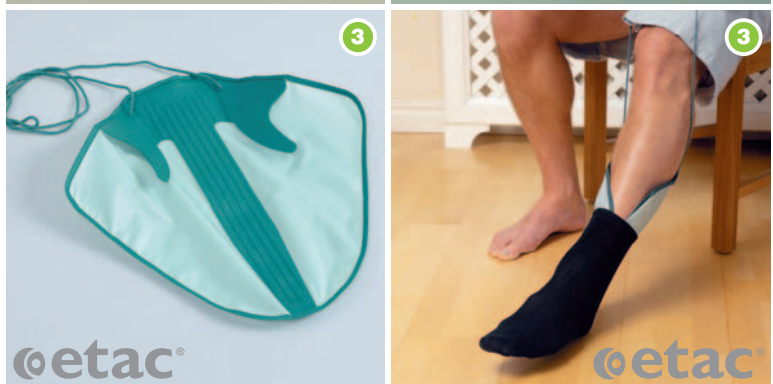

- AA4654Y** Retail Packed
- AA4654W** Non Retail

3 Etac Socky Short Stocking Aid

Designed for those with reduced movement in the back, hip or knee joints. The stocking or sock is placed over the fabric sock aid and via the use of ties the stocking is pulled up the leg. The sleeve is small and light so can be easily transported. Available in light green only. Cord length 650mm (25 1/2"). Length 400mm (15 3/4"). Weight 96g.

AA4656

4 Etac Socky Long Stocking Aid

The Socky long stocking aid makes it easy to put on short or long stockings, socks or even tights. Two combined Socky longs are used for application or removal of tights. Users with impaired hand function can also use Socky long due to the stockings easily sliding over the nylon fabric. Length 600mm (23 1/2"). Weight 146g.

09 117 1172

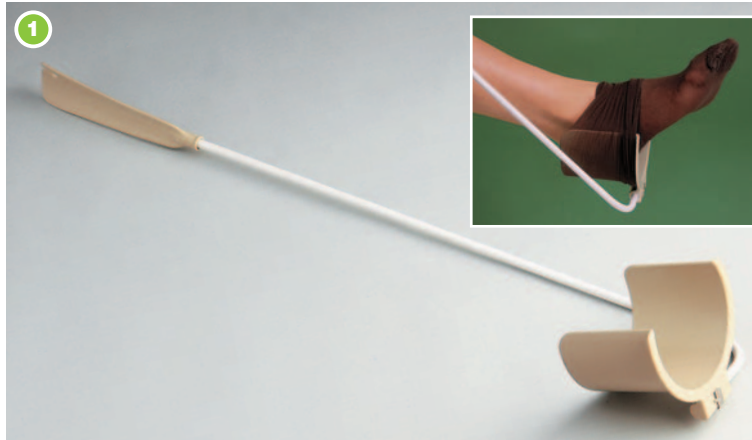

5 Etac Socky Support and Compression Stocking Aid

This stocking aid is designed for putting on support stockings of various lengths and types. The large handles make it easier for others to assist the user in application. It can also be used with only one hand. Length 1m (40"). Width 200mm (8"). Weight 90g.

AA4662

RETAIL PACKAGED
These products are supplied in retail packaging.

1 Brevetti Sock and Stocking Aid Homecraft

Designed to help those with restricted mobility, enabling the user to successfully apply socks. The Brevetti is also very effective used with stockings. It consists of a plastic collar or gutter for holding the garment at one end, and a plastic shoehorn with a notch for easy sock removal at the other. A coated steel tube connects the two. Length 737mm (29"). Weight 386g.

AA4666

2 Batty Sock and Stocking Aid Homecraft

This device which helps the user apply socks and stockings is made up from four moulded plastic parts, ideal for easy storage and transportation.

Each part has a specific use

- The collar or gutter holds the garment
- An extension piece for the middle section
- A handle with a hole to hang the item up by
- A shoehorn with a notch to help with sock or stocking removal

The collar and extension piece interlock and fit onto either the handle or the shoehorn. Length assembled 610mm (24"). Length disassembled 267mm (10"). Weight 348g.

AA4664

3 Terry Cloth Sock Aid Homecraft

Sock application is made easy with this flexible, plastic sock aid. Slits in the plastic core allow it to bend around the heel.

The inside is lined with nylon to reduce friction.

The outside is lined with terry cloth to hold the sock firmly until it is on the foot. Two pulling tabs with loop handles permit one-handed application. Hand wash only. Length 230mm (9"). Weight 73g.

