1 Mighty Lever Jar and Bottle Opener

The flexible stainless steel band is fitted around a lid, and then clamped tight using the screw at the end of the handle. The handle can then be used as a lever. Suitable for tops 20 to 110mm (3/4 to 4 1/2") diameter. Weight 88g.

AA5020

2 Multi Opener

A versatile device that is suitable for opening jar lids, bottle tops and cans. The flexible steel band clamps around the lid of a jar holding it firmly while the long crank arm enables you to turn and loosen the lid with the adjustable screw. It also incorporates a shaped end for opening cans and a bottle top opener. Fits lid sizes up to 110mm (4 1/2").

AA5039

3 Ultimate Jar Opener

This sturdy jar opener is useful for anyone who has limited hand or wrist strength. The product will tighten or loosen jar lids to open or close.

09 118 2583

4 Baby Boa

A versatile device that can be used to assist with turning or opening in hundreds of instances, inside or out. Gives an excellent grip on any item from 10 to 100mm (1/2 to 4") in diameter. Simply place the loop over the item, pull the tail until tight and then turn in the direction of the arrow. Weight 72g.

AA5001

5 One Touch Jar Opener

This useful gadget allows jar lids to be opened with ease. It simply aligns over the lids then when the button is pressed it removes the lid. Safe enough to use on any jar yet powerful enough to deal with the toughest jars. Perfect for anyone who suffers from problems with their arms, wrists or hands. Fully automatic and works with 2x AA batteries (included). Suitable for left and right handed people.

09 118 4290

6 6-in-1 Multi Opener

This Multi Opener has a durable and comfortable grip and opens six different types of seals and lids with ease. The unique tool removes hard-to-grasp safety seals, opens metal bottle caps, can ring pulls, and stubborn jar lids or bottle tops. The unique enclosed blade feature cleanly slices open tightly sealed bags. Weight 99g.

09 116 8699

RETAIL PACKAGED
This product is supplied in retail packaging.

1 Undo-It Jar and Bottle Opener

Homecraft

A V-shaped coated metal opener with non-slip lining that is screwed underneath a shelf or cupboard. The jar is slid into the V until the lid wedges. It is then twisted to remove the lid. Suitable for tops 25 to 75mm (1 to 3") diameter. Measures 140 x 100mm. Fixings not included. Weight 145g.

AA5010Y Retail Packed

2 Hand Held Undo-It Opener

A V-shaped metal opener with non-slip lining and comfortable built up handle. Slide the V onto the jar lid until it wedges in place, then simply turn the handles to remove the jar lid. Suitable for lids 15 to 95mm (1 1/2 to 3 3/4"). Weight 125g.

AA5006

3 JarKey™

JarKey is a plastic opener that takes little effort to use. Gently levering the Jarkey against the rim of a lid releases the vacuum inside the jar, making it easier to open the lid. It works on lids with diameters up to 100mm (4"). Overall length 140mm (5 1/2"). Colours may vary.

AA5012

4 Multi-Opener

A handy, multi-functional opener for bottle caps, screw tops and ring pulls. The handle provides great leverage for opening screw-on bottle tops. Ring pull seals are easily broken by inserting the ring into the end of the opener and lifting. On the same end is a bottle cap opener. The notch on the underside of the opener can be used to break the seal on twist off jar lids to make opening easier. The coloured parts of the opener are a non-slip material to prevent the users grip on the handle from slipping and to secure the opener onto the bottle top. Weight 42g.

AA5021

1 Twister Jar Opener Homecraft

A cone shaped rubber moulding with fluted finger grips on the outside, and ribbing on the inside to give a good grip for opening twist-off jar lids. Suitable for tops 20 to 85mm (3/4 to 3 1/2") diameter. Weight 100g.

AA5000Y Retail Packed
AA5000W Non Retail

2 Bottle Opener and Knob Turner Homecraft

Flexible rubber moulding for an easy, firm grip on small tops e.g. drink bottles or medicine containers. Also excellent for turning knobs. Suitable for tops up to 35mm (1 1/2") diameter. Weight 85g.

AA5070Y Retail Packed

3 Dycem® Grippimat

Grippimats are cut from Dycem reels and are thinner and more flexible than the moulded ones, therefore they can be wrapped around items e.g. jar tops. Available in Blue (B) and Red (F), and supplied in packs of 3. Round are 190mm (7 1/2") diameter. Rectangular size 240 x 190mm (9 1/2 x 7 1/2"). Weight 66g.

AA6820B Round - Blue
AA6820F Round - Red
AA6822B Rectangular - Blue
AA6822F Rectangular - Red

4 Dycem® Jar Opener

This Dycem opener helps those with a poor grip to open and close jars. The non-slip properties provide a good strong grip to make opening easier and to help make a good seal when closing.

AA5004 Blue
09 118 4100 Yellow
09 120 2613 Silver

5 Dycem® Bottle Opener

Place this handy sized bottle opener on top of stubborn bottle tops and twist to open. The non-slip Dycem properties also provide a vice like grip to ensure a good seal when closing bottles.

09 118 4118 Blue
AA5005 Yellow
09 120 2605 Silver

6 Dycem® Counter Top Display Units

These retail friendly product dispensers are ideal for sitting on the counter at the point of purchase. The units are available for the Dycem Jar and Bottle openers, and 14cm Anchorpads. All dispensers are supplied with 25 products stocked in them, ready to be put on display immediately.

RETAIL PACKAGED
 These products are supplied in retail packaging.

1 Spillnot Jar and Bottle Opener

This jar and bottle opener has three sunken cones of different sizes, lined with a non-slip material. When a jar or bottle is pressed in the appropriate cone, it is gripped, leaving both hands free to twist the lid. Can be used in conjunction with certain openers. Fitted with four non-slip feet. Suitable for tops 44 to 108mm (1³/₄ to 4¹/₄") diameter. Base measures 250 x 170 x 100mm. Weight 540g.

AA5080

2 Belliclamp Jar and Bottle Holder

Homecraft

This device hooks over the edge of a worktop and the jar or bottle is then placed in the V. The object is clamped by the ram, which can be pushed with the stomach or hip, leaving hands free to twist the top. The device is made of moulded plastic with non-slip feet and rubber lining. Can be used with most jar or bottle openers. Suitable for items up to 120mm (4³/₄") diameter. Measures 330 x 190 x 90mm. Weight 580g.

AA5090

3 Ring Pull Tin Opener

A plastic ring puller that provides excellent leverage and has a large broad surface for grip. The flat end fits easily under the tab to break the seal prior to levering the lid off with the hook end. Length 160mm (6¹/₄"). Weight 18g.

AA5193

4 One Pull Can Opener

Effortlessly opens all ring pull cans and is able to be used with both food tins and drink cans. The special shape ensures adequate leverage for those with limited wrist strength.

2010

5 Canpull™ Featuring Sodasnap

The Canpull is a durable device especially designed for opening ring pull cans. Extremely easy to use, just hook the end under the ring, fold forwards and then roll back. Suitable for users either with arthritis or with a weak grip. Stores easily on a hook or in the cutlery drawer. Also features a sodasnap, which has been designed specifically for opening the ring pulls on cans of drink.

AA5194

6 Baby Boa Canpull™ Pack

A handy pack containing the Baby Boa jar and bottle opener and the Canpull. The Baby Boa is a versatile device that gives an excellent grip on any jar or bottle from 10 to 100mm (1/2 to 4¹/₂") in diameter. The Canpull assists with the opening of ring pull cans.

AA5007

1 One Touch Tin Opener

This unique product automatically opens cans with one touch allowing them to be opened hands free. It is ideal for those with limited hand mobility and incorporates a magnet that allows the lid to be removed and disposed of easily with minimal mess. Battery operated (2 x AA batteries included). Opens tins with diameters of 67 to 100mm (2 1/2 to 4"). Rechargeable version also available.

09 116 8707

09 118 7806 Rechargeable

2 Croydon Tin Opener and Stand

Homecraft

This wall mounted opener supports the tin and holds it tightly against the blade, so that it can be used one handed. The keyhole fittings on the back plate enable it to be easily removed for cleaning. The tin is wound up on a stand to engage the opener, which clips on to the top of the plate. Suitable for tins up to 115mm (4 1/2") diameter and 155mm (6") high. Measures 250 x 140 x 190mm. Weight 1.1kg.

AA5140

3 Kenwood Table-Top Tin Opener (240V)

This mains powered opener has been ergonomically designed for easy use. It will easily deal with tins up to 1.3kgs (3lbs) in weight. The removable magnet holds the cut lid. The cutter blade can be easily removed for cleaning, and the base also incorporates a bottle top opener. Measures 250 x 140 x 140mm. Weight 904g.

AA5130

4 One Handed Electric Tin Opener

A powerful yet simple tin opener designed to be safe and comfortable to use. It features a magnetic holder that secures it to the lid of the tin when opening and an ergonomically shaped handle making it easy to use. The tin opener is mains operated to give extra power and efficiency with a simple to use on and off switch on the handle, which allows it to be operated using one hand. The cutting lever, magnetic holder and blade are all removable to allow easy cleaning.

Measures 100 x 850 x 220mm (8 3/4 x 3 1/2 x 4"). Weight 850g.

AA5107

5 I-Can Ratchet Tin Opener

The I-Can Opener has a revolutionary ratchet design, which opens tins easily while reducing hand and wrist strain, making it ideal for anyone with a weak or painful grip. The opener locks onto the can, allowing the user to open the tin easily by moving the ratchet back and forth. The button then releases the tin opener. It has a comfortable handle and an easy-to-turn fulcrum lever making it effortless to use. Suitable for right or left-handed users.

Measures 190 x 63 x 57mm (7 1/2 x 2 1/2 x 2 1/4").

09 116 2007

6 Tin Can Opener

An easy to use opener, which leaves no sharp edges on the can or the lid. The revolutionary design also ensures the lid will never sink into the can during or after the opening process.

DISHWASHER SAFE
This product is suitable for use in a dishwasher.

1 One Touch Power Grater

With the touch of a button, this automatic hands-free or handheld gadget grates a wide variety of food and cheese into the container provided, or directly over a dish. Includes 2 blades for coarse or fine grating.

09 131 3659

2 One Touch Vegetable Slicer

This vegetable slicer provides quick and easy slicing at the touch of a button. Ideal for slicing onions, carrots, cucumbers and potatoes. Provided with a transparent food container for mess-free slicing and food storage. Includes 3 easy interchangeable blades.

09 131 3675

3 Garnish Peeler

An efficient and easy to use garnish peeler that performs a variety of functions. The horizontal blade allows peeling without cocking the wrist and the lightweight, ergonomically designed handle makes it easy to hold and use. The peeler also has two scoops on either side of the peeling blade to remove potato eyes. A corer also folds out making apple coring simple. The peeler blade has a protective guard for safety.

Measures 150 x 58 x 34 (6 x 2 1/4 x 1 3/8"). Weight 30g.

AA5203

4 Gordon Peeler and Clamp

Homecraft

This handy device clamps to a table or worktop and enables fruit and vegetables to be peeled using only one hand. Clamped to the work surface by a sliding mechanism, the hardened, swivelling blade is slotted into the top. It is operated by holding the vegetable and pushing it over the blade, away from the user. The peelings then drop onto a plate placed behind the peeler. The peeler blade has a protective guard for safety.

Suitable for work surfaces 12 to 55mm (1/2 to 2 1/4") thick.

Measures 260 x 190 x 170mm. Weight 510g.

AA5208

5 Rex Peeler

An efficient and easy to use peeler with a metal frame and a hardened swivelling blade fitted across the jaws at the end. It is lightweight and the shape allows it to nestle comfortably in the hand. The horizontal blade allows peeling without cocking the wrist. A scoop at one end of the blade can be used for removal of potato eyes etc. Weight 45g.

1 Stainless Steel Cooking Basket Homecraft

This stainless steel basket allows vegetables to be cooked and strained without ever lifting a pan full of boiling water. The large flame retardant moulded nylon handle is easy to grip and provides heat insulation. Diameter 165mm (6 1/2") at the top, tapering to 120mm (4 1/2") at the bottom. Depth 90mm (3 1/2"). Weight 245g. Also available in a 205mm (8") diameter version.

AA5351Y 165mm (6 1/2") Retail Packed
09 117 7625 205mm (8") Non Retail

2 Pan Handle Holder

Prevents a pan from turning while stirring with one hand. The wide spread suction cup base creates greater stability and keeps the suction cups further from the heat than narrower based models. Overall dimensions 410 x 110mm (16 x 4 1/2").

AA5305

3 Folding Pan Handle Holder

Prevents a pan from turning whilst stirring with one hand. One leg folds in for easy storage. The pan holder is made from plated steel and has three rubber suction feet to firmly hold it in place. It can accommodate pans with handles up to 27mm wide. Length is 203mm (8").

3010

4 Buckingham Coolhand

An innovative device designed by Chris Clarke, an Occupational Therapist, that aids the carrying of warm plates. The Coolhand grips and releases the plate as simply as using your hand but avoids the risk of burnt fingers. It is ideal for transferring plates direct from the microwave to a working surface. It uses the power of leverage so that the entire hand takes the weight of the plate making it ideal for those with arthritis and limited hand dexterity. Suitable for use with plates with a rim thickness of up to 8mm. Should not be used for transferring plates from conventional ovens where plates can reach a very high temperature. Dishwasher safe to 65°C. Width 95mm (3 3/4"). Length 200mm (7 7/8"). Depth 25mm (1"). Weight 100g.

AA5306

5 Doctor Cook Ergonomic Saucepan Set

This set of ergonomic pans from the award winning Doctor Cook consists of a 12cm milk pan, a 16cm pan and lid and a 20cm frying pan supplied as a boxed set. Each product is manufactured from high grade 0.6mm stainless steel 304mm deep body, 5mm encapsulated base, ergonomic silicone coated, easy grip handle and knob and stainless steel lid.

This unique product applies basic ergonomics and bends the handle instead of the hand allowing the user to hold a hot and heavy pan in a strong, neutral wrist position whereby the muscles and tendons in the arm are able to benefit from maximum performance. This product is designed to significantly reduce the risk of a user scalding or burning themselves whilst transferring the contents of the pans.

 These products are supplied in retail packaging.

1 Clyde Grater, Scraper and Spike

Homecraft

The white epoxy coated steel frame has a grating unit fitted to it with a plated metal mesh blade, for peeling or grating. The top section is easily detached for cleaning. A stainless steel spike attachment is included for holding vegetables while peeling them with a manual peeler.

Measures 200 x 230 x 70mm. Weight 534g.

AA5214

2 Kitchen Workstation

Homecraft

This multi-function food preparation unit is designed to provide assistance with many day-to-day kitchen tasks.

Based around a tough, durable chopping board measuring 500 x 300mm (19³/₄ x 11³/₄") the workstation also features:

- A removable grater and slicer (with a protective cover) that collects the food with a minimum of mess and waste.
- A raised L shaped corner measuring 130 x 95mm (5¹/₄ x 3³/₄") which can be used to hold bread and toast in place whilst it is being spread.
- Removable stainless steel spikes that secure bread, fruit or vegetables in place whilst being sliced, chopped or peeled.
- A removable clamp that can open up to 110mm (4¹/₄") wide and hold any object in place such as a bowl, a tin, bread, vegetables etc. The clamp has a reversible edge, allowing it to be either flat or contoured.

The workstation has four non-slip suction pads that firmly anchor it in place. Dishwasher safe.

AA5272

3 Etac Food Preparation System

This durable cutting board is ideal for those who have difficulty in gripping, or only have the use of one hand. The clamp can fix items such as tins or bowls, and the stainless steel spikes keep vegetables still when peeling or cutting.

It has four non-slip rubber feet to prevent the board from moving. Suction pads are also provided for use on wet surfaces.

Size 315 x 295mm (12²/₅ x 11³/₅"). Weight 1.66kg.

