Why Choose Us?

▼ Placing an order is easy.

Online:
www.inclusive.com

Email:
sales@inclusive.co.uk

Telephone:
01457 819790

Mail order to:
**Inclusive Technology Ltd,
Riverside Court, Huddersfield
Road, Delph, Oldham,
OL3 5FZ, UK.**

▼ Schools can pay by invoice.

If you are buying resources on behalf of a Local Authority backed school or School Academy then simply send your order by email, post or place it online and we will process and despatch your order. If you have registered as a business or charity, you will need to contact us on **01457 819790** or email sales@inclusive.co.uk to set up a credit account.

▼ VAT Relief.

If you have a disability or are buying on behalf of someone with a disability, including Charities, you may be eligible to claim VAT Relief. Call us or check on our website whether the product you are purchasing qualifies for VAT Relief and fill out the form. If you need any advice on VAT Relief view the guide on our website or call one of our experienced team for help.

▼ Batteries are always included.

We are unique in always including batteries in every device or toy we sell (and there are hundreds!).

▼ We offer a 100 day returns policy.

We want you to have a product that works for your learner. That's why we have our industry leading returns policy to give you 100 days to return a product - even if you just don't like the colour.

There are a number of exceptions, and you will need to have met our generous 42 day payment terms and return the product unmarked with the original packaging. See our terms and conditions on our website.

▼ Friendly Support and Service.

Do email or call with any difficulties you have in using any of our products and we will direct your call to our information or technical teams.

The Inclusive Technology Team are ready to help you either by telephone, email or via our online Live Chat service.

Call: **01457 819790**
Email: support@inclusive.co.uk

▼ Sign up to our Newsletters.

Go to our website to sign up to receive our Inclusive and HelpKidzLearn newsletters and receive information about new products, product updates, events and special offers!

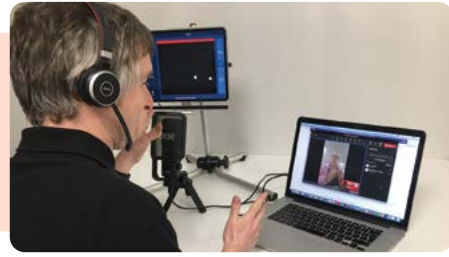

More information is available on www.inclusive.com

We have recently launched a brand new website where you can view our full product range. View expanded product details including useful demonstration videos, technical specifications, accessories, similar products and reviews. As well as the latest product news and useful articles you can learn more about Inclusive Technology and the services, resources and support we provide. Simply set up your account and place your order - you can even complete a VAT exemption form online or request a quotation.

FREE Virtual Demonstrations

Book your personal virtual demonstration today!

Inclusive Technology are offering FREE virtual demonstrations enabling you to explore our products and ask questions of our team, all without leaving your school or home. (Demonstrations last around 40mins).

NEW eyetuitive for iPadOS

eyetuitive is the world's most advanced multi-platform eye tracker allowing you to control both the iPad Pro and Windows based devices completely with your eyes, making it the perfect solution for independent access and augmentative & alternative communication (AAC).

By the end of the virtual demo you should have:

- An overview of eye gaze and the benefits of it now being available for iPad.
- What is included in the eyetuitive package and the accessories available.
- How to set up and use eyetuitive and easily adjust the positioning and calibration.
- A detailed overview of the eyetuitive App including all available options and settings.
- An overview of available Apps for access, communication and environmental control.
- Details of price and availability.

NEW eyetuitive for Windows

Easy to setup and simple to use, eyetuitive for Windows is the first choice for eye gaze users in every classroom. Indiscriminate of skill, it is perfect for multi-user settings. It allows anyone to start at any level of ability and build their gaze control skills at their own pace. By the end of the virtual demo you should have:

- An overview of eyetuitive for Windows and the benefits of using the eye tracker for users of all abilities.
- Knowledge of how to set up and use the eyetuitive for Windows and easily adjust the positioning and calibration.
- A detailed overview of the eyetuitive settings app and Windows Eye Control, including all available options and settings.
- An understanding of Inclusive EyeGaze Learning Curve software featuring Attention and Looking, Exploring and Playing and Choosing and Learning.
- Details of price and availability.

Cosmo

Cosmo is made up of two parts: a set of light-up, multi-colour Bluetooth switches, and an iPad App featuring highly-motivating and intuitive activities designed by teachers and occupational, physical and speech & language therapists - By the end of the virtual demo you should have:

- An overview of the Cosmo switch as well the Cosmo Explore and Excel Packages.
- How to set up the Cosmo switches with an iPad and Windows computer for simple switch access.
- How the Cosmo Explore and Excel can be used to support the development of: Joint Attention, Turn Taking, Choice Making, Collaboration, Motor Skills, Language, Sequencing, Waiting, Transitions, Storytelling, Executive Function and Sensory Awareness.
- An in depth overview of the Cosmo Training App that consists of a set of interactive activities that motivate learners to develop motor, cognitive and communication skills through play and music.
- Cosmo's multi-sensory games work towards achieving skill based, functional and national curriculum compatible goals.
- Details of price and availability.

Request a Demo

Choosing the most suitable equipment can be a confusing, time-consuming process.

We recognise that sometimes simply reading about a product isn't enough to make an informed decision. We want our customers to be confident that they're making the correct choice. To ensure that you are making the correct decision we are providing a product request option on our Virtual Demo service. We want you to tell us what product you want to know more about so we can help you further. Would you like to learn more about switch access for iPad? Develop your knowledge of environmental control products and see them in action? Have the ability to ask questions and chat about further options and accessories? This is the service for you. We will provide a live, one-to-one 30-minute demonstration, at a time suitable for you that will aim to answer any of your questions, allow you to see the product in action and decide if it's the right product for you.

HelpKidzLearn™

Online Learning for Special Education.

Thousands of schools worldwide use HelpKidzLearn's award-winning, accessible software to enable students of all abilities to play, learn and have an inclusive education.

Trusted by 6,500+ schools and districts in 52 countries.

HelpKidzLearn prioritises student privacy. Our platform and online products comply with COPPA, FERPA, and CSCP, ensuring the highest data security standards.

www.helpKidzLearn.com

Designed to meet a range of special educational needs.

HelpKidzLearn has been specially designed for the individual needs of every student and offers adaptable tools and flexible pathways to empower all learners, regardless of learning challenges or unique abilities, to succeed and reach their full potential.