A7273

4 Terry Cloth Tights Aid Homecraft

Similar to the Sock aid above, but for application of tights.

The terry cloth holds the tights firmly in position. The pulling tabs have large looped handles for easier control over the tights aid.

09 118 4308

5 Sock-EEZ Remover

An innovative device that makes it easier to remove socks and stockings without any strain. Designed and developed for those who suffer from lymphodema, deep vein thrombosis, arthritis and edema. The sock-eez can also be used by the elderly to promote independence. Simple to use, the sock or stocking can be removed with one strain free motion.

09 120 9006

1 Dorking Stocking Donner Homecraft

Compact in design, the Dorking Stocking Donner is both stylish and sturdy. Extendable handles enable easy application of stockings and socks for those with limited reach. The hold down handles rotate 90°, creating a more comfortable position for the user whilst applying the stockings. The central column, that holds the stocking, has a small ridge that prevents movement during application. The column also widens at the top, allowing room for the larger calf. Epoxy coated for a smoother surface that reduces the risk of snagging.

Size 310mm (12¼") high, 205mm (8") wide, column height 205mm (8"), column width 125mm (5"), column depth 85mm (3½"). Height with handles 560mm (22").

AA4653

2 Dorking Tights Donner Homecraft

Similar to the Dorking Stocking Donner, but with twin columns designed for use with tights. The lightweight frame enables those with less strength in the upper body to apply the tights with ease. Width 380mm (15"), height with handle 560mm (22"), depth 130mm (5").

AA4651

3 Jobst® Stocking Donner

Designed to help individuals with limited strength and mobility pull on vascular stockings. Comfy foam grip handles make it easy to pull and a durable epoxy finish provides a smooth, no-snag surface. Compact in size and lightweight. Measures 343mm (13½") high, 178mm (7") wide between handles and 114mm (4¼") wide at foot insert.

2092

4 Heel Guide™ Compression Stocking Aid

Unique indented channel on the inside of the centre cone acts as a heel guide and keeps the foot in the perfect position while effortlessly pulling on the compression stocking. The extra wide cone is ideal for people with oedema or larger feet. High sturdy handles reduce the need for bending or stretching. The handles also feature 3 gripping levels to accommodate different heights and hand sizes. Tested on compression hose up to 30-40 mmHg. Easy to assemble and can be taken apart for travelling or storage. Height 425mm (17"). Width 30mm (12"). Depth 200mm (8").

209401 Assorted Colours - No Colour Choice

5 Buckingham Bra-Angel

Occupational Therapist Chris Clarke has designed the unique Buckingham Bra-Angel specifically to assist those with mild to moderate upper limb restrictions or limited hand dexterity. The Bra-Angel holds one end of the brassiere securely whilst the other end is brought round the body and attached together. It even enables those who only have the use of one arm to be able to put on their brassiere independently. The Bra-Angel is a stylish, feminine and attractive dressing aid combining innovation and simplicity. It is versatile and designed to fit most brassiere types and easily adjusts to a wide variety of sizes. The telescopic action allows the Bra-Angel to be compacted and easy to carry. Latex free. Length 400mm (16"). Width 40mm (1 1/2"). Weight 100g.

etac®

1 Etac Beauty Grooming Range

The beauty body care range is ergonomically designed and carefully balanced to provide maximum power with minimal effort and strain. Each product has a unique shape that makes it easier to reach further. Both the comb and the brush are shaped to follow the curve of the head, allowing the handle to be held close to the body without losing power or reach.

For more products within this range see the bathing accessories section within the catalogue.

		Length	Weight
AA4720	Brush	290mm (11 1/2")	102g
AA4721	Brush Long	370mm (14 1/2")	112g
AA4722	Comb	300mm (12")	80g
AA4723	Comb Long	370mm (14 1/2")	90g

2 Long Handled Combs and Brushes Homecraft

These utensils assist those who cannot raise their arm or reach behind their head to comb their hair. They consist of a lightweight moulded plastic handle with a push-on extension piece, and a hinged end piece which holds the comb or brush and has two different angled positions. When not in use, the comb or brush folds back into the handle and the extension can be taken off to give a pocket sized item. Length: With extension 460mm (18"); With handle 320mm (12 1/2"). Length folded 235mm (9 1/4").