1 Chopping Board

A white polypropylene chopping board, 300 x 300mm (12 x 12"). Stainless steel spikes hold food in place for peeling or slicing. 12mm (1/2") high corner guards prevent bread from moving when having butter or margarine spread on it. Four suction cups anchor the board securely to the work surface.

AA5277

2 Combination Chopping Board

A white polypropylene chopping board, 400 x 300mm (16 x 12") with a chef's knife attached. The knife has a 185mm (7 1/4") stainless steel blade and a black plastic handle. It can be removed for cleaning and sharpening. Three stainless steel spikes secure objects for peeling or slicing. 12mm (1/2") high corner guards prevent bread from moving when having butter or margarine spread on it.

AA5279

3 Chopping Board with Knife

A white polypropylene chopping board, 300 x 300mm (12 x 12"), with a chef's knife attached. The knife has a 185mm (7 1/4") stainless steel blade and a black plastic handle. It can be removed for cleaning and sharpening.

AA5278

4 Etac Cutting Board

This cutting board simplifies cutting tasks because it sits firmly and keeps the item to be cut in position. The slice thickness is controlled with the turnable bar. The knife fits in the guides, which means that a person with tremor or impaired sight can cut straight and safely. Dishwasher safe. Weight 415g.

1 Dycem® Non-Slip Anchorpads

Dycem has been developed to produce the most effective non-slip material available. It is not sticky, but it grips dry, slippery surfaces e.g. worktops, trays, floors and tables to prevent movement. It may also be used to enhance grip on jars, handles, etc. It can be cleaned in soft, soapy water to retain its properties but is not effective when wet.

Dycem Non-Slip Anchorpads provide a secure surface that anchors items effectively in place. They are ideal for use in the home, especially when preparing food in the kitchen. They are ideal for stabilizing objects such as mixing bowls, chopping boards or plates whilst eating. The yellow Dycem range is also endorsed for the visually impaired by the RNIB. Colour contrast is important for many partially sighted, elderly people as it helps to make items easier to see against work surfaces. Placing a white bowl on a brightly coloured Dycem mat will help make it easier to see as well as making the bowl more stable. The Dycem range of Anchorpads is available in a variety of shapes, sizes and colours.

Dycem Anchorpads

1 Reflex Comfort Grip Utensils Homecraft

This range of Reflex Comfort Grip Kitchen Utensils has been designed with a soft-touch overmoulded handle to provide a more comfortable slip resistant grip. The handle is set at an angle to minimise wrist movement when using the product and the grip is slightly larger than the standard range to reduce the amount of finger movement required to grip the handle. The utensils are available with the same stainless steel blades as in the standard Reflex range. Dishwasher safe.

A Reflex Comfort Grip Chef's Knife Homecraft

This high quality stainless steel blade with a smooth sharp edge which is useful for cutting or chopping food. Blade length 205mm (8"). Weight 214g.

09 120 7810

B Reflex Comfort Grip Carving Knife Homecraft

This high quality stainless steel blade with a scalloped rather than a smooth blade which will stay permanently sharp. Blade length 205mm (8"). Weight 198g.

09 120 7802

C Reflex Comfort Grip Slicing Knife Homecraft

A high quality stainless steel blade that is long and narrow. Ideal for slicing bread. Blade length 254mm (10"). Weight 192g.

09 120 7828

D Reflex Comfort Grip Preparation Knife Homecraft

This knife has a scalloped edge and is useful for cutting and preparing food. The blade will not require sharpening. Blade length 127mm (5"). Weight 176g.

09 120 7794

2 Reflex Kitchen Utensils Homecraft

The Reflex range of kitchen utensils has an easy to grip contoured closed handle with the utensil set at an angle to minimise wrist movement for the user. The handle has been designed to counter balance the weight of the utensil whilst also being aesthetically pleasing. All the utensils are made from stainless steel and are all dishwasher safe.

A Reflex Carving Fork Homecraft

A two pronged fork designed to aid with carving. The prongs are made from stainless steel and are 156mm (6") in length. Weight 140g.

AA5248Y

B Reflex Slicing Knife Homecraft

Blade length 254mm (10"). Weight 125g.

DISHWASHER SAFE
All products on this page are suitable for use in a dishwasher.

The Newstead Cutlery range has been specially designed to give a soft, non-slip grip. The ergonomically designed handles are cushioned to allow the user to hold the utensil firmly but comfortably, even in wet conditions. The handles are made from tough plastic with a soft, flexible overmoulding that provides comfort whilst allowing the handle to adapt to the user's grip. All the utensils are made from stainless steel. The handle's rounded shape allows it to fit naturally into the palm of a hand and is ideal for conditions such as arthritis, Parkinson's disease, neurological impairments or any condition that can cause poor grip. The entire range is latex free and dishwasher safe.

1 Newstead Cutlery Homecraft

The standard Newstead Cutlery range is available to purchase either individually or as a retail packed set of four.

1 Newstead Weighted Cutlery Homecraft

These weighted versions of the Newstead Cutlery range feature a heavier handle that is particularly suitable for users who suffer from conditions such as hand tremors. The Weighted Cutlery is available to purchase individually or as a set of four.

Weight

AA55210	Weighted Knife	130g
AA55211	Weighted Fork	130g
AA55212	Weighted Spoon	130g
AA55213	Weighted Teaspoon	130g
AA55214	Set	520g

2 Newstead One Handed Cutlery Homecraft

The Splayed Fork and the Nelson Knife are designed for one handed eating. The Splayed Fork combines a spoon and a fork into one handed utensil. It is a pronged fork with edges designed for cutting food and a deep rounded body which functions like a spoon. The Nelson Knife is a knife with a cutting edge that ends as a curved pronged fork, enabling food to be picked up.

Weight

AA55215	Splayed Fork	80g
AA55216	Nelson Knife	80g

3 Newstead Spoons Homecraft

The soup spoon has a deeper, more circular bowl than a standard spoon to make holding liquid easier. The junior spoon has a slightly smaller bowl making it more suitable for children and adolescents.

Weight

AA55217	Junior Spoon	80g
AA55218	Soup Spoon	80g

4 Newstead Coated Spoons Homecraft

These spoons have been dipped in soft, food quality PVC and are particularly beneficial for those with sensitive mouths and gums or bite reflex problems. Due to the type of use to which these items are subjected, they are only guaranteed for 3 months.

Weight

AA55219	Coated Spoon	80g
AA55220	Coated Teaspoon	80g

5 Newstead Rocker Knives Homecraft

The Small Rocker Knife is designed to cut food with a small amount of rocking movement and requires minimal arm strength for cutting. The blade width is 60mm. The Large Rocker Knife has a broad semi-circular blade that is ideal for preparing larger food without cocking the wrist. The blade width is 120mm.

Weight

AA55221	Small Rocker Knife	80g
AA55222	Large Rocker Knife	80g

 **DISHWASHER SAFE**
This product is suitable for use in a dishwasher.

1 Queens Cutlery Homecraft

These stainless steel utensils are mounted into a built-up plastic handle for those with weak or restricted grip. The handle is cylindrical to assist with gripping. The items are hygienically sealed, easy to clean and are dishwasher safe. Length of handle 98mm (3⁵/₈"). Diameter of handle 30mm (1¹/₄").

		Weight
AA5500A	Knife	45g
AA5501A	Fork	45g
AA5502A	Spoon	45g
AA5503A	Junior Spoon	45g
AA5504A	Teaspoon	45g
AA5517Y	Retail Packed Set Including Knife, Fork, Spoon, and Junior Spoon	

2 Queens Soft Coated Built-Up Spoons Homecraft

These spoons have been dipped in soft, food quality PVC and then mounted into a built-up plastic handle for those with a weak or restricted grip. They may be beneficial for users with a bite reflex problem or a sensitive mouth. Due to the type of use to which these items are subjected, they are only guaranteed for 3 months. The utensils are hygienically sealed, easy to clean and are dishwasher safe. Length of handle 100mm (4"), diameter of handle 30mm (1¹/₄").

		Weight
AA5506A	Soft Coated Spoon	45g
AA5505A	Soft Coated Teaspoon	50g

3 Queens One Handed Built-Up Cutlery Homecraft

These stainless steel utensils, mounted in the Queens built-up handle, can be used for one-handed eating by combining cutlery functions. The splayed fork is a pronged fork with edges designed for cutting food and a deep rounded body, which functions like a spoon. The Nelson Knife is a knife with a cutting edge, which ends as a curved pronged fork, to enable food to be picked up. Length of handle 98mm (3⁵/₈"). Diameter of handle 30mm (1¹/₄").

		Weight
AA5507A	Splayed Fork	45g
AA5508A	Nelson Knife	55g

4 Queens Angled Built-Up Cutlery Homecraft

A range of stainless steel utensils with an angled head mounted in the Queens built-up handle, enabling those with limited wrist movement to eat more easily. The knife has a blade bent at an angle to the handle and can be used with a rocker action. The fork and spoon are available as right or left handed versions. Specifications as for standard Queens range. Length of handle 98mm (3⁵/₈"). Diameter of handle 30mm (1¹/₄").

		Weight
AA5510A	Knife	45g
AA5511LA	Left Handed Fork	55g
AA5511RA	Right Handed Fork	45g
AA5512LA	Left Handed Spoon	55g
AA5512RA	Right Handed Spoon	55g

1 Lightweight Foam Handled Cutlery

Homecraft

These stainless steel utensils are mounted on plastic stems and sealed into light grey foam handles, to give help for those with weak or painful grip. The foam is comfortable to hold and washable, (not recommended for dishwasher use). Diameter 28mm (1 1/4"). Handle length 115mm (4 1/2").

		Weight
AA5550	Knife	45g
AA5551	Fork	34g
AA5552	Spoon	42g
AA5553	Teaspoon	30g
AA5554	Retail Packed Set - 1 of each	151g

2 Lightweight Soft Coated Foam Handled Spoons

Homecraft

These spoons have been dipped in soft, food quality PVC and mounted on plastic stems and sealed into light grey foam handles. The foam is comfortable to hold and washable (although not recommended for dishwashers). These spoons may be beneficial for users with bite reflex problems or a sensitive mouth. Due to the type of use to which these items are subjected, they are only guaranteed for three months. Handle length 115mm (4 1/2") and diameter 28mm (1 1/4").

		Weight
AA55521	Soft Coated Spoon	47g
AA55522	Soft Coated Teaspoon	35g

3 Lightweight Foam Handled One Handed Cutlery

Homecraft

These stainless steel utensils, mounted into our Lightweight Foam handle, can be used for one handed eating by combining cutlery functions. The splayed fork is a pronged fork with edges designed for cutting food and a deep rounded body which functions like a spoon. The Nelson Knife is a knife with a cutting edge, which ends as a curved pronged fork, to enable food to be picked up. The foam is comfortable to hold and washable (although not recommended for dishwashers). Handle length 115mm (4 1/2") and diameter 28mm (1 1/4").

AA5557R	Right Handed Spoon	46g

RETAIL PACKAGED
These products are available in Homecraft retail packaging.

etac®

1 Etac® Light Cutlery with Thick Handles

These stainless steel utensils have an ergonomically designed ABS plastic handle and are intended for people with joint problems such as arthritis. The thick, light handles are easy to grip making the cutlery kind to the joints and relieve the strain on the fingers. The knife has a sharp curved blade to aid with cutting and the spoon has a deep bowl to reduce spillage.

		Length	Weight
09 115 7379	Fork	180mm	27g
09 115 7387	Knife	210mm	23g
09 115 7395	Teaspoon	180mm	30g
09 115 7403	Spoon	220mm	37g

2 Etac® Light Cutlery with Long Handles

This cutlery has been specially developed for people who need support for their hands and forearms when they eat, and who usually use cutlery in the pencil grip. The cutlery is light, with relatively long handles. This gives good pressure distribution, minimal movement and a "between the fingers" grip. The underside of the handle is softly rounded to avoid edge or point pressure.

		Length	Weight
09 115 7411	Fork	210mm	24g
09 115 7429	Knife	210mm	21g
09 115 7437	Teaspoon	200mm	26g
09 115 7445	Spoon	210mm	34g

3 Etac® Light Combination Cutlery

The combination cutlery range comprises a Knife/fork and Knife/spoon, which is available in right and left handed versions. The cutlery is suitable for people who can use only one hand and offers a firm grip, which makes cutting easy. A wide support area on the side of the handle gives a firm grip when cutting and the rounded underside can be gripped comfortably between the thumb and forefinger.

		Weight
09 116 8806	Spoon/Knife	35g
09 116 8814	Right Handed Knife/Fork	25g
09 116 8822	Left Handed Knife/Fork	25g

4 Etac® Light Angled Spoons

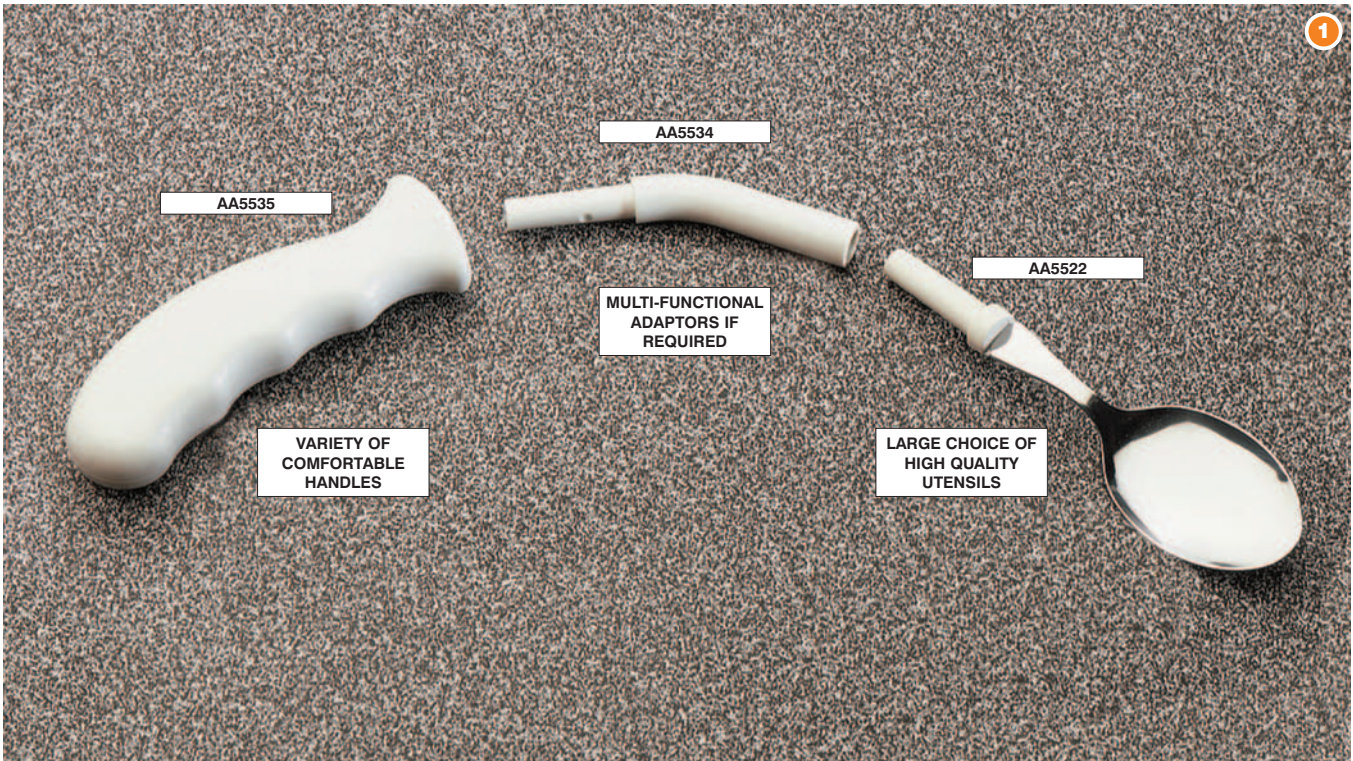

The angled spoons are intended for people with impaired arm and hand mobility, minimising wrist movement. Weight 35g.