Engagement & Motivation.

Make learning 'fun' with engaging activities and resources designed to increase attention, curiosity, interest, optimism, and passion for learning and progression.

Game-based Learning.

Specially designed learning activities that incrementally introduce concepts and allow students to engage with educational materials in a playful and dynamic way.

Universally Accessible.

Activities can be accessed by a wide variety of access methods including mouse and keyboard, touch screens and interactive classroom displays, one or two switches and eye gaze technology.

Tracking & Assessment.

Record and share your students performance, progression and achievements; Easily pinpoint skills that students are struggling with, track progress and identify areas for improvement.

Ignite your student's curiosity, explore new possibilities and unlock their full potential with the confidence of quality products.

www.helpkidzlearn.com/resources/why-choose-hkl

Games & Activities

Accessible Game-Based Learning.

Hundreds of accessible game-based learning activities categorised by learning objectives and designed to engage, motivate and teach a progression of skills.

Learning Objectives

- All
- Cause and Effect
- Press and Hold
- Press and Let Go
- Press It Again
- Exploration
- Sequential
- Attention & Timing

Carefully graded learning objectives.

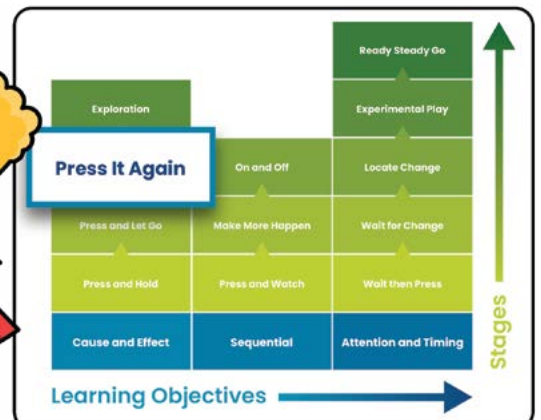

Games & Activities are organised into meaningful learning objectives, beginning with foundational concepts like Cause and Effect, helping students understand that they can extend influence and control over their immediate environment.

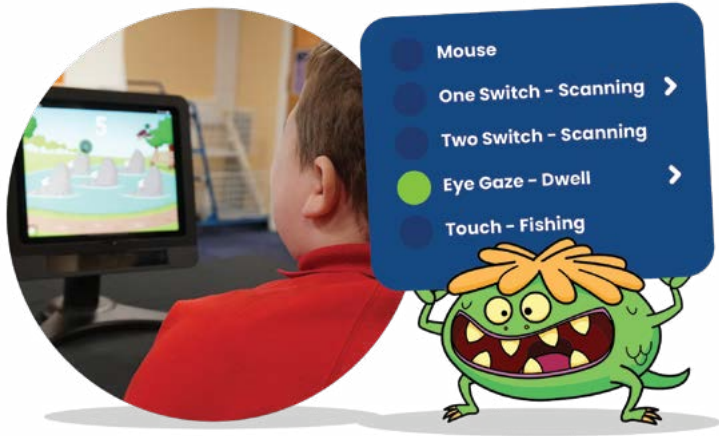

Through to more complex activities and Choice Making, where students develop skills such as exploration, decision making, problem-solving, and object association.

Progress through milestones one step at a time.

Each Learning Objective is split into Key Milestones and arranged in a logical sequence, building upon each other to gradually develop skills.

You'll see your students master the fundamentals before progressing through more advanced challenges, gaining a sense of accomplishment, confidence, and a love for learning.

- Mouse
- One Switch - Scanning >
- Two Switch - Scanning
- Eye Gaze - Dwell >
- Touch - Fishing

Inclusive and accessible activities.

Our Games and Activities embrace inclusivity and accessibility, ensuring everyone can join the learning fun! No matter your student's physical abilities or preferred learning style, they'll find a way to interact and engage.

Each activity can be accessed by a wide variety of access methods including mouse and keyboard, touch screens and interactive classroom displays, one or two switches and eye gaze technology.

Ensure your student is motivated and engaged.

Games & Activities are language independent and are designed to include captivating animations, simple clear graphics, music and sound effects which will engage your learners and make learning 'fun'.

Graphics are presented in high-contrast colours and many activities are set against a black background. Auditory cues and attention prompts are also used to help learners with a visual impairment and perceptual difficulties enjoy the experience too.

- ✓ Windows PC
- ✓ Mac
- ✓ Chromebook
- ✓ iPad
- ✓ Mobile Device

Play activities on most devices.

Forget the limitations of specific hardware, our engaging Games and Activities can be played securely online via Windows and Mac PC, or Chromebook. Alternatively, learners can play all touch-accessible Games & Activities directly on an iPad using supported browsers.

Unleash learning fun on any platform with HelpKidzLearn's device-agnostic activities!

Pick your perfect plan and unlock your students' potential with accessible game-based learning.

Chooselt Maker

Personalised Choice-Making Activities.

Create, edit and play personalised learning activities that can be used in your classroom and with individual students securely online on any device including Windows, Mac, Chromebook, iPad or Android tablets!

Increase engagement with personalised activities.

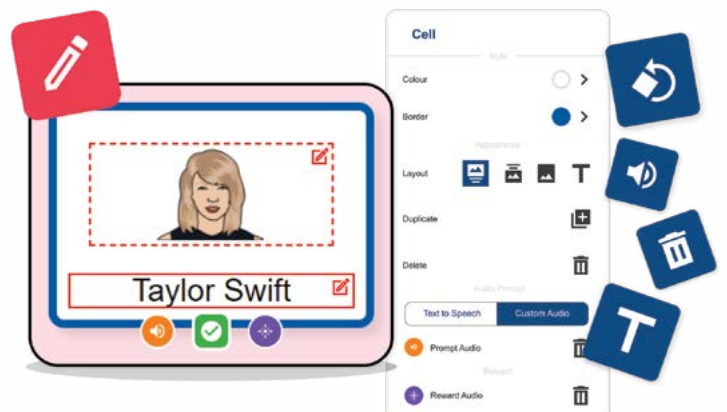

Create personalised activities and tailor the learning experience for each individual student. With Chooselt Maker you can turn your photographs, images, symbols, text, and sounds into:

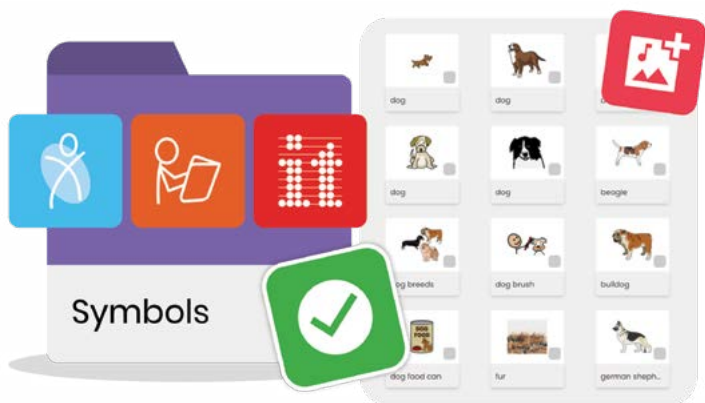

Question and answer activities, cause and effect resources, assessment activities, game-based learning resources, quizzes and tests, communication aids and so much more.

Intuitive easy-flow activity editor.

With its easy to use editor, upload a photo or image and make an activity with your child or class in minutes. They can all join in and then proudly present it to the rest of the school, family and friends.

Chooselt Maker is an important tool for those learners who respond best to familiar materials, such as pictures of themselves, their families, their classmates and places they know well.

Over 30,000 symbols ready to use.

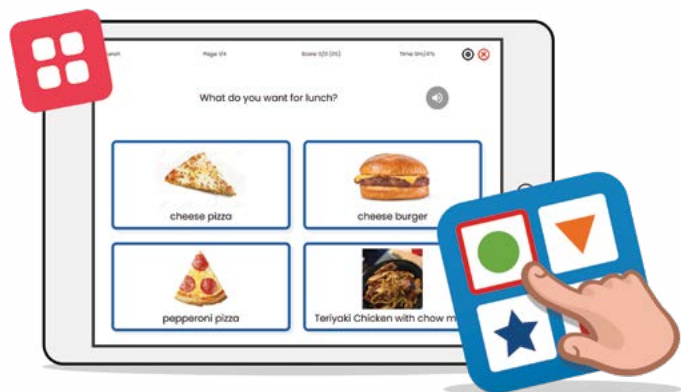

Symbols are a lifeline for individuals with communication disabilities, enabling unique students to understand the world around them and to express their thoughts and needs.

Chooselt Maker includes a ready-made media library with over 30,000 symbols and pictures. Enabling teachers to make activities using Widgit Symbols, SymbolStix Symbols, and symbols from Inclusive Technology.

Progression and achievement recording.

Every Chooselt Maker activity you create will automatically record the learner's progression and achievements based on the questions they have answered. These results can be saved for your records, or shared with your peers and student's friends, and family.

Chooselt Maker empowers both students and educators to track, celebrate, and nurture growth every step of the way.

Free Chooselt Maker Player iPad App.

Download and play personalised Chooselt Maker activities anywhere offline, this includes sample activities that demonstrate ways Chooselt Maker can be used to create a variety of fun learning activities using symbols, pictures, and sounds. Simple presentation, clear recorded sound, text-to-speech, and a variety of access options make the Chooselt Maker Player App ideal for a range of students.

Chooselt Maker makes creating personalised learning activities simple. Explore which option is right for you.

Readymade Choice-Making Curriculum Activities.

Multiple choice, play-based curriculum activities that provide a secure foundation for learning. Chooselt! Readymades contains 640 multiple-choice, play-based curriculum activities that include over 14,000 questions.

A teacher's toolkit for success.

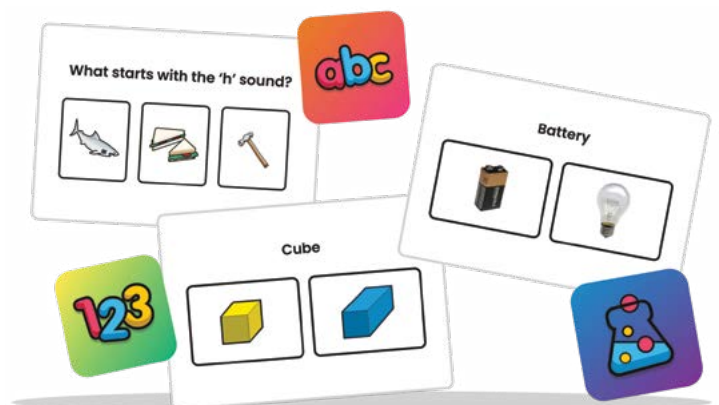

In the whirlwind of lesson planning, grading papers and keeping little minds engaged, don't hesitate to tap into the power of readymade activities. They're not just time-savers; they're your allies in creating a vibrant and effective learning experience for your students.

Chooselt Readymades covers a wide variety of topics including Numeracy, Literacy and Science; Each activity supports the objectives found in curriculum standards making it easy to find the right skills to practice in order to meet your learning goals!

Educational activities.

Each Readymade activity unfolds like a personalised learning adventure, spanning 20-40 carefully graded questions that gently guide your students toward mastery.

The magic lies in the positive reinforcement! Correct answers unlock celebratory animations, music and spoken encouragement, making learning feel like a rewarding game. These activities go beyond traditional formats, often incorporating interactive elements to keep your students engaged and motivated.

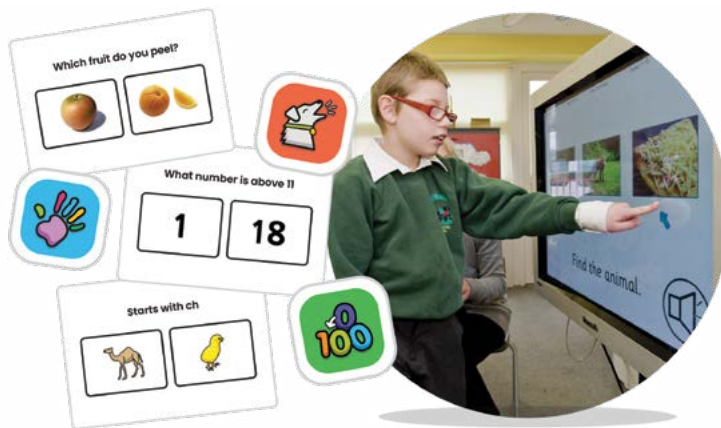

Empowering feedback: grow together, learn every day.