3 Hands Free Hairdryer Stand

A convenient stand that holds the hairdryer steady for one handed styling or drying. The hairdryer nestles securely in a foam padded clamp on top of a flexible neck that can be adjusted to any angle from its tabletop base. Useful for hemiplegics, arthritics and others with limited upper extremity range of motion, strength or co-ordination. This simple, but essential piece of equipment increases independence for user or carer.

6475

4 Reacher Backscratcher

Designed for those with limited range of motion. With a bendable handle this backscratcher can reach the lower or upper part of the back with minimal effort. Length 650mm (26").

927721

2

5 Nail Care Combination Set

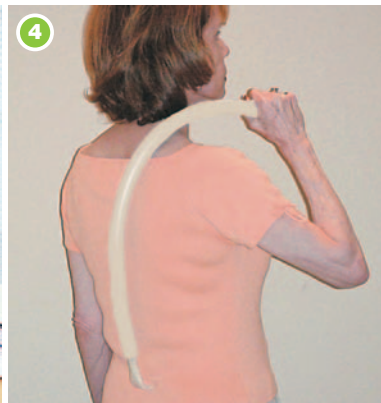

This two-in-one aid for fingernail care is designed for people who cannot grasp or use small hand-held implements. Mounted onto a plastic base with non-slip feet, the stainless steel trimmer clips nails with a simple push of the lever. An emery board is held rigidly in a spring clip for one-handed filing. Two emery boards included. Size 75 x 100mm (3 x 4"). Weight 100g.

4 Skizmo Shoe Remover

For quicker, easier and safer shoe removal. The Skizmo is a plastic injection moulded product made from ABS, which assists the user to remove footwear with ease. Designed to be used standing in an upright position in order to protect the back from twisting and straining and also to protect hands, wrists and knees which may otherwise be put under pressure whilst taking off shoes and boots. The patterned upper surface is moulded to make it slip resistant. Five rubber feet are attached to the underside of the Skizmo to give it added grip on most surfaces. Not recommended for use on uneven, inclined or slippery surfaces.

1 Tuffet™ Leg Rest

Ideal for those who spend long periods of time seated. This lightweight leg rest positions the legs in a slight bent position which helps to alleviate back and knee discomfort. The knees can be placed in a bent or extended position depending on the position of the rest. As a footrest, it is a comfortable way for re-adjusting the seating position of the user to reduce the risk of pressure sores and possible back pain. The surface is made from a soft, durable plastic that can be adjusted for firmness by releasing air from the air valve. Can be cleaned with a damp cloth.
Size: 508 x 380 x 127mm (20 x 15 x 5"). Weight 2.7kg.
AA4204

2 Adjustable Padded Leg Rest

Homecraft

This padded leg rest is adjustable in height and tilt to provide maximum comfort. It has a dralon covered foam cushion top, on a steel frame. This height is adjusted with a pin clip system, and the angle of tilt is controlled by an easy to grip plastic knob. It can be disassembled for storage and is assembled in seconds without tools. Height 387 to 495mm (15 1/4 to 19 1/2"). Cushion: 305 x 405 x 50mm (12 x 16 x 2"). Weight 4.3kg.
AA4200

3 Bexhill Rocker Style Foot Rest

Homecraft

This foot rest adjusts to the angle required via the coated metal rockers. Available in beige dralon or brown PVC. Lower cushion size: 305 x 405mm (12 x 16"). Upper cushion size: 305 x 305mm (12 x 12"). Rocker length: 490mm (19 1/4"). Weight 4.6kg.
AA4210 Brown PVC
AA4212 Beige Dralon

4 Flexible Padded Leg Rest

Soft foam cushion in leatherette vinyl with flexible spring base that automatically adjusts to the user's sitting and leg position. Can also be used in bed as a back rest. Height 432mm (17"). Cushion size: 610 x 305 x 76mm (24 x 12 x 3"). Weight 3.3kg.
AA4218H

5 Extra Wide Flexible Padded Leg Rest

Similar to the above flexible leg rest (AA4218H), but designed to support the lower legs and feet. With an extra wide soft cushion area and adjustable in height for added comfort. Height adjustable between 400 to 525mm (16 to 21"). Cushion size: 400 x 600mm (16 x 24"). Weight 3.7kg.
AA4219

1 Foldable Leg Rest Homecraft

This wooden frame leg rest adjusts to suit the users comfort and position. The user can use the rest up to stimulate leg circulation, folded to soothe thighs and keep the feet warm, or use angled to rest aching legs. The base has four rubber feet, which help to stabilise the rest whilst in use. Supplied with a fleecy cushion for added comfort and warmth. Foldable for easy storage and travelling. Height 100 to 430mm (4 to 17").