09 116 8848	Right Handed
09 116 8855	Left Handed

 **RETAIL PACKAGED**
These products are supplied in retail packaging.

 **DISHWASHER SAFE**
This product is suitable for use in a dishwasher.

This attractive and comprehensive range allows a large amount of bespoke cutlery items to be made from 33 modular pieces.

It caters for virtually all needs - economically, visually, aesthetically and functionally. The range covers: standard, angled and specialised utensils; built up, slim, contoured, lightweight and heavyweight handles; and a unique double ended feature to create special utensils for one handed eating or to provide an inconspicuous hand strap. All items are hygienic, non-corroding and dishwasher safe.

See following pages for the selection of utensils, handles and accessories available in the range.

Assembly of Kings Range

Homecraft

To assemble a cutlery utensil and a handle, you simply push the utensil spigot into the hole in the handle. If the handle needs to be built up further, sleeves can be added. These must be fitted over the slim handle (AA5543) first, and then the handle attached to the utensil spigot in the manner described above. If a double ended utensil is required, handles with a hole in both ends are available. The utensils can be rotated to the position required. When using the strap, it is placed between the handle and cutlery spigot or end piece.

**1 Kings Assessment Kit
33 Pieces**

Homecraft

This kit contains one of each utensil, handle and sleeve, plus the Kings Button Hook. Ideal for assessing individual patient needs. Supplied in an attractive case with a specific place for each item.

1 Kings Standard Cutlery Utensils Homecraft

These standard utensils are mounted in plastic spigots that fit tightly into the chosen handle, but allow the blade to be angled as desired.

		Length	Weight
AA5520	Knife	112mm	17g
AA5521	Fork	104mm	21g
AA5522	Standard Spoon	97mm	23g
AA5523	Junior Spoon	91mm	21g
AA5524	Teaspoon	84mm	17g
AA5526	Soup Spoon	80mm	21g

2 Kings Angled Cutlery Utensils Homecraft

A range similar to the standard utensils but with angled blades for those with limited wrist or arm movement. The knife is at 90° and can also be used as the second utensil in the double ended handles. Forks and spoons have left and right handed versions at 40° angles. The angled adaptor adds extra length and a 30° angle to any utensil. Knife is 52mm with 80mm offset at 90° angle.

		Length	Weight
AA5530	Knife	132mm	20g
AA5531L	Left Handed Fork	82mm	21g
AA5531R	Right Handed Fork	82mm	21g
AA5532L	Left Handed Spoon	82mm	23g
AA5532R	Right Handed Spoon	82mm	23g
AA5534	Adaptor - Pack of 3	60mm	10g

3 Kings Specialised Cutlery Utensils Homecraft

The Splayed Fork (AA5527) is a combined fork and spoon and the Nelson Knife is a combined knife and fork. Both are designed to help with one-handed eating. The Small Rocker Knife is for cutting food with minimal rocking movement and can be used in the double-ended cutlery handles to make one utensil more versatile. The Large Rocker Knife has a broad semi-circular blade which is ideal for preparing larger food without cocking the wrist.

		Length	Weight
AA5527	Splayed Fork	82mm	22g
AA5528	Nelson Knife	110mm	25g
AA5529	Small Rocker	35mm 60mm width	19g
AA5533	Large Rocker	Max. width of blade 121mm	45g

4 Kings Soft Coated Spoons Homecraft

These spoons have been dipped in soft, food quality PVC. They may be beneficial for users with bite reflex problem when eating. Due to the type of use to which these items are subjected, they are only guaranteed for three months.

		Length	Weight
AA5518	Spoon	100mm	32g
AA5519	Teaspoon	80mm	25g

1 Kings Standard Built-Up Handle

Homecraft

The Standard Handle has a hollow cylindrical body. The Slim has an oval cross section and this handle is also used as the core for the built-up sleeves. The Contoured has a curved shape and finger contours. The Mushroom is a round hollow doorknob type handle which is easy to grip for those with weak or painful joints. The Heavyweight Handle is similar to the standard, but the core is filled with a metal bar to make it heavier. The Customised is custom made by means of a metal inner core and pack of modelling material to make a unique personal shape.

		Width	Weight
AA5536	Standard	25mm	30g
AA5543	Slim	14-19mm	29g
AA5535	Contoured	22-30mm	85g
AA5544	Mushroom	65mm	52g
AA5542	Customised	As required	65g
AA5539	Heavy Handle	25mm	156g

2 Kings Built-Up Sleeves

Homecraft

Contoured PVC sleeves that fit over the slim handle AA5543.

		Width	Weight
AA5545	Oval Sleeve	23-30mm	24g
AA5546	Small Contoured	22mm	19g
AA5547	Large Contoured	29-35mm	38g

3 Kings Lightweight Foam Handles

Homecraft

Made from grey sculptured closed cell foam for those unable to cope with the weight of standard built up handles. Washable.

		Width	Weight
AA5538	Small	20mm	10g
AA5537	Large	28mm	12g

4 Kings Double Ended Handles with Strap

Homecraft

These are versions of the Standard Built-Up and Lightweight Foam Handles with utensil apertures in both ends. They are supplied with a transparent adjustable strap and a fixing spigot that fits in the second hole. A second utensil can be used e.g. the Rocker Knife AA5529 or Angled Knife AA5530 with or without the strap, to create versatile one handed cutlery. Strap 210 x 20mm (8 x 4/5").

		Width	Weight
AA5540	Standard Double	25mm	30g
AA5541	Lightweight Double	28mm	12g
AA554001	Spare Straps - Pack of 10

1 Nelson Knife Homecraft

A stainless steel knife designed for one handed eating. The stainless steel knife blade can be used with a rocker action and the pronged end used as a fork. A built up sleeve from the Kings Modular cutlery range may be added to the handle. Handle length 100mm (4"). Weight 54g.

AA5597Y Retail Packed

2 Splayed Fork with Slim Handle Homecraft

A stainless steel combination utensil designed for one handed eating. This combined fork and spoon has side edges that have been shaped to give a cutting edge. A built up sleeve from the Kings Modular cutlery range may be added to the handle. Handle length 100mm (4"). Weight 34g.

AA5595

3 Kings Weighted Cutlery Homecraft

A heavier handled cutlery range for users who may suffer from conditions such as hand tremors. The handle measures 105 x 30mm and weighs 152g. The final utensil weighs approximately 176g.

- AA5591** Kings Weighted Fork
- AA5592** Kings Weighted Teaspoon
- AA5593** Kings Weighted Spoon

4 Amefa Angled Contoured Cutlery

These items have shaped handles to assist those with restricted wrist or finger movement. The knife has a straight built up handle with angled blade that allows cutting with a rocker action. The forks and spoons have curved built up handles that are comfortable to grip and require little wrist movement. The stainless steel utensils are easy to clean and dishwasher safe. Length of handles 114mm (4 1/2").

		Weight
AA5580	Knife	75g
AA5584	Angled Knife	78g
AA5585L	Left Fork	48g
AA5585R	Right Fork	48g
AA5586L	Left Spoon	54g
AA5586R	Right Spoon	54g

5 Deluxe KEatery Weighted Cutlery

These high quality weighted utensils are designed to look like mainstream cutlery and will help reduce tremors. The slight indentation places fingers in a comfortable ergonomic position. Made from highly polished stainless steel, the utensils are dishwasher safe and weigh approximately 227g each.

- 09 120 4486** Knife
- 09 120 4494** Fork
- 09 120 4502** Teaspoon
- 09 120 4510** Soup Spoon

1 Caring Cutlery Homecraft

The Caring Cutlery range is a set of stainless steel utensils moulded into contoured, ivory coloured plastic handles with built up ends. These are of value to those with a weak grip and restricted wrist or finger movement. The knives and forks have a shaped indent on the top for the index finger, to help with directional control. The knives also have a serrated blade to assist with cutting. The knife, fork, spoon and teaspoon are available as a set. Within the range there is an angled knife and left and right-angled forks and spoons that are designed to minimise wrist movement. The cutlery range is hygienically sealed, easy to clean and dishwasher safe. Length of handles 127mm (5").

		Weight
AA5570	Knife	50g
AA5571	Fork	50g
AA5572	Spoon	60g
AA55721	Teaspoon	45g
AA55700Y	Retail Packed Set	215g

2 Angled Caring Cutlery Homecraft

These angled versions of the Caring fork and spoon are designed to minimise wrist movement. The utensils are hygienically sealed, easy to clean and dishwasher safe. Length of handles 127mm (5").

		Weight
AA5573R	Right Handed Spoon	60g
AA5574R	Right Handed Fork	50g
AA5574L	Left Handed Fork	50g

3 Soft Coated Caring Cutlery Homecraft

These soft coated spoons have been dipped in soft, food quality PVC. They may be beneficial for users with bite reflex problems or a sensitive mouth. Due to the type of use to which these items are subjected, they are only guaranteed for three months. The spoons are hygienically sealed into the contoured Caring Cutlery handles, are easy to clean and dishwasher safe. Length of handles 127mm (5").

		Weight
AA55731	Soft Coated Spoon	65g
AA55732	Soft Coated Teaspoon	55g

4 Junior Caring Cutlery Homecraft

A range of knife, fork and spoon similar in concept to the Caring Cutlery range, but smaller in size. Designed primarily for children, they are easy to clean and dishwasher safe. Stainless steel cutlery. Length of handle 102mm (4").

		Weight
AA5575	Knife	24g
AA5576	Fork	22g
AA5577	Spoon	24g

1 Flexible Cutlery

These versatile utensils may be angled or positioned in a variety of directions and wrap easily around the hand and/or wrist to secure in the position required. The foam handle is 25mm (1") in diameter. Includes a 250mm (10") Velcro brand hook and loop strap that can be used to further secure the utensil on the hand. Each utensil weighs only 113g and measures 356mm (14") long. Dishwasher safe to 50°C (120°F).

- 109001** Fork
- 109002** Teaspoon
- 109003** Tablespoon
- 109004** Plastisol Coated Teaspoon

2 Easy-Hold Utensils

The handle design of this cutlery makes gripping it as effortless as could be. The blade of the knife will cut in both slicing and rocking motions. The offset spoons and sporks are ideal for those with decreased upper extremity control. Dishwasher safe up to 80°C (180°F).

- 1438** Knife
- 1439** Fork
- 1440** Right Handed Spoon
- 1441** Left Handed Spoon
- 1442** Right Handed Spork
- 1443** Left Handed Spork

3 Weight Adjustable Utensils

Increase or reduce the weight of the utensil with the adjustable washer mechanism. Weight can range from 56 to 226g. Easy to grip due to the shaped handle. Dishwasher safe up to 80°C (180°F). Handle is 38mm (1 1/2") diameter.

- 110101** Teaspoon
- 110102** Tablespoon
- 110103** Fork
- 110104** Knife
- 110105** Soup Spoon

4 Featherlite Cutlery Range

A lightweight cutlery range (average weight 48g) consisting of stainless steel utensils with plastic handles. The handles are 25mm (1") in diameter and slightly tapered and textured for easy gripping. They are totally sealed to prevent water seepage and are dishwasher safe.

- AA55000** Knife
- AA55001** Fork
- AA55002** Teaspoon
- AA55003** Spoon
- AA55004** Left Handed Fork

- AA55010** Ergonomic Knife
- AA55011** Ergonomic Fork
- AA55012** Ergonomic Teaspoon
- AA55013** Ergonomic Spoon

5 Knork™ Knife & Fork Combination

The Knork™ is a stylish fork with wide, rounded and bevelled outer tines that will safely cut food like a knife, without a sharp edge to cut the mouth of the user. It slices through food with a rocking motion which is facilitated by a finger platform on both sides of the handle. As it is symmetrical it can be used by both left and right handed users.

09 117 7856

6 Rocking T Knife

This rocker knife has a large, 100mm (4") handle with a stainless-steel, single-edged blade. Because pressure is applied directly above the food to be cut, less strength and dexterity is needed by the user. Dishwasher safe up to 105°C (220°F).

920359

1 Sure Grip Cutlery

These stainless steel utensils have comfortable ribbed built up handles to assist people with a weak grasp. The rubber handles are 38mm (1½") wide and 102mm (4") long.

- A703203** Knife
- A703202** Fork
- A703201** Tablespoon
- A703200** Teaspoon
- A703204** Set - one of each

**2 Sure Grip Bendable Cutlery**

The spoons and forks in this range feature a twist in the metal shaft to allow them to be bent to the desired angle. The utensils can be bent to either the right or left to the position that is the most comfortable for the user. The knife has a curved rocker blade to allow the user to cut with minimal effort. The comfortable 38mm (1½") wide built up ribbed rubber handles provide an improved grip.

- A703208** Rocker Knife
- A703207** Fork
- A703206** Tablespoon
- A703205** Teaspoon
- A703209** Set - one of each

**3 Good Grips Cutlery**

These stainless steel utensils feature a 35mm (1⅜") diameter built up handle. The forks and spoons have a special twist built into the metal shaft that allows them to be bent in any angle for either left or right handed use. The Paediatric spoon has a smaller handle and bowl. Handle length 165mm (16½").

- 09 120 5202** Rocker Knife

- 09 120 5301** Teaspoon
- 09 120 5319** Paediatric Spoon

Weighted utensils are available with 170g of extra weight in the built up handle to provide more control for people with a tremor or limited hand control.

- 09 120 5947** Weighted Rocker Knife
- 09 120 6028** Weighted Fork
- 09 120 5996** Weighted Spoon
- 09 120 6002** Weighted Teaspoon
- 09 120 6010** Weighted Tablespoon

DISHWASHER SAFE
This product is suitable for use in a dishwasher.

1 Steady Spoon

This uniquely designed spoon allows those who could not ordinarily feed themselves to achieve independence. Five moving parts and counter weights keep the spoon level no matter what the users arm position or level of tremor. The hook and loop strap on the built up handle eliminates the need for strong grasp. The bowl is a standard teaspoon size.

Handle 140mm (5½") long, 32mm (1¼") diameter. Handle and bowl 240mm (9½") long. Strap 127mm (5") long. Weight 226g.

AA5558

Paediatric version available

Bowl is a standard teaspoon size. Handle 114mm (4½") long, 29mm (1⅛") diameter. Handle and bowl 197mm (7¾") long. Strap 100mm (4") long. Weight 200g.

AA75502

2 Unbreakable Utensils

Tough nylon material that is kind to lips and teeth - durable enough to be used by individuals with strong bite reflexes. The utensils can be customised for the user's need by cutting to shape with scissors and smoothing with an emery board. Can be cleaned in a dishwasher up to 80°C (180°F) and sterilised. Pack of 10.

1078 Teaspoons

1079 Soup Spoons

PAEDIATRIC VERSION

3 Plastisol™ Coated Spoons

Plastic coated spoons that provide protection for teeth and lips from utensil edges and temperature sensitivity. Not recommended for those with heavy biting reflexes. Dishwasher safe up to 80°C (180°F). Cold water washing prolongs life of the utensil.

1066 **A** Long Teaspoon

1064 **B** Tablespoon

1072 **C** Teaspoon

4 Adjustable Angle Spoon

This spoon is useful for people who require multiple angles when self-feeding, for example a left or right handed angle. The flexible ball and socket joint allows the spoon to be rotated through 360° to achieve the angle desired. Stainless steel spoon mounted into a large plastic handle.

AA5565

5 Roller Knife/Fork Combination

A stainless steel roller knife/fork combination that is suited for one-handed individuals who still possess good grip strength. Dishwasher safe.