Forget mountains of data and endless spreadsheets, ChooseIt! Readymades post-session activity reports transform feedback into intuitive and visual analytics; Providing actionable insights that will help you easily pinpoint skills that students are struggling with, track progress and identify areas for improvement, enabling you to concentrate on what you do best: teach.

Accessible activities for all.

ChooseIt! Readymade activities embrace inclusivity and accessibility, ensuring everyone can join the learning fun! No matter your student's physical abilities or preferred learning style, they'll find a way to interact and engage.

Each activity also includes full auditory support making them ideal for students with physical disabilities, visual impairments and learning difficulties.

Designed for the classroom.

ChooseIt! Readymade learning activities help students of all abilities to succeed in the classroom, whilst providing a fun opportunity to practice skills and/ or complete an assessment to measure progress as independently as possible.

Each activity can be used with almost any teaching strategy, including 1:1, rotational models, group sessions and more; enabling you to create the perfect classroom learning experience.

Readymades make it easy to find the right skills to meet your learning goals. Explore which option is right for you.

Multi-Award Winning Sensory Stories.

Engaging, interactive sensory stories and resources designed to focus on a range of learning intentions, developmental areas and topics relevant for learners with a wide range of educational needs.

Sensory experiences and play.

A powerful tool for a teacher's toolkit, specifically for learners with a wide range of learning disabilities. Sensory experiences and play helps students to learn more about the world around them and supports language development as they learn to respond to different stimuli.

Used widely in a range of educational settings, Inclusive Stories are fundamental for helping with cognitive development, sensory processing, communication skills, switching skills, cause and effect, building confidence, fostering repetition, reducing anxiety, sensory loss, AAC and much more.

Learning and development.

Inclusive Stories have been carefully collated into 12 meaningful categories and specially written to address functional skills and cross-curricular personal development, e.g. SMSC (spiritual, moral, social and cultural development) and SEMH (social, emotional and mental health).

Inclusive Stories also cover an array of topics including literacy, numeracy, science, computing, arts, humanities, PHSE, physical education, design and technology and much more.

Multi-layered educational activities.

These beautifully animated stories are designed to enhance a variety of prerequisite skills such as sensory processing skills, early communication skills, motor skills, understanding and application of cause and effect, access skills and more; They also teach more explicit topics in highly engaging and appropriate ways, such as radicalisation, proprioception, stranger danger, the importance of personal hygiene and so much more!

Hundreds of appropriate, enjoyable, differentiated, fun resources.

Each Inclusive Story has accompanying resources, including in-depth delivery guidance, assessment and recording sheets, props lists, printables, symbol lists for AAC, cross-curricular ideas, a recipe book and more.

Each resource has been designed to help teachers and professionals maximise the educational value of each tale, significantly extending their effectiveness. The purpose of these activities is to motivate story explorers whilst contributing significantly to teacher or practitioner wellbeing.

Play activities on most devices.

Forget the limitations of specific hardware, our engaging Inclusive Stories can be played securely online via Windows and Mac PC or Chromebook. Alternatively, learners can play all touch-accessible Games & Activities directly on an iPad using supported browsers.

Unleash learning fun on any platform with Inclusive Stories device-agnostic activities!

Inclusive Stories enables all learners to become special storytellers. Explore which option is right for you.

Assessment and Teaching System for Early Vision and Cognition.

Insight will assess and develop the visual learning skills of your students who use eye gaze technology through game-based assessment activities.

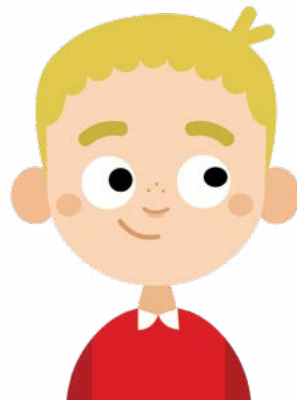

Intelligent learning system.

Insight is an intelligent, individualised learning system that will help engage, assess and develop your students' visual learning skills. It has been specifically designed to work with eye tracking technologies so that, with no physical skills needed, we can analyse looking behaviours to get a unique insight into students' hidden skills and capabilities.

Functional vision.

To find out how your students take in information, Insight provides continuous assessment of the core functional vision skills essential for ALL Visual Learning. Designed for students with significant visual difficulties and CVI and all students at risk of vision problems (Cerebral Palsy, learning difficulties, hearing impairment, Epilepsy, Profound/Multiple Learning Disabilities).

Attention

Noticing

Fixating

Tracking

- Remember
- Understand
- Control
- Communicate

Early cognition.

To find out what they do with visual information, the cognitive learning goals give a unique insight into students' higher-level processing skills and ability to interact with intent and purpose. Designed for all students with significant physical difficulties and those developing alternative access, contingency awareness and choice making skills.

Core learning.

Insight provides the foundation visual learning skills to aid development of early language, literacy and communication using technology, preparing students for further subject specific learning and AAC readiness.

Insight provides objective and accurate assessment to reflect true abilities, not possible using standard observation techniques or gaze viewing software. Automatic progress tracking, interpretation and intelligent recommendations save valuable teaching time and enable easy evaluation and sharing of information.

Individualised learning.

Activities are arranged in carefully graded steps to enable students to work at their own level and pace. Start off easily then follow the intelligent recommendations for optimal learning progression.

A wide variety of stimuli are used to suit all ages and interests, packed into fun game designs to aid long term engagement – essential for consistent assessment and continued development.

Pick your perfect plan to assess and develop your students' visual learning skills.

iPad App Bundles.

HelpKidzLearn App bundles contain multiple Apps together as a single package at a discounted price compared to buying each item individually. Our iPad App bundles are available on the App Store for iOS and iPadOS platforms.