Cushion size: 460 x 355mm (18 x 14"). Weight 1.9kg.

AA4202

2 Cardiff Adjustable Height Footstools Days

This padded black vinyl leg rest can be adjusted in height and tilt angle using simple spring button adjustments. The base is made from chrome plated steel tubing and is available as standard (with non-slip rubber feet) or with four castors.

Height 369 to 494mm (14 1/2 to 19 1/2").

Cushion size: 510 x 305mm (20 x 12"). Castors 50mm (2").

Weight

600 Standard 6kg

600C Castors 6.4kg

Maximum user weight

3 Padded Leg Rests

This leg rest features a well padded top cover made from fire retardant vinyl with an anti-bacterial coating to assist in reducing transfer of infections and cross contamination. Each stool can be adjusted in height and tilt to the preferred position. Available with mounted non-slip rubber feet or with four running castors.

The rubber feet version can be adjusted in height from 355mm (14") to a maximum of 500mm (20"). The castor version can be adjusted from 382mm (15") to 527mm (21").

EFFECTIVE, AFFORDABLE SELF TREATMENT FOR LIFE

1 TREAT YOUR OWN BACK

A self help book written by leading physiotherapist Robin McKenzie. His book provides valuable information and exercises for anyone suffering with back pain. ISBN 978-0-9582692-8-5. 09 123 0788

2 TREAT YOUR OWN NECK

This book addresses many of the problems associated with neck related pain, including headaches and shoulder pain. It outlines active patient exercise and prevention programmes for various types of neck pain. It provides education and understanding to help prevent recurrence of symptoms. ISBN 978-0-9582692-9-2. 09 123 0762

3 TREAT YOUR OWN SHOULDER

This easy to follow patient hand book provides the reader with an active self treatment plan to assist in resolving and managing shoulder pain. The book clearly explains how to identify whether the pain is coming from the neck or the shoulder. ISBN 978-0-9582692-5-4. 09 131 2172

4 AGAINST THE TIDE: BACK PAIN TREATMENT – THE BREAKTHROUGH

An autobiography by Robin McKenzie. This book provides the reader with an insight into Robin McKenzie's life, offering both entertainment and pause for reflection. ISBN 978-0-9582692-6-1. 09 131 2164

5 THE ORIGINAL McKENZIE® CERVICAL ROLL

Helps relieve postural neck and shoulder pain by supporting the cervical spine during sleep. Should be placed inside the patients pillowcase to provide extra support. Length 510mm (20"). 09 123 1786

6 THE ORIGINAL McKENZIE® NIGHT ROLL

The Night Roll ties around your waist or can be pinned to the bed sheets, to support your lower back and prevent strain that can be caused by bad sleeping positions or inadequate sleep surfaces. This roll is designed to be worn whilst sleeping, it supports the lower back whether you're lying on your back or side. Washable cover included. 09 123 1893 Up to 875mm (35") Waist
09 123 1901 Up to 1000mm (40") Waist

THE ORIGINAL McKENZIE® LUMBAR ROLLS

Designed by world-renowned physiotherapist and author, Robin McKenzie, these lumbar rolls when used correctly can prevent and help neck and back pain caused by poor posture. Made to the highest quality and specifications, the Original McKenzie® rolls are the genuine article. Ideal for use in the home or office.

1 THE ORIGINAL McKENZIE® SUPER ROLL

Firm Density: The Original McKenzie® Super Roll is a superior lumbar support that provides the ultimate in function and aesthetic value. This roll is made of injected-moulded foam, which retains support for an almost indefinite period. Its flatter, curved shape contours comfortably around the body.
09 123 1877

2 THE ORIGINAL McKENZIE® ROUND ROLL

Medium Density: The Original McKenzie® Round Roll was the first ever lumbar roll made in the world. Although this roll looks quite bulky, it compresses down very easily, while still giving the appropriate support. Available in a 100mm (4") or 125mm (5") thickness.

09 123 1752 100mm (4")

09 123 1745 125mm (5")

3 THE ORIGINAL McKENZIE® SLIMLINE ROLL

Medium Density and flatter design "for just that little bit extra": The Original McKenzie® Slimline Roll is designed to be used with modern seating that has some lumbar support. Ideal for the elderly or petite persons and those who have a limited range of motion in their lower back and therefore cannot tolerate the larger size lumbar roll.