AA55019 Standard Handle

6 Clip-On Utensils

Large handled cutlery designed for those with a poor grip. The stainless steel utensils have a vinyl covering over the handles. The handles are flexible so they can be customised to the individual user. Dishwasher safe.

AA55014 Clip-On Fork

AA55015 Clip-On Spoon

 **DISHWASHER SAFE**
This product is suitable for use in a dishwasher.

1 Paediatric Weighted Utensils

Child-size utensils that are weighted to stabilise the hand. Shaped red plastic vinyl handles. Stainless steel utensils. Handles are 22mm in diameter and 82mm long. Dishwasher safe up to 80°C (180°F). Each weighs approximately 110g.

- 110201** Youth Fork
- 110202** Youth Teaspoon

2 Flexible Paediatric Cutlery

These versatile utensils wrap easily around the hand and/or wrist to secure in the position required. The foam handle is 19mm in diameter and 250mm long. It may be customised to fit a user's grip. Includes a 250mm hook and loop strap that further secures the utensil. Handwash with warm, soapy water. Weight 50g.

- 109501** Flexible Fork
- 109502** Flexible Spoon

3 EasiEaters™ Curved Utensils

Lightweight and easy to grip plastic utensils that are angled to promote greater success with hand to mouth feeding. Built up handles make them easier to hold and the safety shield prevents utensils from entering the mouth too deeply. Set includes fork and spoon. Dishwasher safe, colours may vary. Handle length 76mm (3").

- 1447** Right Handed Utensils
- 144701** Left Handed Utensils
- 920686** Right Handed with Shield
- 920687** Left Handed with Shield

4 Paediatric Easigrip Cutlery

Curved spoons and forks give children a more natural grip on the handles. Moulded of sturdy plastic. Two options available, two sets (two forks, two spoons) in one package or one fork and one spoon with built up handles in the other.

- AA75504** Two Sets
- AA75505** Built Up Set

5 Etac® Feed Angled Spoon

The angled spoons make it easier to move the hand from the plate to mouth and are suitable for children and adults with small hands. The bowl is adjustable and the handle has a combined support and stop peg. The spoon is suitable for a child's or small hand allowing the spoon to be held near the bowl head. The strap offers additional support for children with poor gripping ability. The handles are 160mm long. Weight 40g. Dishwasher safe.

- 09 116 1983** Right Hand
- 09 116 1991** Left Hand

6 Etac® Feeding Cutlery

The feeding cutlery has soft round edges for a comfortable feel in the mouth, and the long handle means the person being fed can also hold the cutlery. The spoon and fork are 220mm long and the small spoon is 200mm long. Dishwasher safe.

- 09 116 1959** Feeding Spoon - Large
- 09 116 1967** Feeding Spoon - Small
- 09 116 1975** Feeding Fork

7 Lip Closure Spoon

This useful spoon is for individuals who have difficulty with lip closure when eating. Unique sloping wall design provides tactile cue for the upper lip. Encourages user to maintain continuous point of contact with the spoon surface as food is removed. Works well with both adults and children.

557127

8 Maroon Spoon

A narrow, shallow bowl makes it ideal for feeding therapy. Tough and break resistant (do not use with clients with severe bite reflex). Dishwasher safe, no heated drying. Supplied in packs of 10.

- 920273** Small 146 x 25mm
- 920274** Large 152 x 32mm

INFORMATION
For our full range of paediatric cutlery please see pages 824 to 826.

1 Cylindrical Foam Padding

This closed cell foam padding can be cut as required to build up items of cutlery. Supplied as a continuous length of foam padding (915mm). Dishwasher safe up to 180°C. Latex free.

	Colour	Internal Diameter	Outer Diameter
09 102 4108	Light Blue	6mm (1/4")	19mm (3/4")
09 116 6693	Blue	10mm (3/8")	35mm (1 3/8")

2 Multi-Holder

Homecraft

Comfortable, easily adjustable, strap handle that provides a secure grasp on a variety of handle shapes and sizes. Made from a soft, stretchy fabric, this utensil securely holds a range of items such as cutlery, pens, pencils, brushes and combs. Useful for people with limited hand function or a weak grip. One size fits all. For left or right handed use. Colours may vary.

AA5587

3 Weighted Utensil Holder

Easy to grasp utensil holder with a plastic cone shaped base that fits snugly into the palm of the hand. Designed to angle the utensil away from the palm to make eating easier. The hook and loop fastening enables the holder to be adjusted to fit most hands. The additional 226g weight within the base helps give stability for people with tremors.

1372

4 Built-Up Utensil Holder

For those with poor hand function or a weak grip, this utensil holder has a half cone shaped plastic base, which angles the utensil away from the palm to make eating easier. May be used with cutlery, pens, etc. The hook and loop fastening enables the holder to be adjusted to fit most hands.

1373

5 Paediatric Plastic Base Utensil Holder

This utensil holder has a half-cone shaped base that angles the utensil away from the palm to make eating easier. A strap is attached to offer additional support for children who have difficulty gripping. The base is made from plastic and the strap from washable nylon.

1371

6 Utensil Hand Clip

An excellent eating aid for people who have trouble grasping and holding small utensils. The spring-action plastic clip fits the hand snugly without pinching. May be used with a number of different utensils including spoons, forks, etc.

AA5596

7 The Functional Hand Splint

Designed by therapists, the Functional Hand Splint has several uses. Its design maintains soft tissue length in the fingers and wrists and allows for functional activity of the arm, whilst maintaining good joint alignment in the hand. The unique design of the core allows it to be used with a wide range of implements and tools as part of a wider therapeutic programme e.g. pens, pencils, cutlery, hairbrushes etc whilst maintaining the hand in the correct therapeutic position. Objects can be placed in either the narrower or wider end of the splint increasing the independence of the user. The Functional Hand Splint is suitable for users of all ages and conditions experiencing decreased functionality in their hands. Available in three sizes, small, medium and large to suit all hand sizes.

		Max. Diameter	Length
AA6146A	Small	35mm (1 3/8")	80mm (3 1/8")
AA6146B	Medium	40mm (1 5/8")	90mm (3 1/2")
AA6146C	Large	50mm (2")	105mm (4 1/8")

1 Thick Plastazote Foam Tubing

Closed cell foam tubing, available in various sizes to provide a built up handle for easier gripping e.g. cutlery, pens etc. It is non-absorbent, non-sticky, washable and dishwasher safe. Supplied in one metre (39") lengths, it may be cut to size. Exact lengths may vary plus or minus 50mm. External Diameter 31mm (1 1/4").

	Colour	Int. dia.	Weight
AA6104A	White	6mm	55g
AA6104M	Grey	6mm	55g
AA6106A	White	9mm	60g
AA6106M	Grey	9mm	60g
AA6108A	White	12mm	65g
AA6108M	Grey	12mm	65g
External Diameter 19mm (3/4")			
AA6100A	White	6mm	30g

2 Closed Cell Foam Tubing

Used for building up tool and utensil handles to give greater control to people who lack co-ordination, strength or gripping ability. Tubing has a slip resistant outer layer and is dishwasher safe. The tubing is 300mm (12") long and can be cut to the required length. Comes in packs of six. An assortment (two of each) is available for adults and children. The paediatric assortment comes in bright colours (Yellow, Orange and Blue). This is also suitable for the visually impaired.

625101	Tan	Inner diameter 6mm (1/4") Outer diameter 22mm (7/8")
625102	Red	Inner diameter 10mm (3/8") Outer diameter 28mm (1 1/8")
625103	Blue	Inner diameter 16mm (5/8") Outer diameter 28mm (1 1/8")
AA6111	Adult Assortment - 2 of each	
AA6110	Paediatric Assortment - 2 of each	

3 Elastack™ Tapes

Elastack material is so soft, it seals out air on contact to form a suction bond. Adherence releases easily and is never sticky, making Elastack™ tapes ideal to prevent sliding and enhance grips. The ultra soft grade is the most adherent, transparent, and softest, but is not intended for use above room temperature. Medium grade is firmer, translucent, and durable at elevated temperature (dishwasher safe to 220°F/104°C). Tape is 20mm (4/5") wide and 3.6m (12") long. Latex free.

920798	Ultra Soft Tape
920476	Medium Soft Tape

4 Cuff Weights

These colour coded cuff weights contour to the wrist and can help to reduce shaking or tremors whilst eating. The securing system includes 36cm hook and loop strap with a double safety closure to assure easy adjustment and secure fit. Sold as singles.

	Colour	Weight
AA9896A	Beige	0.5kg
AA9896B	Yellow	1kg
AA9896C	Red	1.5kg
AA9896D	Green	2kg

NEATER TABLE IN USE

1 Neater Eater® Electric Model

The Neater Eater is an essential tool for independence. This model is electric powered and programmable and offers a wide range of benefits to the user.

- Allows an individual to feed themselves
- Encourages social interaction through taking part in mealtimes
- Helps maintain dignity and self respect
- Helps teach movements, improves posture and mouth control
- Assists carers

The Neater Eater arm is moved by electric motors, giving a wide range of movement to take the self-levelling spoon to the user's mouth. You can choose from many different operating modes for the movement of the spoon and for turning the plate. The Neater Eater is suitable for people of all ages with a wide range of physical and cognitive ability (including people with: cerebral palsy, multiple sclerosis, rheumatoid arthritis, motor neurone disease, muscular dystrophies and Parkinson's disease). The Neater Eater can be programmed for up to five individual users each with different abilities, mouth heights and positions. The system includes two spoons, two scoop plates, a plate stand, two switches and a joystick for programming positions.

AA55021

2 Neater Table®

The Neater Table is a sturdy table, ideal for a wide variety of situations. Its unique design emphasises easy access, flexibility and convenience for the user. Easy to transport and store, the tabletop unscrews from the base and the legs fold away. The base is made from epoxy coated steel and the top from sturdy, veneered wood. The table allows easy access for users and is especially suitable for those in wheelchairs. The table is height adjustable between 690 and 930mm (27 and 36 1/2"). The tabletop measures 920 x 500mm (36 1/4 x 19 3/4").

AA550211 Neater Table

Due to the unique design of the Neater Table, heavy weights placed at the back of the table could potentially make it unstable.

3 Neater Drinker®

The Neater Drinker can be used in conjunction with or separately from the Neater Eater. A 600mm straw in a sturdy ceramic mug with a lid. The bendable straw has a non-return valve. The mug has a non-slip base and the lid holds the straw in place and helps keep the contents warm. It holds up to 400ml. The Neater Drinker is supplied in dark blue. Spare straws are available as is an extra long straw.

AA55022B Neater Drinker Blue

AA55023 Spare 600mm Straw

AA55024 Extra long 1200mm Straw

DISHWASHER SAFE
All products on this page are suitable for use in a dishwasher.

1

**1 Suction Scoop Dish**

Features three suction cups fixed on the base for maximum stability. Just moisten the suction cups and press to smooth, flat surface. Off white melamine with a heavy duty reinforced 229mm (9") rim and base. Provides stable, non-slip eating surface. Dishwasher safe up to 80°C (180°F). Not recommended for use with microwaves.

1434

2

**2 Scooper Plate**

This flat bottom plate has a high rim with a reverse curve on one side that helps in scooping food onto a spoon or fork without spilling over the side. Made from blue, heat resistant plastic, it has a non-slip detachable suction ring. Once the suction ring has been removed, the plate is dishwasher safe. Diameter 165mm (6 1/2").

AA5607

3

**3 Suction Scooper Bowl**

This 110mm (4 1/2") dish has a suction base attached. The curved rim guides food onto the spoon whilst the slip-resistant base helps keep the bowl firmly in place. Once the suction ring has been removed, the bowl is dishwasher safe. Colours may vary.

1548**4 Partitioned Scoop Dish with Lid**

This dish has three compartments, each 38mm (1 1/2") deep, to keep food separated. The two smaller sections hold up to 200ml, while the larger one has a 375ml capacity. The high walls of each compartment can be used to help push food onto forks and spoons. Supplied with a clear plastic lid for easier transporting and storing of food. Dishwasher and microwave safe.

Diameter 200mm (8 1/4").

A684403

4

**5 Partitioned Scoop Dish**

White melamine dinner plate with 19mm (3/4") high dividers and near vertical sides. 222mm (8 3/4") in diameter. Not recommended for microwave or heavy institutional usage. Dishwasher safe up to 80°C (180°F).

1388**6 Round-Up™ Plate**

For children and adults with limited muscle control and co-ordination. A high inner wall around the circumference helps prevent food from spilling or sliding off the plate. Dishwasher safe. Height 19mm (3/4"). Diameter 203mm (8").

**INFORMATION**

Differences between melamine and polypropylene:

Melamine

- Heavier weight plastic
- Break resistant
- Scratch resistant
- Stain resistant
- Not microwavable
- Dishwasher safe up to 80°C (180°F)

Polypropylene

- Lightweight plastic
- Unbreakable
- Can scratch
- Can stain
- Microwavable
- Dishwasher safe up to 80°C (180°F)

1 Hi-Lo Dish

Users can push food onto cutlery against the vertical wall that surrounds half of this plate. The entry wall is at the lowest point and gradually slopes upward. Constructed of white melamine with non-slip feet on base. Dishwasher safe up to 80°C (180°F). 195mm (7³/₄") diameter. 13mm (1/2") to 45mm (1³/₄") lip height. **1429**

2 Keep Warm Dish

Simply unlock the plug and fill the chamber with hot water to keep food warm for extended periods. Plastic funnel included. Top-rack dishwasher safe, but not suitable for the microwave. Measures 50mm (2") high x 200mm (8") diameter. 650ml capacity. Weight 900g. Comes with Lid. **825**

Adult Dish

3 Dignity Ware

A range of ceramic crockery that is both dishwasher and microwave safe. The plate has a 230mm (9") diameter and is 30mm (1¹/₂") deep. It has an inward turning lip to aid eating. The high sided bowl has a 160mm (6¹/₄") diameter and is 35mm (1³/₈") deep. The mug is 80mm (3¹/₄") high with a large handle to aid gripping.

AA572302	Spare Lid	Large

2 Cup with Temperature Regulated Lid

This version of the Sure Grip mug above has a lid that changes colour when the contents are hotter than body temperature. If liquids hotter than 37¹/₂°C (96°F) are put into the beaker the lid will change colour from blue to pink, alerting the user to be careful when drinking. The lid is safe and easy to use and can also be used with a straw. Do not leave lid in direct sunlight.

AA5769

3 Teapot Feeder

This white plastic feeding cup with two handles has a partially covered lid to prevent spills. The teapot style spout enables the cup to be used at a less steep angle when drinking. Capacity 250ml (9fl.oz).

AA5759

4 Feeding Cup with Adjustable Spout

A feeding cup with a spout that can be vertical or clicked over to an angled position for drinking when less tilt is required. Available with 4mm or 8mm spout hole. Sold in pairs. Capacity 250ml (9fl.oz).

2 Independence Drinkware with Interchangeable Lids

Each container is made of durable, translucent polypropylene (or clear polycarbonate, where noted) to allow the monitoring of hot and cold liquid intake. The lids are interchangeable among all beverage containers providing maximum versatility and practicality. All Independence Drinkware items are microwave safe and dishwasher safe to 109°C (228°F) and all are latex free.

A INDEPENDENCE MUG

Measures 70 x 76mm and has a 225ml capacity. Supplied with a spouted lid and an anti-splash lid.

1451

B INDEPENDENCE TWO-HANDLED CLEAR MUG

Measures 90 x 100mm and has a 285ml capacity. It features visible markers on the side to measure the amount of liquid in the mug. The two large handles and wide base make it especially useful for those who have a limited grasp. Supplied with a spouted lid and an anti-splash lid. Made from unbreakable clear polycarbonate.

1251

C INDEPENDENCE TWO-HANDLED CUP

Measures 70 x 76mm and has a 225ml capacity. The two large handles make it especially useful for those with limited grasp. Supplied with a spouted lid and an anti-splash lid.