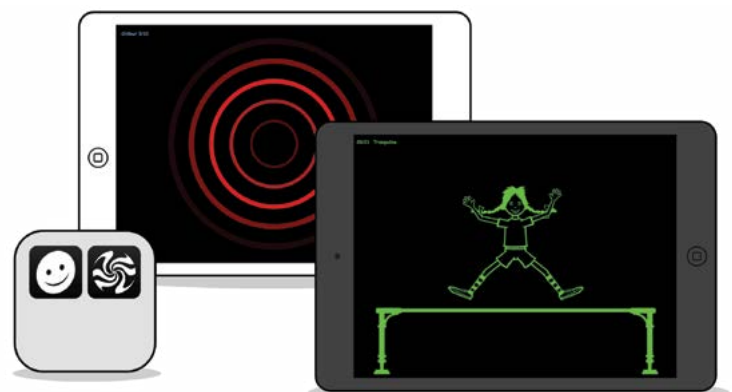

Inclusive Bundle.

The Inclusive Bundle brings together HelpKidzLearn's most downloaded Apps including our Big Bang Pictures and Patterns, Chooselt Readymades Literacy, Numeracy and Science, and Counting Songs 1 and 2. Offering one complete solution for the special needs classroom.

Big Bang Bundle.

This Big Bang Bundle has been developed in conjunction with specialist teachers in the field of visual impairment. The activities in both have been specially designed for use with children with low vision, including those with cerebral visual impairments and complex needs.

ChooseIt Education Bundle.

This new bundle brings together three ready-made activity sets based on the BETT Award-winning software from Inclusive Technology. The three ChooseIt Apps - Literacy, Numeracy and Science between them contain 640 teacher-designed activities, offering a total of 14,000 pages of simple multiple-choice activities.

Counting Songs Bundle.

The Counting Songs Bundle brings together two of our popular Inclusive Apps. Counting Songs 1 is principally aimed at young children beginning to count to 5 and Counting Songs 2 has been aimed at older children who may still be working towards developing their counting skills from 1 to 5 but may prefer content more appropriate to their age.

Bitesize Apps for Special Education.

Over 60 iPad Apps aimed at early years and children with special needs, these motivational apps designed by HelpKidzLearn have been carefully selected to meet a range of needs.

Apple Volume Purchase Program.

Download our free guide that provides information that allows educational institutions to purchase iOS Apps in volume and distribute them to pupils, teachers, administrators and employees.

------	--------------------------	------------

REHAdapter for iPad

Ready for every AAC task - whenever you need it.

The REHAdapter is a new iPad case that transforms a standard iPad into a fully-fledged AAC device in one single housing. It's ready for every AAC task - whenever you need it and is designed for all-day communication while at home, at school or travelling.

▼ Endless Possibilities for AAC.

The REHAdapter seamlessly transforms an iPad into a dedicated AAC device.

It has everything you would expect from the top performing AAC devices on the market: clear and loud sound, connections for eye trackers, keyguards, switches, a kickstand for quick positioning, maximum portability, and a built-in universal device connector for REHAdapt mounting systems. And all this comes within one protective enclosure.

Combined with the iPad's range of Apps, the REHAdapter offers endless possibilities for AAC users. It is the only case on the market to offer this level of flexibility, technology and ease of use.

▼ Accessibility.

Keyguards optional innovative keyguards made from 5mm thick plexiglass can be clicked into place without the need for any additional holder or Velcro. This unique system can be set to three different levels of pressure to better fit the client's needs: easy toolless, semi-permanent or permanent (requiring tools for removal). **Please note:** available to purchase separately.

Two Switch Access includes integrated 3.5 mm jacks to connect up to two switches for screen scanning.

Eye Trackers, Head Mice & More features two attachment points for additional access equipment such as eye trackers or head mice. The attachment points - located at the top and bottom of the device - offer unlimited flexibility for attaching additional equipment.

▼ REHAdapter Key Features.

The REHAdapter is a protective case designed for extensive daily usage. It has a sturdy design and is made of reinforced plastic, delivering ample protection. The iPad is surrounded by rubber bumpers that absorb impacts from all sides.

The magnetic charging cable ensures not only self-alignment when connecting, but also makes sure the REHAdapter cannot be pulled or dragged by its cable.

All in all it's a trusty companion which meets all the requirements for a medical product and is scratch, shock and drop resistant.

High-quality sound is achieved by one large integrated speaker located on the back of the unit. With its voice-optimised loud and clear sound the REHAdapter is classroom-ready.

The rubberised volume buttons are always accessible and the angle of the speaker has been optimised for maximum performance in all positions: whether the REHAdapter is flat on a table, upright, or held by a REHAdapt mounting system.

The battery lasts twice as long as the iPad. This means you can use it without having to worry about it throughout the day.

Includes an integrated kickstand offering continuous adjustment up to an inclination angle of 45°. When lying flat on the table the wedge shape allows for an ergonomic 10° angle access.

The kickstand and all contact points are rubberized. The kickstand is made of aircraft-grade aluminium and can be removed if not needed.

▼ Accessories.

Transportation Bag that includes pockets and compartments for cables, power adapters, keyguards and other accessories. Features heavy duty handles and zippers and an adjustable shoulder strap.

Simple Protection Sleeve which features a handle, a shoulder strap and a pocket for its charging cable.

Adjustable Shoulder Strap that can be easily attached and detached using the quick-release fasteners.

A standard Keyguard made from plexiglass 5mm thick. Milled instead of lasered to make sure the edges are smooth and comfortable for the user.

Please note: all accessories are available to purchase separately.

Air Switch

The Air Switch is a wireless adapter that allows you to connect one or two switches to any Bluetooth-enabled device such as a computer, mobile or tablet. You can access it using a variety of specific programs that offer the option of access by scanning. Use it with your device's accessibility options and access all your Apps including; Netflix, WhatsApp, YouTube, HelpKidzLearn and more. Dimensions: 7.5cm x 3.5cm x 1.2cm. Range: 10 metres.

9989 Air Switch

£140

iControl for iPad

Simply plug one or two of your favourite toys or other small, battery-operated appliances into iControl and control them from your iPad. This allows you to turn battery toys and other powered appliances on and off wirelessly using the free of charge iClick App.

- Two 3.5mm sockets to allow up to two toys or other appliances to be connected.
- Seven control modes selected from the iClick App. Four modes provide independent switch operation; three give cooperative control.
- Dimensions: 9cm x 6.4cm x 1.8cm.

8255 iControl for iPad

£144

iClick for iPad

Allows the operation of electrical appliances using an iPad and a free iClick App. Simply plug in an appliance and control it as follows:
Direct - appliance is powered for as long as the user touches the switch on the iPad screen.
Latching - touch once for on and again for off.
Timed - one touch turns the device on for a period determined within the App, from 1 second up to 250 minutes.
Cooperative - requires two users to work together for the device to turn on and off.
On/Off - one switch turns on the device and the other turns it off. Dimensions: 24cm x 16cm x 4cm.