09 123 1737

4 THE ORIGINAL McKENZIE® D-SHAPE ROLL

Firm Density: The Original McKenzie® D-Shape Roll is made of high density foam and is therefore quite firm. It is recommended for use on soft furnishings such as sofas, lounge chairs etc or for people who require lots of support (heavy-built people, or people with a large hollow in the lower back).

09 123 1802

5 THE ORIGINAL McKENZIE® HEAVY DUTY ROLL

Heavy Density: The Original McKenzie® Heavy Duty Roll is available in 100mm (4") and 125mm (5") thickness, and is perfect for use in the home or the office.

09 123 1778 100mm (4")

09 123 1794 125mm (5")

6 THE ORIGINAL McKENZIE® AIRBACK™

This inflatable lumbar roll is ideal for commuters and travellers. Especially useful on planes where the lumbar support is generally inadequate for long distance travel.

09 123 1851

4

1 Dynaspine Back Support

Dynaspine is a revolution in back support technology, as its unique design provides dynamic support for the back. Dynaspine is designed to help alleviate backache or back pain and also to prevent symptoms of a bad back, whilst in the seated position. Studies of the latest research into the management of back pain have shown that sitting in an ergonomically sound seated position – allowing for some correct movement of the spine – reduces pressure on the spinal joints and discs, decreases muscle fatigue and reduces back pain. Dynaspine has two flexible back support plates, which mould and adjust to your position whilst seated, it ensures the correct posture is maintained and your back is always supported. Dynaspine is fully portable, fits into most seats and comes with a free carry case. Washable removable covers. Available in 4 colours – black, beige, orange and grey.

- 09 142 9141** Black
- 09 142 9174** Beige
- 09 142 9190** Orange
- 09 142 9208** Grey

2 Sitback Rest

The side-support wings on the Sitback Rest, provides the user with a feeling as if the support is designed just for their body. Promotes proper posture in any chair while providing firm support and comfort for your lower back. Use the Sitback Rest at home, in the office or in the car. Size 330 x 355mm (13 1/4 x 14").

- SUP842G** Grey
- SUP842N** Navy

3 Sitback Plus

For the larger framed person who needs a wider back support. Complete with stitched belt. Size 330 x 400mm (13 x 15 3/4").

- 402BLACK** Black
- 402NAVY** Navy

4 Backfriend Back Support

A seat which has been designed with orthopaedic and ergonomic considerations in mind. It will improve posture and comfort in a variety of locations i.e. the home, office or car. The two piece seat is contoured and moulded to give firm and shaped lumbar support. It is easy to adjust to ensure that the backrest curve is always at the correct angle. Covered in a quality beige fabric. A hand grip has been built in for ease of carrying when folded. Available as a standard or padded version for additional comfort. Folded 508mm long x 419mm (20 x 16 1/2"). Weight 1.6kg.

- AA4150** Standard
- AA4154** Padded

1 Flexible Adjustable Back Brace

A deep, elasticated lumbar support belt with spine support pressure pad. The pad gently applies pressure to the lower back and supports the abdomen and spine to reduce minor back pain. It adjusts via two hook and loop panels and fits comfortably and discreetly under normal clothing. Width of belt 228mm (9"). Weight approx. 220g.

	Hip Size
AA4274A	660-863mm (26-34")
AA4274B	863-1016mm (34-40")

1 Royal Rest® Pillow

Royal Rest pillows stay cool and fresh throughout the night. The material is cut, rather than moulded, therefore, the cells in the foam remain open. Air circulation is maximised thereby reducing the discomfort of sweating. The pillow cover is made of 100% cotton helping people with sensitive skins to enjoy a comfortable and restful sleep. Size 500 x 380mm (19¾ x 15").

RR10

2 Orthopaedic Royal Pillow

The Orthopaedic Royal Pillow has been specifically designed and anatomically shaped to give the user the perfect nights sleep. Consisting of a soft foam base with two orthopaedic cores. The sculpted shape supports the user's neck and helps to relieve those aches and pains. Complete with a removable cotton cover.

RR15

3 Memory Foam Pillow

Manufactured from special temperature sensitive foam and anatomically designed to help you sleep. The sculptured neck support helps to relieve aches and pains. Supplied with a cotton pillow case.

RR20

4 Orthopaedic Pillow