1453

D INDEPENDENCE TWO-HANDLED NOSEY CUP

Measures 114 x 76mm and has a 225ml capacity. It is particularly suited for those with swallowing problems. Supplied with one nosey attachment.

1460

E INTERCHANGEABLE LIDS

Spare Lids

The lids are suitable for all of the Independence Drinkware range.

Spouted Lids

Enables the user to control the flow of the liquid by placing a finger over the hole. It can be used with a standard straw.

145401 Pack of 6

Anti-Splash Lids

Two sets of holes provide greater control of flow of liquid.

145402 Pack of 6

Flow Lids

Enables a user to drink in a semi-reclined position. It features a rubber button that releases small amounts of liquid for controlled drinking.

145403 Pack of 6

Nosey Lids

Allows the user to maintain a proper head and neck position when swallowing.

145404 Pack of 6

3 Two Handled Mug and Lids Homecraft

A new, improved design of this popular mug has larger handles and shaped finger holds for ease of use. Gradations in the translucent material allow liquid consumption to be measured. The mug has a larger 270ml (9fl. oz) capacity and is supplied with interchangeable lids that also fit the AA5700 polycarbonate mug and the Independence range. Supplied as a pair in translucent cream with two lids - one spout lid and one splash lid. The mug is dishwasher safe, but lids should be cleaned in warm soapy water only. A bulk pack consisting of 20pc of the mugs with lids is also available.

09 142 1064 Bulk - 20 Mugs and 40 Lids

1 The Hydrant Drinking System

The award-winning Hydrant assists in the prevention of dehydration, which is a big problem within healthcare, and in turn can create other health problems, e.g. constipation, urinary tract infections, dizziness, bed sores and blood pressure problems. Where people are bed bound or have limited mobility, the risk of dehydration is increased, as they are dependent on someone else to help them access fluids. The Hydrant eliminates this problem, with its ability to hook, clip or hang onto beds, wheelchairs, chairs, belts, and with its long drinking tube to assist the user.

With its integrated cap and hanging bracket, the Hydrant has a drinking tube with a bite valve and a small clip to attach the tube to clothing if required. When the bottle is hung from a bed, chair, or wheelchair, the user simply takes hold of the tube, inserts the bite valve between their lips, then bites and sucks it to access the fluid. This ensures there are no leaks, spills or drips. If hung above head height, the tube works as a siphon, helping those with limited sucking ability, as fluid gently flows when the valve is activated. It has an ergonomic handle and indentations for easy holding, even for users with a poor grip, Parkinson's, MS, arthritis, etc. It also has gradations on the side to monitor fluid intake.

The 'Sports' version provides instant access to fluids for those who do not need to use the drinking tube on the original Hydrant. The Hydrant has become standard issue equipment in some hospitals and rehabilitation units.

Dishwasher safe.

- 09 118 4084 Hydrant 1 litre Bottle with Tube
- 09 118 7236 'Sports' Hydrant 500ml
- 09 119 0339 'Sports' Hydrant 750ml

- 09 120 3199 Spare Tube

2 Insulated Mug

Homecraft

A plastic mug with double wall for insulation, keeping the contents hot but protecting the hand or table top. It has a large handle for easy gripping. Supplied with a lid. Not suitable for dishwashers.

- AA5740Y Retail Packed
- AA574001 Spare Lid

3 Dysphagia Mug

The design of this cup helps prevent liquids from escaping at the lips and directs the liquid to the centre of the mouth. It provides sufficient nose clearance to empty the cup without tilting the head back. The extended handle accommodates gripping by the entire hand or by the thumb only. Dishwasher safe to 80°C (180°F). Not recommended for microwave use.

- A779100 Almond
- A779101 Green

4 Thumbs-Up Cup

Lightweight and durable insulated plastic cup designed for people with limited strength or co-ordination. Two backward tilt handles and thumb rests allow maximum gripping. Can be used with hot or cold liquids. Microwavable and top rack dishwasher safe. Supplied with a spouted lid. Capacity 237ml (8fl.oz). Weight 204g.

- 1264 Cup with Lid
- 126401 Spare Lid
- AA5755 Cup without Lid

Spares are available for these products, making them suitable for refurbishment. For full spares listing, please see pages 1353 to 1360.

DISHWASHER SAFE
This product is suitable for use in a dishwasher.

1 Wing Handled Beaker Homecraft

These beakers have been designed to assist those with poor grip. Large wing handles allow the beaker to be gripped in a comfortable position. Raised ridges prevent the mug slipping. Consumption can be easily measured from the gradations on the side. The beakers are supplied as a pair with a narrow spout for liquids and wide spout for semi-solids. Beakers are dishwasher safe. Wash lids in warm water only.

09 142 1007

2 Weighted Cup with Lid

This mug has an extra 225g (8oz) of weight to make it easier for clients with tremors and athetosis to control movement while drinking. Insulates hot or cold liquids. Features easy-to-grasp handle and stable, wide base. Not recommended for dishwasher or microwave use. Capacity 340ml (12fl.oz).

110801

3 Feeding Cups Homecraft

A clear plastic beaker, designed for easy gripping, which has a vented lid with a drinking spout. Available with 4mm or 8mm spout hole. Supplied in pairs. Capacity 200ml (7fl.oz). Dishwasher safe up to 135°C (275°F).

Weight

AA5750Y	4mm Pair	80g

4 Beaker Holder Homecraft

This beaker holder is made from toughened ABS plastic for extra strength. It fits the AA5750Y, AA5752, AA5754 and AA5756 style of beakers. The beakers simply slot into the holder and are gripped in place. The wide rim base prevents beakers being easily knocked over. The large double handle allows users with poor grip to hold the beaker with ease. The holder is dishwasher safe. Each beaker is supplied with two mugs and two lids (4mm and 8mm spout). A bulk pack containing 20pc of the beaker holders (no mugs) is also available.

09 142 1023 20pc Beaker Holders (No Mugs)

5 Etac® Clear Beaker and Holder

A clear, insulated beaker, which has a lid and spout to reduce spillage when drinking. The holder has a large handle and a supporting lip so that it can be held firmly using both hands. Dishwasher safe. Capacity 400ml (14fl.oz). Weight: Beaker 54g, holder 56g, lid with spout 13g.

AA5702

RETAIL PACKAGED
These products are supplied in retail packaging.

DISHWASHER SAFE
This product is suitable for use in a dishwasher.

1 Nosey Cutout Cup
 Designed for use by people who have difficulty tipping their head back. The cup is notched to allow room for the nose when cup is tipped. Dishwasher safe. Capacity 237ml (8fl.oz). Weight 40g.
A7796

2 Ergonomic Nosey Cup
 This ergonomic Nosey Cup provides a steadier grip with its contoured shape and a slightly textured surface. A special cutout for the nose area allows users to drink easily without tipping the head back. Translucent plastic lets the carer monitor liquid intake easily. Dishwasher safe up to 80°C (180°F).
1159

3 Nosey Cutout Tumblers
 These cups are designed for added comfort and convenience. A special cutout helps to maintain the proper head and neck positioning when swallowing, making drinking even easier. Each tumbler is transparent which enables monitoring of liquid intake. Durable polypropylene makes these tumblers dishwasher safe up to 109°C (228°F).
1149 115ml (4fl.oz)
1145 236ml (8fl.oz)
1146 340ml (12fl.oz)

4 Elegant Nosey Cup
 The Elegant Nosey Cup with a cut away rim is designed for those who cannot tilt their head back to empty a cup's contents. It is perfect for bedridden patients, those with wheelchair headrests, neck fusions, severe kyphosis, and swallowing disorders. Clear rigid plastic allows monitoring of liquid flow. A wide base prevents spills, and pedestal allows for easy grasp, even with limited hand function. The rounded bottom of bowl facilitates complete emptying. Microwave and dishwasher safe.
AA5705

5 Easy Grip "Hand In" Mug
 This cup has a large ergonomically curved internal handle designed for people with arthritis or a weak grip. This tough polycarbonate mug features an internal handle that enables the hand to fit through the mug, eliminating the need for grasping. Other features include an easy open/close lid lever, a 360-degree rotating lid, an adjustable drinking spout, and a non-slip rubber grip base. Capacity 473ml (16¹/₂fl.oz). Dishwasher safe up to 153°C (top rack recommended).
09 116 8889

6 Flexi Cups
 These flexible cups with cut outs can be gently squeezed to change the shape of the cup lid. Liquid is visible through the plastic to aid with feeding. The green cup is stiffer and designed to be used independently. Dishwasher safe and latex free.
920270 Pink Flexi Cups 30ml (1fl.oz.) - Set of 5
920271 Blue Flexi Cups 59ml (2fl.oz.) - Set of 5
920272 Green Flexi Cups 207ml (7fl.oz.) - Set of 5

7 Doidy Cup
 This unique training cup is specially designed to encourage children to drink from a rim rather than a spout. Babies as young as 6 months find the two handled cup easy to hold and to drink from as the natural action used is the same as in breast feeding. Helps prevent tooth decay and speech problems associated with weaning from the bottle. Dishwasher safe. Colours may vary.
AA75506 192ml (6¹/₂fl.oz) Capacity

 **DISHWASHER SAFE**
 All products on this page are suitable for use in a dishwasher.

1 Two Handled Cup and Saucer

This attractively designed cup and saucer is made from lightweight bone china. The cup has two handles, to assist those with shaky or frail hands. Colour of pattern may vary.

AA5729

2 Easi 2 Drink Tumbler

This unique product aids those who have difficulty in drinking without spilling. It is particularly suitable for those who suffer from hand tremors, Parkinson's Disease and Multiple Sclerosis amongst other conditions. The plastic insert sits inside the tumbler and restricts the wave motion of the liquid helping reduce the possibility of spills. The inserts are made from food quality plastic and are dishwasher safe. The inserts can be easily removed for cleaning purposes. A stainless steel extractor for the insert is included.

AA570701 Easi 2 Drink Tumbler

AA570702 Spare Insert

3 Novo Cup

The Novo Cup is ideal for those who are in bed, lying down or have restricted head and neck movement. The 250ml cup is dishwasher and microwave safe. It is suitable for both hot and cold liquids. Once the lid is placed firmly on the cup and the stopper is in place, the cup becomes spill proof after the first sip.

AA5703

4 Wonder-Flo® Cup

The Wonder-Flo Cup is designed for drinking in semi-reclined positions. The liquid stops when the user isn't drawing and the rubber button will release small amounts of liquid for controlled feeding. Manufactured from microwavable and autoclavable nylon. Button contains latex.

09 120 4429 Wonder-Flo® Cup

09 120 4437 Set of 3 lids

5 Provale™ Cup

Created to preserve the dignity of those who suffer from dysphagia or disorders associated with difficulty swallowing. The Provale Cup can be filled at the beginning of the meal and the diner can drink at will, on their own. The cup delivers a measured amount of liquid (5ml or 10ml) to the drinker to prevent choking. The cup also allows cleanup to be limited to one piece of dinnerware rather than the several parts of other feeders. Optional one or two easy-grip handle or no handle design. Dishwasher safe.

551845 5ml Dispenser Blue

551846 10ml Dispenser Brown

6 Handy Cup

This two handled transparent cup has an extra wide base that provides stability, reducing the possibility of accidental spills. The angled design allows a person to drink without having to tip their head back to drain the cup. It can also be tipped beyond the point where a normal cup would touch the bridge of the nose. The user requires little (or no) neck movement to be able to use the cup. Holds 237ml and weighs 112g. Dishwasher and microwave safe.

AA5701

1 Kennedy™ Cup
 This spill-proof cup is perfect when sitting or reclining. The easy-to-grip handle can be picked up by weaker hands and is suitable for right or left handed people. The lid screws on tightly to prevent leaks and accepts any standard disposable straw. This lightweight, durable cup holds 200ml (7fl.oz) of warm or cold liquid. Dishwasher safe to 80°C (180°F).
1249

2 RNIB Liquid Level Indicator
 This small bright red gadget detects 2 levels of liquid. The first level detects when you have filled the cup 35mm (1³/₈") from the top, with intermittent vibrations, and the second level detects when you have filled the cup 25mm (1") from the top, with continuous vibrations. Measures 45 x 30 x 15mm (1 x 1 x 5/8"). Requires one 3v CR2032 battery, included.
09 118 7202

3 Sip-Tip Drinking Cup
 The Sip-Tip valve helps straws stay full of fluid, reducing the amount of air ingested and effort required. The one-way valve can be trimmed at designated areas, giving the user selective flow restriction. Valve and lid are compatible with most brands of disposable flex straws. The spill-resistant tumbler has a graduated scale to monitor intake. Not recommended for carbonated beverages. An optional mouthpiece ensures proper placement, assists with lip closure and can be shortened to aid oral motor development. Microwave and dishwasher safe to 82°C (180°F).
920691 Sip-Tip Drinking Cup with Lid, One-way Valve and 10 Straws
557168 Optional Mouthpiece - Pack of 6

4 Lil Sucker Cup Holder
 This useful device allows a standard glass to be placed in the cup holder, and the suction ring will hold it steady on any smooth, non-porous surface. Gently lifting the edge of the ring releases the suction. Lil Sucker Cup Holders remain attached to the surface so that the glass can be removed easily, and the drink will be secured every time it is placed back in the holder.
09 118 4092

5 One-Way Straw and Straw Beri Straw Holder
 These useful straws have a one-way valve, which means that the straw stays filled with liquid even when the straw is removed from the user's lips. This reduces the risk of sucking in too much air while drinking. The pack of straws is supplied with the innovative Straw Beri straw holder to attach the straw to the side of a glass. Each package includes 10 one-way straws and one Straw Beri.
09 117 3301

6 One-Way Drinking Straws
 These straws have one-way valves which stay filled with fluid, even after removing the straw from a user's lips. This feature eliminates the possibility of sucking in too much air while drinking. The clip-on straw hooks onto the side of a glass or cup to prevent the straw falling out. Each package contains two straws, one 254mm (10") and one 178mm (7").
816

7 Re-Usable Drinking Straws
 These 457mm (18") straws come in two varieties: flexible and rigid. The 3mm (1/8") and 6mm (1/4") diameter, rigid straws can be heated with a heat gun and reshaped as desired. The larger rigid straw is ideal for soups. The flexible polyethylene straw comes with a 5mm (3/16") diameter hole.

	Type	Diameter	Pack Size
1130	Rigid	3mm	10
1133	Flexible	5mm	10
1136	Rigid	6mm	5

DISHWASHER SAFE

2

1 Cordless Electric Mini Jug Kettle

A miniature kettle, ideal for boiling small amounts of water. It has an automatic cut out switch and the base can be fixed down, with provision for screws. It is extremely light and easy to lift compared to standard kettles and is ideal when travelling. The kettle can be easily lifted from the base providing maximum freedom of movement when filling or pouring. Size 190mm x 125 x 205mm. Capacity 800ml. Weight 0.6kg. **AA5787**

2 Justy Adjustable Carton Holder

The Justy carton holder performs several functions to help with opening, lifting and pouring milk and juice cartons. The device is adjustable, enabling it to fit over a range of carton sizes. When it is pushed down over the carton, the opener pierces the top of the carton to provide an easy to pour lid. Measures 137 x 68 x 144mm (5 1/2 x 2 3/4 x 5 3/4"). Weight 143g. **AA5384**

3

3 Long Handled Bottle Holder

Homecraft

This long handled wire frame is used to carry bottles easily and safely without having to bend to pick them up, leaving a hand free for support. Handle length 600mm (24"). Max bottle diameter 83mm (3 1/4"). Weight 610g. **AA5382**

4 Economy Kettle Tipper

A coated wire cradle which is suitable for most kettle types, including standard, jug and electric kettles. It has a raised wire frame to hold the kettle and assist with pouring, and rubber feet to prevent the tipper sliding on the work surface. For added safety, the tipper has a back stop, preventing spillage if the kettle is released during usage. Straps are provided to attach the kettle to the tipper. **09 132 4383**

5 Derby Kettle and Teapot Tipper

This tipper allows the safe and steady pouring of hot liquids without lifting any weight. It is suitable for most types of teapot or electric kettle and comes with a Velcro brand hook and loop strap for added security. Made completely from plastic it is lightweight and corrosion resistant. Suitable for use with cordless kettles. Length 205mm (8"). Width 275mm (11"). Height 200mm (8"). Weight 500g. When using the tipper with a cordless kettle (especially a jug kettle) for additional safety, it is recommended that the Tipper Stabiliser Base is used.