8254 iClick for iPad

£226

APPLICATOR

Versatile switch access to any Bluetooth enabled device such as iPad/iPhone, Android, Mac, Chromebook and PC. Music, media, still and video photography. Left and right mouse click and double click- allows APPLICATOR to be used with iOS eye-gaze devices in Assistive Touch to provide switch selection. Timed play settings - plays music for 10 or 30 seconds each switch press. Great for engaging reluctant switch users. Includes 27 pre-programmed functions. Up to four wired switches can be plugged in. Rechargeable battery. Dimensions: 9cm x 6.4cm x 1.8cm.

5978 APPLICATOR

£153

Blueline Bluetooth Joystick

A compact desktop Bluetooth joystick allowing direct wireless connection to any computer or tablet that has built-in Bluetooth. Ideal for connection to iPad or iPhone using iOS AssistiveTouch to give precise cursor movement without the need for fine motor skills. The Blueline Bluetooth joystick includes three recessed buttons and two sockets for external switches, all of which can be individually configured according to the user's precise needs. Supports variable cursor speed, swipe left, swipe right, drag, double click and dwell click features. Built-in rechargeable lithium battery. Dimensions 18cm x 10cm x 12cm.

9549 Blueline Bluetooth Joystick £255

PointIt! Bluetooth Joystick

The joystick has four buttons that each simulate the function of a mouse click - left click (single and double), right click and mouse speed. It has jack sockets for switches for those who have difficulty pressing the buttons. Use a PointIt! to surf the web, catch up on emails, play games, watch YouTube and much more. This portable, wireless version of PointIt! is an advanced computer access solution and can be configured as either a Bluetooth mouse or keyboard. As well as being able to control a PC or Mac it can connect to Android tablets and phones, Smart TVs, iPhones and iPads. Dimensions: 11.5cm x 10.5cm x 3.4cm.

6887 PointIt! Bluetooth Joystick £780

J-Pad Joystick

A unique joystick interface providing comprehensive access to all iPad functions. Use switch adapted Apps including HelpKidzLearn Apps. iOS 7 and later Switch Control. Access to music, media, photographs and video. Optional touch sensitive buttons to launch and close Apps. Works with iPad 2/3/4, iPad Mini, iPad Air, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later. Bluetooth. Charges via USB. Joystick access and up to two switches. Dimensions: 9cm x 14.5cm x 6.5cm.

6302 J-Pad Joystick £197

NEW Blue2 FT

Compatible with iPadOS & iOS

A comprehensive solution that provides switch access to iOS devices and Bluetooth enabled computers/tablets. This accessibility switch uses highly sensitive proximity sensor technology for activation with visual and auditory feedback. Any time the user is near or touching the activation surfaces, the Blue2 FT accessibility switch will activate. Includes a switch interface mode that automatically deactivates the integrated switches when a wired switch is connected to Blue2 FT. Dimensions: 15.8cm x 6.9cm x 2.7cm.

10218 Blue2 FT £269

Switcher-4

Switcher-4 allows users to access multiple devices using a single switch. Ideal for users with significantly impaired mobility. Specifically designed for wheelchair and lap-tray users needing to access multiple communicators, phones, tablets and iDevices using a single switch. Operates up to 4 devices (communicators, mobile phones, tablet computers, iDevices etc) from a single it-Switch (available to purchase separately). Rechargeable Lithium battery. Dimensions: 9cm x 6.4 x 1.8cm.

7270 Switcher-4 £109

iSwitch

The iSwitch is a compact and powerful Bluetooth switch that provides easy access to iDevices and more. Designed for users who need alternative access methods, the iSwitch seamlessly integrates with popular apps, iOS Switch Control, and various media functions, allowing greater control over tablets, smartphones, and computers. With 24 pre-programmed modes, media control features, and optional external switch connections, iSwitch offers a versatile solution for accessible technology needs. Allows operation of left, right, and double mouse clicks on iOS, Windows, or Android devices.

n/a iSwitch £150

Alternative Keyboards and Mice

► Computer and iPad Access Made Easy

Browse our extensive range of alternative keyboards and mice, including large key, brightly coloured, compact, wireless and high-visibility keyboards and small mice, rollers, trackballs, head, face and mouth computer, tablet and phone access alternatives.

You can now use a mouse or pointing device with your iPad or iPhone using the Accessibility features menu within iPadOS and iOS (see page 30-31).

[Learn More - Keyboards](#)

[Learn More - Mice](#)

Accessibility Features in iPadOS and iOS

With the introduction of accessibility features for iPad and iPhone, iPadOS and iOS, users of assistive technology can now access new and exciting accessibility features on their device, in addition to the essential Switch Control features that have been present since iOS 7.

▼ Accessibility Features.

The Accessibility features menu is now split into four categories - **Vision, Physical and Motor, Hearing and General** - with helpful icons displayed against each accessibility tool, helping users to distinguish what each feature does. The expanded Voice Control feature allows a user to navigate anywhere on their device through their voice and dictate or edit text. Also included is a mouse support feature which allows a user to use a wired or wireless mouse to control their iPad.

▼ Mouse support.

The most exciting new feature in Accessibility is mouse support. This feature allows the user to control an iPad with the aid of a mouse or assistive mouse, beneficial for users who are unable to use an iPad if they have difficulty touching the screen.

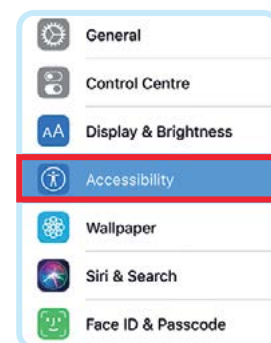

Bluetooth devices such as a mouse, joystick, rollerball or head mouse can be used to control the on-screen mouse cursor. Users can also use a USB connected mouse device with the aid of a USB to iPad/iPhone adapter.

▼ Can I update my iPad or iPhone to the new operating system?

- Any model of iPad from iPad Air 2 or later can be updated to iPadOS (for iPad Mini, iPad Mini 4 and later can be updated)*.
- Any model of the iPhone from iPhone 6s and later can be updated to the latest version of iOS*.