AA5772 Kettle Tipper

AA577201 Stabiliser Base

4

NEW

5

1 Universal Kettle Tipper

Homecraft

This new and innovative kettle tipper is designed to be compatible with most kettle types including standard, jug and cordless kettles. The lever can be positioned on either side of the tipper to tip the kettle while it is held in place, without the user having to actually lift the water. This reduces the effort required and potential strain on the wrist that can occur when holding the kettle handle. For added safety the kettle will rock back into the upright position if the user lets go during use. The base plate is 200mm in diameter and has a sliding stop at the front so that the kettle can be positioned in the most suitable position. It is then secured in place by the two sturdy straps. The tipper is manufactured from attractive heat resistant plastic for durability and has rubber feet to prevent sliding on the work surface.

09 120 7281

2 Jug Kettle Tipper

Homecraft

A coated wire cradle that holds most styles of jug kettle, and pivots on a raised wire frame by gentle pressure on the handle to assist with pouring. The kettle sits in the cradle and is secured by an elasticated strap. The frame has a built in stop for positioning the mug and a back stop to prevent spillage if the kettle is accidentally released during pouring. The frame has non-slip feet. Not suitable for cordless or mini jug kettles. Weight 602g.

AA5774

3 Standard Kettle Tipper

Homecraft

A raised tilting platform, designed to assist with pouring from any standard kettle with virtually no effort or risk of spilling boiling water. When the handle is pushed gently forward, the platform pivots on its white coated wire frame, which has non-slip feet. It cannot drop forward accidentally or fall back past the horizontal. The frame is high enough to pour safely into a teapot, mug or cup. Not suitable for cordless kettles. Platform height 93mm (3⁵/₈"). Weight 1kg.

AA5770Y Retail Packed

4 Cordless Kettle Tipper

Homecraft

This innovative kettle tipper will suit most cordless kettles. There is a metal plate that secures the base of the cordless kettle and a frame with a hook and loop strap to keep the upper part of the kettle in place. A cut out at the foot of the tipper allows cups to be positioned as close to the kettle as required. The frame has a built in back stop to prevent spillage if the kettle is accidentally released during use. Weight 1kg.

1 Reversible Towelling Bibs Homecraft

A versatile and smart bib that can be reversed to suit the type of food consumed. The terry towelling surface absorbs liquid spills, whilst the waterproof PU surface on the reverse is easily wiped clean. Both bibs have easy to fit hook and loop fastening. The full length design offers excellent protection. The bibs are washable and can be tumble dried and ironed at low temperatures.

09 142 1049

2 Napkleen Disposable Bibs

The Napkleen™ is a simple disposable bib that simply sticks onto clothing using the "peel and stick" strip. It is made from a soft, instantly absorbent fabric, while the waterproof backing shields the clothing underneath from wetness and stains. The bibs are "tie-free", invisible feeling, easy-to-apply and disposable.

09 131 6231 Pack of 5

09 118 7228 Pack of 50

3 Bioprene Healthcare Bibs

These unique bibs are made using medical grade neoprene called 'Bioprene'. The material contains an active antimicrobial agent which kills most bacteria including, Salmonella, MRSA, and other bacteria plus fungi, yeast and algae to ensure a sterile product at all times. The unique, fold out pocket, means the bib can be used with or without the pocket and the snap fastener has three positions to ensure the best fit for the user. The rubber inner layer repels all liquids whilst the top nylon layer is wipe clean and stain-proof, so the bibs clean easily. Machine washable (40°C max) and suitable for use in a tumble drier.

Small: Neck diameter 110-125mm; Shoulder width 290mm;

Total length 500mm. Large: Neck diameter 110-135mm;

Shoulder width 350mm; Total length 620mm.

09 115 8161 Small

NEW

Ergolipse® Range

Many people suffer from back pain during their lives, which is often a result of poor posture, or sitting for prolonged periods of time. The award-winning Ergolipse® range of products has been developed in consultation with occupational therapists and physiotherapists, to alleviate back pain and encourage better posture. When in position, the Ergolipse® encircles the waist while the forearms are supported by the armrests at very comfortable right angles to the body. The resultant ergonomic position maintains a straight back, preventing spine distortion. The range features three different designs which are elegantly finished, providing a flat, solid surface strong enough to take up to 8 kg of weight under normal use, making them ideal for everyday activities such as working, eating meals or using a laptop. The products are light and easy to handle, being made from high quality, high density, flame retardant foam, covered with PVC, which can be cleaned using warm soapy water. There are no sharp edges on any of the products, meaning they are ideal in environments with self-harm issues, and all are mould and mildew resistant, suitable for use in hospital environments.

2

NEW

1 Ergolipse® Standard

The Ergolipse® Standard is designed to be used when sitting on a sofa or in bed, to provide the user with optimal comfort when working or relaxing. It is ideal for carrying out a wide range of activities while seated for long periods.

09 142 8937

2 Ergolipse® Relax

The Ergolipse® Relax is designed to be used with armchairs, and will fit all upright chairs with armrests and a 540mm (21") wide seat. It also features wide armrests, which offer support to the forearms.

09 142 8945

3 Ergolipse® Mobile

The Ergolipse® Mobile is designed for use with a manually-propelled wheelchair fitted with side armrests, as well as with shellchairs. It has a strap to secure it around the back of the chair if necessary. The good sized armrests are both soft and relaxing, offering full support for the forearms.

4 Adjustable Wooden Bed Tray

Homecraft

Attractive, practical wooden frame bed tray. Adjustable to five different angles for reading, writing, etc. The legs fold out to allow the tray to be placed comfortably across the lap.

The tray is laminated to allow easy cleaning. Height 235mm (9¹/₄"). Width 540mm (21¹/₄"). Depth 310mm (12¹/₄"). Adjustable to 445mm (17¹/₂") at the rear.

AA5852

4

1 Bed Mate **Homecraft**

This portable table is ideal for eating, reading, or hobbies, while comfortably lying in bed. It is lightweight yet sturdy, can be adjusted to different angles and folds for storage or transportation. The table top has a lip to prevent items from rolling off, and is easy to clean. The top measures 36 x 47 (14 x 18½").

09 142 3961

2 Foldaway Bed Tray

An attractive, walnut finish, foldable bed tray that is ideal for use in bed or sitting in a chair. The feet are foldable to allow easy storage. Height 250mm (9¾"). Width 600mm (23½"). Depth 400mm (15¾"). Weight 1.7kg.

AA5853

3 Stay Tray with Bean Bag **Homecraft**

This tray has a bean bag attached underneath to allow it to sit comfortably on the knees in a very stable position. It is supplied with a Dycem non-slip mat to prevent items from sliding. The detachable bean bag has an attractive washable cover. Ideal for use when sitting in a chair or bed. Tray size 445 x 330mm (17½ x 13"). Weight 675g.

AA5820

4 Lap Tray with Non-Slip Mat

This lap tray provides a level, steady worktop for reading, writing or eating a meal. It has a detachable, washable bean bag that moulds itself to the contours of the knees to provide a very stable surface. It is supplied with a 457 x 356mm (18 x 14") non-slip mat to prevent items from sliding on the tray. The tray size is 457 x 356mm (18 x 14"). Fabric pattern may vary.

09 118 0306

5 Freehand Tray with Non-Slip Mat **Homecraft**

This tray has a moulded handle that clips onto the hand holes in the tray to give a large carrying handle. This allows the tray to be carried one-handed and be well balanced. It is provided with a Dycem non-slip mat which prevents items sliding around. Size 445 x 330mm (17½ x 13"). Weight 705g.

AA5810Y

6 One Hand Tray with Fold Down Handle

Carry this tray and its contents with just one hand. The extra low centre of gravity and patterned surface reduce the risk of spillage. Made from a tough wipe-clean white plastic. The handle is folded away for easy storage. Maximum recommended load 4kg. Size when folded 520 x 325 x 45mm (20½ x 12¾ x 1¾"). Weight 750g.

1 Economy Stacking Trolley **Homecraft**

This trolley has a steel frame with angled handles to give improved grip and stability. The fold down trays allow the trolley to be stacked for easy storage and transportation. It has large 102mm (4") locking castors for greater manoeuvrability. It is supplied either flat packed for easy assembly or fully assembled. The trolley is height adjustable between 946mm (37¹/₄") and 1015mm (40") with four height settings. Width 544mm (21¹/₂"). Upper tray height 795mm to 870mm (31¹/₄" to 34¹/₄"). Top shelf measures 446mm (17¹/₂" x 12¹/₂"). Bottom shelf measures 440mm x 294mm (17¹/₄" x 11¹/₂"). Weight 8.8kg.

AA5992A Flat Packed

AA5992B Assembled

2 Adjustable Diner Trolley **Homecraft**

This trolley has small castors, allowing easy movement yet ensuring the front will fit under a bed or chair. It has a large plastic tray which slides off the frame for use on a table or for cleaning. The rubber handles and tray are adjustable in height for maximum versatility and easier food transfer from different surface levels. It is supplied flat packed, but easily assembled with pin clips. Height to handle 750 to 975mm (29 to 37"). Tray height 538 to 800mm (21¹/₂" to 31¹/₂").

Tray size 525 x 388mm (21 x 15¹/₂"). Weight 5.5kg.

AA5986

3 Gemini Trolley

A trolley with height adjustable hooped handles. The 'kick back' rear legs ensure stability. The shelves are tough plastic with a slight lip to avoid spillage. Handle height adjusts from 850 to 980mm (33¹/₄" to 38¹/₃"). Height of shelves 730mm (28¹/₂") and 400mm (15¹/₂"). Internal width 360mm (14"). External width 432mm (17"). Weight 5.8kg.

AA5972

4 The Buckingham Walking Frame Caddy **Homecraft**

Developed by healthcare professionals to enable users of wheeled walking frames to safely transport a variety of daily living items. In most instances it can replace the need for a trolley.

The caddy enables a user to carry most items safely and more importantly, independently without being reliant upon carers. With one large and one small compartment to allow the user to separate items such as glasses, keys, medication etc.

Supplied with a tray, that is designed to safely transport a plate of food, and a mug holder, which holds any spillages. The caddy is easy to fit to most styles of walking frame. Manufactured from a tough, durable plastic it can be cleaned in a dishwasher and has drainage holes, for easy drying. Width without tray 434mm (17"). Width with tray 457mm (18"). Depth with tray 310mm (12¹/₄"). Height 200mm (8"). Total weight 1kg.

AA8389

Maximum load weight **2 kg** **4 1/2 lbs**

1 Adjustable Height Teak Shelf Trolley

REVOREACH

Revolutionary Design

Sleek and modern, the RevoReach™ has been designed with the user in mind. The contemporary design is robust and uses ergonomic principles, making the product range as comfortable to use as possible.

Revolving Jaw

The revolving jaw head allows objects to be picked up from a variety of angles. It can be locked in position at 30° angles for increased flexibility.

Lightweight & Well Balanced

The correct balance of a reaching aid can be a significant factor when it comes to providing optimum control and a secure grip. For this reason the weight is distributed towards the handle making the reacher easier to control and less "top-heavy".

Key Features

- Ergonomic handle design reduces finger and wrist strain
- Attractive slip-resistant handle provides a more secure grip
- Robust construction for security and durability
- Slip-resistant ridged jaws provide additional grip when picking up objects
- Adjustable rotating jaw head operated by a pull and twist action offers flexibility - Adjustable in 30° increments
- Two models available to suit user requirements

1 RevoReach™ Xcel Homecraft

This robust reacher benefits from an ergonomically designed handle with a trigger that requires minimal finger extension and allows the use of all fingers for a more powerful grip. The short trigger design is ideal for anyone with arthritic fingers or a weak grip.

		Length	Weight
09 120 4825	Standard	660mm (26")	210g
09 120 4833	Long	810mm (32")	230g

2 RevoReach™ GripLock Homecraft

This unique reacher has additional features, making it as easy to use as possible. The GripLock benefits from an innovative locking mechanism that allows the jaws to be locked in place once an item is gripped, enabling the user to concentrate their efforts on moving the object, rather than maintaining their grip of the item. There are three main functions of the lock:

- **Standard Lock** - The standard locking feature allows the lock to be engaged using either the thumb or hand to turn the locking catch. This allows the user to grip an object then engage the lock once they have achieved a secure hold
- **Grip & Hold** - This innovative function allows the lock to be set so that as the trigger is squeezed, the jaws automatically lock. This is ideal for anyone who lacks the dexterity to use the lock catch when gripping an item, and is also very useful for gaining a tighter hold on an item that has already been gripped
- **Fine Tune Grip** - a useful feature that allows the jaws to be locked half way so they have a smaller range of movement. This is a useful function when picking up smaller objects as it allows a more precise grip and allows the reacher to retrieve items from tight spaces

		Length	Weight
09 120 4791	Standard	660mm (26")	220g
09 120 4809	Long	810mm (32")	240g

A

B

C

D

1 Pick-Up Reacher Homecraft

A unique lightweight, robust and wear resistant reacher. Ideal for retrieving or reaching a wide variety of items in the home, garden or out shopping. Available in four lengths, with or without optional extras.

Features

A Twin Gripping Jaws

The jaws have sculptured liners which give an excellent grip. The Pick-Up is operated by a wire not a cord eliminating fraying or stretching.

B Magnetic Head

There is a magnet attached to the jaw which allows easy retrieval of pins, paper clips and other small ferrous items.

C Trigger Design

The trigger is designed for comfort and is large and roomy to allow use of all fingers. The short trigger distance is ideal for stiff, arthritic fingers. The trigger projects through the top of the handle to allow it to be squeezed in the conventional manner, or pushed using the palm of the hand.

D Rotatable Head/Stick Clip

The head can easily rotate to suit individual tasks. The Pick-Up is supplied with a removable stick clip, allowing it to be clipped on to wheelchairs and walking frames etc.

1 Handi-Reacher™ Homecraft

An ultra lightweight, robust reacher that will assist those with restricted reach and/or mobility problems. Features a single moving jaw operated with a trigger action from the handle. The head is complete with a magnet for picking up small metal objects eg. pins, and a hook to aid dressing. The jaw may be rotated 360° to avoid the need to rotate the wrist which may be painful to certain users. The trigger, operated by four fingers instead of the usual two is easy to grip and operate.

HIGH VISIBLE 76mm YELLOW JAW

RUBBER TIP CONFORMS TO ANY OBJECT

MAGNETIC TIP

ERGONOMIC HANDLE

1 Lightweight Reachers Sammons Preston

A high quality, durable aluminium reacher that is extremely lightweight and ergonomically designed for comfort. Designed for picking up objects, the reacher's serrated high visibility yellow jaw and flexible foam rubber tip conform to the contours of any object, working together to ensure a firm, secure grip. Hands remain comfortable on the ergonomically designed trigger action handle. Available as a standard model in 660mm (26") and 810mm (32") lengths or a folding model, 660mm (26") long for easier transportation. The jaw opens to 76mm (3").

	Length	Weight

4109	Standard 660mm (26")	168g

2 Reacher Shoehorn

This high quality device aids those that have difficulty bending and reaching, who require that extra assistance to pick up objects from around the home and slip on or off their shoes. Reduces the strain on the users back. The easy to use trigger handle requires a minimum of hand strength to operate, ideal for those with a weak grip or arthritis. Available in two lengths; 690mm (27") and 840mm (33").

- 09 120 3611** 690mm (27")
- 09 120 3629** 840mm (33")

1

1 Easireach II Homecraft

Made from lightweight aluminium, this reacher is designed for people with limited reach and/or mobility. The jaw opening is highly visible and features a slip resistant surface for a secure hold on the object. Available in standard or folding versions. Constructed with a cord running through the tube, which operates the plastic jaw. This cord style allows the reacher to be folded in the centre for ease of storage and transportation. All models include a magnet tip, a hook for dressing, a rubber lined jaw and a device that allows the reacher to be clipped to a stick or walker.

1

1

2 Suction Top Reacher

Aluminium reacher with circular rubber tips that provides a powerful, secure grip. The large trigger can be operated by using the palm of the hand, making it easier for people with limited finger strength. The suckers operate by being pulled together by two metal strips rather than by a cord that can stretch or break. This gives a stronger, more secure and durable grip. Two lengths available.

AA8084	508mm (20")
AA8085	762mm (30")

2

RETAIL PACKAGED
These products are supplied in Homecraft retail packaging.

1 Ergo Reach™ Reacher Sammons Preston

This reacher only requires 227g (8oz) of pressure at the trigger to close the interlocking-tip jaws. An ergonomic trigger and handle allow the reacher to be gripped easily and places the hand and fingers in a natural grip position. The soft slip resistant moulding over the claw provides greater grip power. It also has a magnetic pulling post, which can be used to pick up small metal objects. The clip in the middle of the arm allows the user to attach the reacher to wheelchair arms, walking frames or walking sticks.

		Length	Weight
09 117 1362	Standard	660mm (26")	198g (7oz)
09 117 1370	Long	810mm (32")	227g (8oz)

09 117 1396	Long Folding	810mm (32")	232g (8.2oz)

2 Coloured Reacher

Attractive red, blue or bronze reachers. The plastic handle is comfortable to grip and the trigger is easy to pull. The strong plastic jaws have serrated teeth to aid gripping. Cord driven. Length 670mm (26 1/2").

- AA8086 Red
- AA8087 Blue
- AA8088 Bronze

3 TeleStik™ Portable Reacher

TeleStik™ allows people to retrieve hard-to-reach items without requiring significant grip strength or dexterity. It uses a clever adhesive pad that picks up objects weighing up to 0.5kg so requires minimal hand strength to operate, with no trigger squeezing or strong gripping. The adhesive pad grips the item you want to pick up when mild pressure is applied for 2 seconds. Its sleek design and sticking mechanisms allow the TeleStik to get into tighter places than other reachers. Ideal for people who suffer from arthritis, carpal tunnel syndrome, or any other condition that makes it difficult to operate a traditional reacher. The TeleStik is also available with both an adhesive pad and a magnet hook. The optional Accessory Strap attaches the users hand to the handle to offer additional support.

- 09 117 9449 TeleStik with Adhesive Pad
Compact Size 184mm (7 1/4").
Extended Length 864mm (34").
Grip Size 13mm (1/2"). Weight 65g.
- 09 117 9464 TeleStik with Magnet & Adhesive
Compact Size 203mm (8").
Extended Length 864mm (34").
Grip Size 38mm (1 1/2"). Weight 153g.
- 09 117 9472 Attachment Strap
- 09 117 9480 Replacement Adhesive Pads (Pair)

1 Sure-Lock Reacher Sammons Preston

A range of lightweight aluminium reachers with circular rubber tips. Provides a secure grip with delicate sensitivity to handle objects of various sizes and shapes. The wire driven jaw construction eliminates the string that can stretch and break. Easy-to-pull plastic handles have a pistol-grip action for comfort in holding and operating. Sure-Lock reachers have an automatic locking mechanism that holds jaws securely around the object being retrieved, and releases with a simple flip of the thumb. 76mm jaw opening. Latex free.

- 09 132 9275** 510mm (20") Reacher
- 09 132 9283** 660mm (26") Reacher
- 09 132 9291** 810mm (32") Reacher
- 09 132 9309** 810mm (32") Folding Reacher

2 Etac Aktiv Reacher

Aktiv reachers give people with impaired hand and arm function the ability to grip due to the gripping jaws, rubber grip areas and the magnet on the end. The reachers are available in different versions to suit different needs. The standard Aktiv reachers, which are available in two lengths 450mm (18") and 700mm (27 1/2"), have angled handles in order to best utilise the strength of the hand. The handles have support for the index finger that improves precision. The jaws are adjustable in two positions so that the reachers can be used both vertically and horizontally without having to rotate the arm. The Aktiv reacher with power grip and hook has an angled handle that makes it easier to use even for people with limited grip and hand function. An adjustable lower arm support relieves unnecessary loading on the wrist. The Aktiv reacher with hook has a combination of functions that make it particularly suitable for use when dressing and undressing. The jaw is designed to make it easy to push or pull clothing. It is only 450mm (18") making it small and versatile. The handles, push buttons and jaws are made of plastic and the tubes are made of aluminium.

- AA8080** Aktiv Reacher 700mm (27 1/2")
- AA8081** Aktiv Reacher 450mm (18")

1 GripSure™ Grab Rail Homecraft

GripSure grab rails have soft, ribbed mouldings to provide additional grip in wet areas. They are warm to the touch and the subtle, stylish design makes the rails suitable for use in a variety of areas around the home. The ergonomic elliptical rail is easy to grip and can be mounted horizontally, vertically or diagonally. The oval shaped fixing plates have an attractive covering that clips easily into place. Diameter of rails 37mm. Distance from wall 37mm. Rail length measurements are from the centre of the fixing plate. No electrical earthing required.

RETAIL PACKAGED
 This product is available in Homecraft retail packaging.

INFORMATION
 Rail length measurements are from the centre of the fixing plate. The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 Moulded Fluted Grab Rails Homecraft

This cost effective range of plastic grab rails is made from white PVC tubes with moulded end fittings. They have circular fixing plates which have a covering disc supplied that clips into place, hiding the screw heads along their length to provide better grip for wet hands. The tubes are fluted along their length to provide better grip for wet hands. Diameter of tubes 38mm (1 1/2"). Distance from wall 50mm (2 1/8"). Disc diameter 91mm (3 3/8"). No electrical earthing required. The covering disc is available as a spare, making this product suitable for refurbishment.

	Length	Weight

AA6065F	610mm (24")	595g
AA6066F	914mm (36")	885g
AA6061F01	Spare Covering Disc	

2 Moulded Fluted Grab Rail System Homecraft

This high quality grab rail system has been designed around the popular moulded fluted grab rails. The bars can easily be cut to any length and then slotted into a choice of fittings. Most runs can be accommodated using the T-Pieces and 90° elbows. The rail can be completed with end caps in T-Pieces or standard end brackets as used with the standard fluted rails. All of these can be purchased separately. As the fluted bars fit into ribbed sections, the bars will not twist in a users grip. We recommend that a standard solvent adhesive be used at all of the joints between the various parts. No electrical earthing is required.

- AA6071 A T-Piece - Pack of 2
- AA6073 B 90° Elbow
- AA6076 End Caps - Pack of 2
- AA6077 C 800mm Bar
- AA607101 D End Bracket

SPARES
Spare parts are available for these products, making them suitable for refurbishment. For full spares listing, see pages 1353 to 1360.

INFORMATION
Rail length measurements are from the centre of the fixing plate. The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 System Hand Rail Homecraft

This white plastic rail is part of a modular system for creating a strong attractive grab bar or a continuous length of rail. Short rails can also be used end to end at different angles or to go around a corner. It can be purchased in complete kit form with two brackets and two end caps. The rail can be easily sawn to an exact length, and is usable indoors or outside. Diameter of rail 32mm (1 1/4"). A longer version of the rail is available with an inner steel sleeve for additional strength. This wall fixing bracket connects to the end of the rails or the end cap. It locks the rails in place to prevent them twisting around. Effective width 70mm (2 3/4"). Weight 100g.

		Length	Weight
SHORT			
AA6070	Rail	400mm (15 3/4")	120g
AA6078	Kit	616mm (24 1/4")	344g

AA6075	End Caps - Pair	Width 70mm (2 3/4")	

2 Plastic Grab Rail

These plastic grab rails have an ergonomically designed handle. Unique to this design is a flexible soft feel undergrip to provide the user with added grip and stability (even in wet conditions). The oval plastic extrusion has shapen brackets and concealed screw covers. No electrical earthing is required. Maximum width of profile is 40mm. Available in three lengths, 305mm (12"), 457mm (18") and 610mm (24"), all with a depth from rail to wall of 80mm (3 3/4").

1 Prima Grab Rails

An innovation in safety grab rail design. The Prima grab rails feature special soft grip mouldings around the bar to reduce the risk of slipping, even with wet soapy hands. The bars are strong, one-piece moulded plastic with the super reinforced strength of an internal non-rust aluminium tube. The ergonomic grip is comfortable and never cold to touch. The straight bars can be mounted horizontally, vertically or diagonally. The two specially designed angled rails are ideal for the toilet, helping the users with weak hand strength to rise from the seat. Available in a range of six different lengths and angles to suit most locations.

2 Prima Outdoor Grab Rail

The Prima Outdoor Grab Rail has been designed to assist in entering and exiting the home. The subtle colour allows the bar to blend into its surroundings and be more discreet when positioned on brickwork or a darker background. The bar gives superior grip and strength due to the slip resisting rings and the aluminium inner core.

AA6013	457mm (18")	630g
AA6015	610mm (24")	850g
AA6017	914mm (36")	1kg

4 Ringwood Wall to Floor Grab Rail **Homecraft**

Based on the popular Ringwood range of grab rails. This Wall to Floor Grab Rail is made in larger diameter steel tubing for greater comfort and easier grip. The rail has a diameter of 32mm (1¼") and a white epoxy coating that makes it suitable for indoor or outdoor use. The rail fixes to the floor and wall measuring 760mm (30") from the floor and 780mm (30¾") from the wall. For easy storage and transportation the rail comes in two pieces and is self assembly (by a simple but extremely strong bullet catch mechanism).

AA6018

5 Plastic Coated Angled Grab Rail

This grab rail has a 90 degree angled design to give additional leverage when raising or lowering. It is made from plastic coated steel tube with pre-drilled fixing holes in the flanges Diameter 25mm (1"), length 300mm (12"), width 300mm (12").

7 INFORMATION
 Rail length measurements are from the centre of the fixing plate. The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

Homecraft Rails are suitable for both indoor and outdoor use.

1 Steel Grab Rails Homecraft

These steel grab rails are available plastic coated or epoxy coated. They are all made of 25mm (1") steel tubing.

Plastic Coated

	Length	Weight	Colour
AA6000	445mm (17 1/2")	455g	White
AA6003	715mm (28")	705g	White
AA6006	890mm (36")	865g	White
AA6008	1200mm (48")	1kg	White

Epoxy Coated

	Length	Weight	Colour
AA6001	445mm (17 1/2")	455g	White
AA6004	715mm (28")	705g	White

2 Angled Steel Grab Rails Homecraft

This is an offset, angled version of the standard steel grab rail. Used where hand access may be difficult, for example, near a door jamb. Available in white, epoxy-coated steel.

	Length	Weight
AA6002	445mm (17 1/2")	455g
AA6005	715mm (28")	705g

3 Powder Coated Steel Grab Rails Days

These steel grab rails are powder coated for durability and strength making them ideal for bathrooms or anywhere around the home. Made from 25mm (1") diameter steel tubing. Pre-drilled fixing holes in flanges.

	Length
568A	305mm (12")
568B	460mm (18")
568C	610mm (24")
568D	910mm (36")

4 Chrome Plated Steel Grab Rails Days

These stylish chrome plated steel grab rails are hard wearing and ideal for bathrooms or around the home. Made from 25mm (1") diameter steel tubing.

	Length
567A	305mm (12")
567B	460mm (18")
567C	610mm (24")
567D	910mm (36")

MAXIMUM USER WEIGHT

The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. For this reason, all rails should be installed by a person who has suitable qualifications and/or experience in installing this type of product, ensuring the fixtures are appropriate for the specific installation.

1 Economy Grab Rails Days

An economy range of powder coated steel grab rails. Available in three sizes to suit a wide range of purposes and room sizes. Made from 25mm (1") diameter steel tubing with flat fixing plates.

560A	460mm (18")
560B	610mm (24")
560C	685mm (27 ¹ / ₂ ")

2 Chrome Rail

These chrome plated steel rails are both durable and practical. They have a patterned, indented grip to help prevent hands slipping on them. The tubing is a comfortable 25mm (1") in diameter and they stand off from the wall by 38mm (1¹/₂"). Available in five sizes.

AA6049	305mm (12")
AA60491	406mm (16")
AA6050	450mm (18")
AA6051	610mm (24")
AA60511	812mm (32")

3 Steel Grab Rails

These white coated rails offer exceptional value for money, without compromising quality or durability. Made from 25mm (1") tubing, they stand approximately 89mm (3¹/₂") from the wall. Supplied with two rubber gaskets for mounting between the wall and rail.

AA6054	305mm (12")
AA6055	410mm (16")
AA6056	457mm (18")
AA6057	610mm (24")
AA60571	812mm (32")

4 Wooden Grab Rail

These highly durable wooden grab rails have been designed to match the furniture in the user's home. The wood makes these grab rails warm to the touch. The rails have a water resistant finish making them ideal for use in the bathroom but because of their attractive design, they would not look out of place in any room in the house. Made of beech with metal brackets at the end, this grab rail comes in three sizes. The underside of the rail is contoured and the whole rail is slightly squared to aid grip.

AA6034	300mm (11 ³ / ₄ ")
AA6035	450mm (17 ³ / ₄ ")
AA6036	600mm (23 ¹ / ₂ ")

1 INFORMATION
 Rail length measurements are from the centre of the fixing plate. The maximum user weight/load given for these products is dependent upon the correct choice of fixings for the mounting surface. Introducing the Invisia™ Collection

A series of luxurious bathroom accessories that happen to be grab bars hidden in plain sight.

The Invisia™ Collection is based on a simple concept; Grab bars should not look like grab bars.

A seamless look and feel

Common design elements throughout the entire collection allow for a variety of combinations to create a consistent look in any bathroom.

Integrated support rails with a 159kg weight capacity

Professional grade construction combined with superior quality fittings, ensure years of reliable service and rock-solid support.

DuPont™ Corian® surfaces

Beautiful shatterproof surfaces that are non-porous and resist the growth of mould, mildew and bacteria.

Discreet wall stems with concealed screws

Meticulously designed wall interface stems render screws and mounting areas virtually invisible and allow the Invisia™ Collection to naturally blend within its environment.

Multi-contact wall support

While two-point contact with the wall structure is standard for most grab bars and bathroom accessories, much of the Invisia™ Collection overachieves with up to four points of contact for maximum structural support.

Maximum user weight

1 Corner Shelf with Integrated Support Rail

Sleek curves and clever practicality never go out of style. The Corian® shelf provides a generous surface that can be removed for easy cleaning. This reliable support rail is always within reach.

09 132 9325

2 Soap Dish with Integrated Support Rail

Make a bold statement with this luxurious centrepiece. Removable soap dish is easy to clean and features the seamless elegance of Corian®, a shatterproof surface that resists the growth of mould and bacteria.

09 132 9333

3 Wall Toilet Roll Holder with Integrated Support Rail

Soft lines and graceful curves blend effortlessly with practicality and function. Corian® shelves provide ample space for toilet roll storage or other items while the discrete hand rail offers trustworthy support.

09 132 9341

4 Towel Bar with Integrated Support Rail

Add a little flair to any bathing area. The 410mm (16") or 610mm (24") towel bar provides ample space to display any towel set while the graceful arc of the integrated support rail creates a functional design element.