▼ How do I access the Accessibility menu?

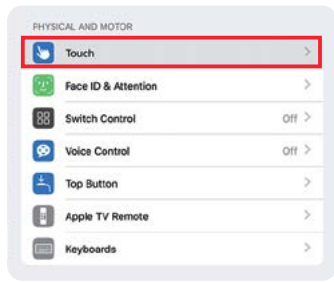

The first change users will notice after the update is how to access the Accessibility menu on their device. Previously users had to tap **Settings – General – Accessibility** to access the menu. Apple have now re-positioned this front and centre in the Settings menu, making it easier for users to access. To access the Accessibility menu now just tap **Settings > Accessibility**.

▼ How to setup mouse support.

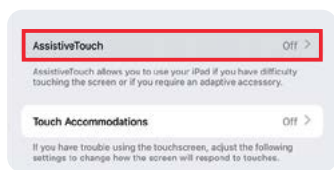

1

Mouse support can be setup under the **Physical and Motor** category.

Tap **Touch**.

Tap **Assistive Touch**.

Tap the **Assistive Touch** switch so it displays the green **'on'** position to enable it.

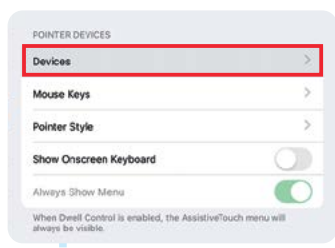

If you are using a USB mouse then simply connect a USB adapter to your iPad and connect your mouse. A circular mouse cursor should then appear on the screen.

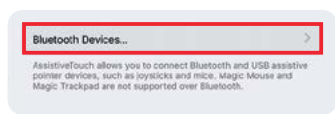

2

If you are connecting a bluetooth device, under **Pointer Devices**;

Tap **Devices**.

Tap **Bluetooth Devices**.

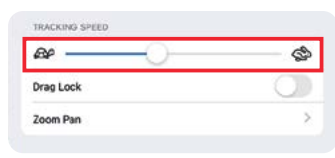

Make sure your bluetooth mouse is turned on and is discoverable and select it when it appears in the **Bluetooth Devices** list.

3

Tracking Speed

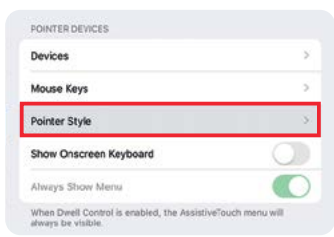

If the speed of the mouse cursor needs altering this can be adjusted under **Tracking Speed** by moving the slider left or right to decrease or increase the speed.

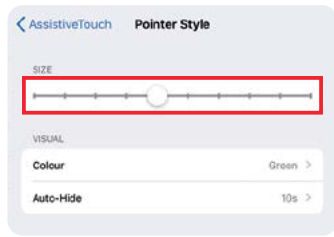

4

Pointer Style

Users with a visual impairment can adjust the appearance of the mouse cursor by clicking **Pointer Style** under **Pointer Devices**.

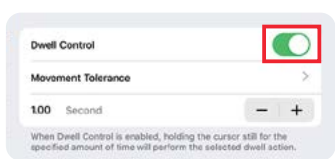

Within this area, the size and colour of the pointer can be altered and an auto-hide feature is available to configure.

5

Dwell Control

A dwell control feature is also included, meaning a dwell action will be automatically activated when the cursor is held in one position for a specified amount of time. Enable **Dwell Control** to activate this feature.

Clevy Mouse

A colourful mouse for young children, with two coloured buttons to make it easier to remember left and right click. Fits into small hands and is easy to control. With a right red button and a left blue button it makes it easier to remember left and right click. Dimensions: 10cm x 5.5cm x 3.5cm.

Compatible with iPadOS & iOS

7348 Clevy Mouse

£16

Single Button Mouse

Often requested by teachers across the country, this mouse is great for both SEN and foundation pupils that have problems distinguishing between a left and right mouse click. Dimensions: 8.6cm x 5.7cm x 3.2cm.

Compatible with iPadOS & iOS

2295 Single Button Mouse USB

£29

CST MaxTRAC Trackball

A large sturdy and affordable trackball. A full-sized, three button trackball, which is 100% Microsoft mouse compatible. Dimensions: 16.5cm x 8.5cm x 3.6cm.

Compatible with iPadOS & iOS

2353 CST MaxTRAC Trackball

£155

BIGtrack with Sockets

Has many features that make it ideal for users who don't have the fine motor skills required by a mouse. Doesn't require control with the fingertips - a swipe at the large 3 inch ball and at the buttons works just as well. Includes two 3.5mm switch sockets to allow switch access to the left and right click functions (not included).

Compatible with iPadOS & iOS

0349 BIGtrack with Switch Sockets USB/PS2

£92

NEW Antibacterial Mouse

Just right for smaller hands to grasp. At about half the size of a standard mouse, the Small Antibacterial Mouse allows learners to learn all the functions of a full sized mouse whilst reducing the spread of germs. Dimensions: 9.3cm x 5.2cm x 2.8cm.

Compatible with iPadOS & iOS

10172 Small Antibacterial Mouse

Educational RYB Mouse

A colourful mouse for young children, two coloured buttons (one red and one blue) to make it easier to remember left and right click. This small mouse fits into small hands and is easy to control. Dimensions: 10cm x 5.8cm x 1.9cm.

Compatible with iPadOS & iOS

2211 Educational RYB Mouse USB

£12

NEW Accuratus Trackball Mouse

It is ergonomically designed to fit comfortably in the right hand and is designed to reduce muscle stress by using the trackball rather than moving your whole arm and wrist around the desk compared to when using a regular mouse. Dimensions: 16.8cm x 10.5cm x 5.5cm.

Compatible with iPadOS & iOS

3012 Right Hand - Wired

£54

3022 Right Hand - Wireless

£62

CST KidTRAC Trackball

A large sturdy and affordable trackball, with three full-sized buttons. Just plug into the USB port on your computer and you are ready to go. Colour may vary.

Compatible with iPadOS & iOS

0581 CST KidTRAC Trackball

£155

Orbitrack

Uses a 50mm control ring to manage cursor movement for precise targeting. Unlike a mouse, trackball or joystick, no hand or wrist movement is necessary, and unlike a touch pad, the cursor does not have to be driven around the screen by constant finger movement. Dimensions: 22cm x 13cm x 4cm.