09 132 9358 405mm (16")

09 132 9366 610mm (24")

Mobeli® Suction Grab Rails

All Mobeli grab handles can be conveniently installed without any tools and just as easily for travelling. The quick release coupling is made from stainless steel, as are all metal parts of the Mobeli system.

Quick Locking Vacuum Pads

The 120mm vacuum pads are made of unique rubber and are even suitable for slightly structured bathroom and tiled surfaces.

1 Mobeli® Fixed Length Rails

The Mobeli® system grab rails can be quickly and easily attached to tiled walls or glass shower panels without the need for drilling. The two suction plates are pressed onto any smooth, non-porous surface and then secured by pressing the vacuum lever down.

Handle Total Adhesive

	Handle Length	Total Length	Nominal Load
09 115 8666	100mm	325mm	70kg
09 115 8682	350mm	580mm	70kg
09 117 0174	650mm	860mm	70kg

Telescopic Rails

Mobeli telescopic grab handles offer you the widest possible choice for positioning. The rails use the same suction plate system as the standard Mobeli® Suction Grab Rails and can be substantially extended to obtain the desired length.

	Handle Length	Total Length	Nominal Load
09 115 8690	220 - 345mm	445 - 570mm	65kg
09 115 8708	340 - 465mm	565 - 690mm	65kg
09 115 8716	440 - 565mm	665 - 790mm	65kg

2 Mobeli® Safety Indicator Rails

The first grab handle that permanently measures the vacuum state – and thus its own adhesive strength. The Mobeli safety rocker continuously examines the vacuum. If the warning rocker is sunk flat into the lever, the adhesive strength is correct and the grip is able to take its full load. If the warning rocker rises and the red edge of the rocker becomes visible, the Mobeli suction head needs to be released and fastened again.

Fixed Length	Handle Length	Total Length	Nominal Load
09 142 8192	210mm	435mm	75kg
09 142 8200	350mm	575mm	70kg
09 142 8218	650mm	875mm	70kg

Telescopic

09 142 8242	220 - 345mm	445 - 570mm	65kg
09 142 8259	340 - 465mm	565 - 690mm	65kg
09 142 8267	440 - 565mm	665 - 790mm	65kg
09 142 8275	665 - 790mm	890 - 1015mm	65kg

3 Mobeli® Quattro Plus

The QuattroPlus mobile vacuum grab handle can be fastened at the wall and across a corner. The integrated angle joints make the QuattroPlus extremely flexible, and its four suction pads increase the maximum load to up to 125kg.

The integrated angle joint allows the QuattroPlus to be attached across a corner allowing the user to pull themselves safely into the shower when entering and hold on to it while showering.

	Handle Length	Total Length	Nominal Load
09 142 2799	200 - 350mm	425 - 575mm	125kg
09 142 2807	320 - 445mm	545 - 670mm	125kg
09 142 2815	420 - 545mm	645 - 770mm	110kg

4 Mobeli® Chrome Look Grab Rails

The Chrome look range is an attractive alternative to the classic white grab rail with safety indicator. The Mobeli chrome look integrates the grab handle into the overall appearance of a bathroom with chrome fixtures and fittings.

	Handle Length	Total Length	Nominal Load
09 142 2773	350mm	580mm	70kg
09 142 2781	650mm	860mm	70kg

These products are supplied in retail packaging.

1 EasyBar Suction Grab Rail

The EasyBar suction grab rail offers a sturdy and safe support to the user without having to screw the product to the wall. It benefits from safety lock indicators that display green when secure and red when the rail is not secured. It is designed for use only on smooth and non-porous surfaces such as tiles, glass, porcelain or fibreglass. Ideal for assisting the user when standing and suitable for temporary or permanent use. No fixings are required making it very convenient when away or travelling.

21534 **A** 350mm (13³/₄"

21535 **B** 500mm (19¹/₂"

2 Quick Suction Rail

The Quick Suction Rail is designed to assist your natural motion when stepping into or out of the shower. The plastic rail features ribbing along the hand rail to give additional grip and reduce the risk of slipping. The grab rail attaches to any smooth non-porous surface using suction cups meaning that no drilling is required to mount the bars. Ideal for use on tiled walls or where drilling is not possible such as in fibreglass bath enclosures or glass shower panels. Hand grip length 400mm. Total length 600mm.

Hand Grip Length **Total Length**

1 Step Stool

A simple, sturdy stool consisting of a chrome plated steel frame with a non-slip rubber mat. The rubber ferrules provide a good grip on slippery surfaces. Top area 279 x 356mm (11 x 14"). Base area 305 x 406mm (12 x 16"). Height 225mm (9").

AA6551 A With Rail

AA6550 B Without Rail

Maximum user weight **120 kg** **18³/₄ st**

2 Derby Half Step

The Derby Half-Step halves the door step rise for those with limited mobility. The large platform allows the user to become steady before attempting the actual step.

The plastic construction ensures that the step is tough yet will not rust. It comes complete with a slip resistant rubber mat.

The four feet are adjustable to ensure that the step can be levelled for use. Step length 400mm (15³/₄"). Width 740mm (29"). Height 110mm (4¹/₄").

AA6552

Maximum user weight **190 kg** **30 st**

B

1 Tapturn Turners Homecraft

These strong moulded turners simply hook over the top of a X type tap, to make it easy to turn. They are supplied as a Red and Blue pair for hot and cold taps. Length 140mm (5½"). Weight 65g.

AA6200Y Retail Packed - Pair

AA6200W Non Retail - Pair

2 Comfort Grip Tap Turners

These tap turners have a soft overmoulded handle for improved comfort and grip. They are designed to fit over cross head taps and are supplied as a red and blue pair.

09 120 9485

3 Crystal Tap Turner Homecraft

This ingenious device clamps around the top of cylindrical tap tops, and provides the leverage to turn them easily. The barrel of the handle is spring loaded to allow the jaws to clamp down on the tap, which is gripped by soft non-slip rubber linings in the jaws. The jaws can also be locked in position. The handle is comfortable and easy to grip. For use with taps up to 60mm (2½") in diameter. Closed length 190mm (7½"). Weight 112g.

AA6210Y Retail Packed

AA6210W Non Retail

4 Derby Tap Turners

Attractive, easy to use tap turners that can be used on crosshead and crystal taps. The soft textured handles provide a comfortable and secure grip whilst in use. There is no installation required due to the screw handle that tightens the grip on the tap. Colour coded so that those with limited vision can identify the required tap. Length 180mm (7⅛"). Width 70mm (2¾"). Height 45mm (1¾").

AA6215

5 Medeci Tap Turners

Designed for strength and versatility, these turners are easy to fit and adjust to suit almost any size of a crystal or crosshead tap. The long, shaped handle offers great leverage and is pivoted for ease of use. A symbol embossed onto the cap of the red turner helps the user to differentiate between the two turners.

Supplied as a pair. Overall length 200mm (8"). Width 75mm (3"). Height 40mm (1½"). Weight 130g.

AA6218

RETAIL PACKAGED
These products are available in retail packaging.

1 Three Key Turner **Homecraft**

This simple product has curved built in handles for three yale or mortice type door keys providing an easy grip and good leverage for turning. It has a locking lever attached to the brass fittings, to enable the keys to be positioned separately or locked back into the body of the handle. Weight 60g.

AA6241

2 Two Key Turner **Homecraft**

Similar to the Three Key Turner but designed to hold two keys only. When not in use, the key folds into the handle. Weight 57g.

AA6242Y Retail Packed
AA6242W Non Retail

3 One Key Turner **Homecraft**

Similar to the Two and Three Key Turner but designed to hold one key only. Weight 40g.

AA6240

4 Comfort Grip Key Turner

This attractive key turner is similar in design to the standard key turners, but is supplied with a comfort grip overmoulding to provide additional grip and leverage when turning. Available in either a one or two key version.

09 120 9535 One Key
09 120 9550 Two Key

5 Etac Uni Universal Turner

The Uni Turner is designed to make it easier to turn knobs and switches. The large handle is angled so that either hand can be used to carry out the turning action with minimal discomfort. The hexagonal rods provide excellent grip on most switches that have contours. Made from ABS plastic. Weight 87g.

AA6232

6 Yale Knob Turner **Homecraft**

This soft brown plastic moulding fits over Yale type door lock knobs, to offer better purchase when turning them. It can be left in position on the lock. Weight 50g.

AA6250W

7 Contour Turner **Homecraft**

This device is used to give good leverage for turning small difficult items eg. gas or radiator taps. The head has a bed of sprung stainless steel rods, which when pressed around an object, retract, conform around its shape, and provide a purchase around it when the handle is turned.

The handle is a black plastic T-piece, which is easy to grip. It is small enough to be carried around in a pocket or hand bag. Head size 95mm (3³/₄" wide. 50mm (2" deep. Weight 130g.

AA6230

AA6111	Adult Assortment (2 of each)	
AA6110	Paediatric Assortment (2 of each)	

3 The Functional Hand Splint

Designed by therapists, the Functional Hand Splint has several uses. Its design maintains soft tissue length in the fingers and wrists and allows for functional activity of the arm, whilst maintaining good joint alignment in the hand. The unique design of the core allows it to be used with a wide range of implements and tools as part of a wider therapeutic programme eg. pens, pencils, cutlery, hairbrushes etc whilst maintaining the hand in the correct therapeutic position. Objects can be placed in either the narrower or wider end of the splint increasing the independence of the user. The Functional Hand Splint is suitable for users of all ages and conditions experiencing decreased functionality in their hands. Available in three sizes, Small, Medium and Large to suit all hand sizes.

AA6146A	Small
AA6146B	Medium
AA6146C	Large

DISHWASHER SAFE
This product is suitable for use in a dishwasher.

Dycem has been developed to produce the most effective non-slip material available. It is not sticky, but it grips dry, slippery surfaces e.g. worktops, trays, floors and tables to prevent movement. It may also be used to enhance grip on jars, handles, etc. It can be cleaned in soft, soapy water to retain its properties but is not effective when wet.

2 Non Slip Coaster Set

A set of highly durable silver coasters designed to keep mugs and glasses in place. They fit beneath a standard sized mug or tumbler, providing a non-slip base on any dry surface. Coasters can also be used beneath fragile ornaments and vases for a secure surface. Supplied as a set of four. Each coaster measures 76 x 76mm (3 x 3").

09 142 8754

3 Dycem® Tray Mats

Ideal for covering trays or large flat surfaces. Available in a choice of designs. Measures 375 x 275mm (15 x 11").

- AA6826G Green and White Check
- AA6826C Clear

4 Dycem® Grippimat

Grippimats are cut from Dycem reels and are thinner and more flexible than the moulded ones, therefore they can be wrapped around items e.g. jar tops. Available in Blue (B) and Red (F), and supplied in packs of 3. Round are 190mm (7 1/2") diameter. Rectangular size 240 x 190mm (9 1/2 x 7 1/2"). Weight 66g.

- AA6820B Round - Blue
- AA6820F Round - Red
- AA6822B Rectangular - Blue
- AA6822F Rectangular - Red

5 Dycem® Non-Slip Wipes

Alcohol based wipes that leaves all Dycem Non-Slip products instantly dry and ready to reuse. Although they are designed specifically for use on the self-adhesive Dycem products, they can be used as a quick, effective method of cleansing any non-slip surface.

AA6885 Pack of 10

Dycem coloured reels are made from a non-woven fabric coated with non-slip properties. They can be used to cover large areas or cut to shape and are especially suitable for moulding or wrapping around an object. The clear and check reels are made from a polythene base and are of a stiffer construction. They are more suitable for flat surfaces or when extra firmness is required.

1 Handiplug **Homecraft**

The Handiplug consists of a standard three pin plug base with a looped handle to facilitate use for those with poor grip. Four fingers can fit in the handle to give an improved leverage. It is supplied with a 13 amp fuse. Weight of each plug 95g.

AA6302Y Retail Packed - Pack of 2
AA6302W Non Retail - Pack of 2

3 Plug Pull **Homecraft**

This self adhesive, plastic moulded T-piece fixes to the back of a standard three pin plug, and provides leverage for removing the plug from the socket. Supplied in a pack of 3. Also useful for drawers and doors where extra leverage is required. Weight 40g.

AA6310 Pack of 3

3 UnPluGZ Plug Aid

UnPluGZ has been designed to allow the user to correctly identify the right plug, and then easily remove it from the socket, ideal for aiding users whose finger grip is impaired, or where several plugs together make one plug difficult to grip or identify. Regularly used items such as hair dryers, vacuum cleaners and kitchen appliances can be fitted with a discreet retracting handle. Infrequently unplugged items such as TV, music or computer equipment, can have a label that identifies the correct plug for easy removal without having to trace wires back to their origin. Braille labels can be applied to the handle to assist the blind or partially sighted user to identify and easily pull the right plug. Supplied in packs of 9 handles and a sheet of labels.

09 118 7269

4 Handisocket

This extension provides an electrical socket at a convenient height for the user, rather than having to bend down to floor level. The white moulding is screwed to the wall where required. An integral clip holds plugs when they are not plugged in. Care must be taken not to exceed 13 amps when using two appliances. Length 690mm (27").

1

1 Long Handled Dustpan and Brush

Plastic dustpan and soft bristled brush with long plastic stems and handles. This prevents the need for bending down when sweeping. The brush handle clips on to the dustpan stem for storage. The dustpan has a flat bottom with shaped lip for efficient dust collection. Length 970mm. Weight 550g.

AA6900 Retail Packed

2 Window Pull

Open and close hard to reach PVCu windows with the Window Pull. Specially designed to reach windows without the need to climb or stretch. The self-adjusting anti-slip collar clips over the window's fastening handle, and can be turned and pushed or pulled to open or close. A fold away lever helps those who may have difficulty when manipulating window fastening handles. Available in two lengths.

AA6969 610mm (24")

AA6970 915mm (36")

3 Telescopic Duster

A lightweight telescopic duster with a fine, electrostatic dust collecting head. The pole extends from 825mm to 1.17m (33 to 46"). The extension is also flexible to allow easy dusting under beds, beneath the window ledge or on top of the cupboards. Weight 336g.

AA6978

4 LED Automatic Night Light (Twin Pack)

This night light turns on at dusk and off at dawn automatically making it ideal for use in the bedroom or any other room where background light is needed. It utilises economical and long life LED technology which generates almost no heat. Fits into a normal UK 3 pin square plug socket. Measures 60 x 100 x 20mm (when plugged in). Twin pack.

09 132 3807

5 LED Night Light with Movement Light Sensor

Great for lighting in areas where no mains power is available such as cupboards, sheds, garage, etc. The light turns on when movement is detected in the dark and automatically turns off after one minute if no movement is detected or the area is well lit. It has a long battery life and can also operate from a mains adapter. Detection zone of up to five metres and 100°. Uses 4 x AA batteries or 6v 300mA mains adapter (neither included). Supplied with versatile wall fixing bracket or just position on shelf, table or floor. Measures 75 x 120 x 45 mm.

1 Easi-Grip Chiroprapist Scissors

The long loop handles allow the whole hand to be used for controlling the scissors, which is ideal for those with a weak grip. The extended shank helps users who have difficulty bending and the angled blades give a good cutting position, with the top blade being slightly serrated to stop it slipping. The blades are made of stainless steel. Overall length 200mm. Blade length 30mm. Weight 55g.

AA6766Y Retail Packed

MINI EASI-GRIP SCISSORS

2 Easi-Grip Scissors

Easi-Grip Scissors are extremely lightweight with plastic handles and stainless steel blades. The continuous loop handle automatically reopens the scissors when pressure is released. As they require only a gentle squeeze to operate them, they can be used between fingers and thumb or fingers and the palm of the hand. They are supplied with a blade guard for safe storage and are available with round or pointed blades in both right and left handed versions. The Mini Easi-Grip Scissors can be used either right or left handed and are ideal for both young children and those with restricted growth, plus for use cutting threads, wool and fine craft work.