Compatible with iPadOS & iOS

2296 Orbitrack USB/PS2 £183

n-ABLER Rollerball

Large, high mass, free running ball requires only a light touch. Easy navigation with function buttons. The fingertip control and the need for only minimal hand movement reduces wrist and elbow fatigue. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

1678 n-ABLER Rollerball USB/PS2 £215

n-ABLER Pro Rollerball

Four cursor speed settings, drag lock and double-click buttons and many other features allow each user to set up the product according to their individual requirements. n/a PointIt! Joysticks

From £520

JAZZ Joystick

Specifically designed to allow users without fine motor skills to easily achieve both cursor control and switch scanning, the JAZZ Joystick responds to gross movements while still achieving fine cursor positioning and accurate switch scanning. Dimensions: 18cm x 10.2cm x 11.2cm.

Compatible with iPadOS & iOS

9768 JAZZ Joystick

£194

OPTIMA Joystick

Responds to the lightest touch for accurate navigation and precise targeting. Three different handles included. Sockets to operate left/right click buttons from remote switches. Four cursor speed settings. Audible alert for speed setting. Left/right and drag lock buttons. Dimensions: 18cm x 10cm x 12cm.

Compatible with iPadOS & iOS

3170 OPTIMA Joystick USB/PS2

£192

n-ABLER Joystick

Requires only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation. It emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

1679 n-ABLER Joystick USB/PS2

£275

n-ABLER Pro Joystick

A light-touch joystick, four cursor speed settings, drag lock and double-click buttons and many other features allow each user to set up the product according to their individual requirements. Unique Anti-Tremor facility is invaluable for anyone suffering with tremors or involuntary muscle spasms. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

6052 n-ABLER Pro Joystick USB

£296

AMAneo Mouse Adapter

Compatible with iPadOS & iOS

Electronically filters the trembling of the hand, which can be very strong, so that the mouse pointer on the display moves smoothly. Supports most standard and assistive mice. The manufacturer recommends using a wireless High-Speed USB mouse. Supplied with a M190 Logitech Wireless Mouse as standard. Dimensions: 7.7cm x 7.7cm x 2.6cm.

9238 AMAneo Assistive Mouse Adapter £219

BJOY Ring Wireless

Compatible with iPadOS & iOS

A USB device that allows you to convert the joystick of your wheelchair into a mouse to control your computer and compatible tablets and smartphones wirelessly. Each transmitter can be paired up to 4 receivers to be used with different devices or in different places. Use the BJOY software to modify the mouse operation features.

8129 BJOY Ring Wireless £580

PointIt! Pro Joystick

A compact USB joystick which gives accurate proportional control of the Windows mouse pointer. Supports standard mouse button functions plus DoubleClick, DragLock and MouseSpeed. Includes sockets for connection of external switches for left/right button control. Available with a Ball knob or a Standard Knob that has a switch on top for left button control. See www.inclusive.com for full details.

n/a PointIt! Pro Joystick From £400

Glidepoint Touchpads

Compatible with iPadOS & iOS

Allows you to simply glide your finger over the touchpad surface and gently tap (or click the buttons) to perform all input functions. With three categories of desktop touchpads to choose from, there is a solution to fit your needs.

3873 Easy Cat Glidepoint Touchpad £35
 3874 Smart Cat Glidepoint Touchpad £48
 3875 Smart Cat Pro Glidepoint Touchpad £68

Wireless Vertical Mouse

Compatible with iPadOS & iOS

Fits comfortably in your palm in an upright position and keeps the bones in your arm straight, eliminating the twisted position that can be caused by standard mice. Available wired or wireless. 2 x AAA batteries included. Dimensions: 12cm x 7cm x 6.8cm.

9997 Wireless Vertical Mouse - Right Handed £39

The LipStick

Compatible with iPadOS & iOS

An alternative mouse whereby all mouse functions can be controlled with the mouth. The screen cursor follows the movement of the mouse and the left and right mouse buttons are operated by lifting one of the lips. Sensitive and robust. Optional table mount.

7049 The LipStick £1,050

Ultra Joystick

Compatible with iPadOS & iOS

A very compact, robust USB joystick which is ideal for mounting, particularly when operated by the user's head or chin. Two 3.5mm sockets allow any type of switch to be used and the function of the switches may be programmed to left click, right click, double click or drag. Dimensions: 5cm x 5cm x 11cm.

9063 Ultra Joystick £319

Moozi Joystick

Moozi's flat base is just 2cm high, so the user can hold their hand in a natural and comfortable position. It has a smooth, light sliding action so, with the right choice of handle, even young children soon use it with ease. Using an appropriate adaptor it can also operate other switch operated devices.

n/a Moozi Base with Knob £140

Quaha Zono 2

Compatible with iPadOS & iOS

A wireless hands free mouse operated with head movements. It detects motion and transforms it into intuitive on-screen cursor movement.

Using gyroscopes and tracking, the Quaha Zono 2 is accurate and responsive to even small movements. Dimensions: Length 5.9cm, Width 3.3cm & Height 1.5cm. Weight 23g.

9694 Quaha Zono 2

£930

Quaha Pufo+

A wireless puff switch for Quaha Zono mice - making it even more versatile as a head mouse. A little puff to the Quaha Pufo+ mouthpiece will generate a left mouse click and two short puffs a double-click. The dragging can be easily done with a long puff.

7452 Quaha Pufo+ with Adjustable Headband

£319

Quaha Zono Accessories

We offer a full range of mounting options for Quaha including head mount, headband, eyewear, cap, universal and eyeglass clip. Quaha Sento puff switch and Quaha Dwell 2 software are also available. See www.inclusive.com for further details.

9440 Quaha Zono Adjustable Headband

£80

7455 Quaha Dwell 2 Single User Activation Code

£115

NEW IR Keyboard & Mouse

Users can make use of their AAC device to navigate and type on another computer. For example, if a user needs ad hoc use of a computer in an office or school setting which is not part of their own AT configuration, the IR Keyboard & Mouse can simply be plugged into the target computer and the user may then control it wirelessly from their AAC device.

10166 IR Keyboard & Mouse

£89

NEW Quaha Zono Mouse X

A lightweight wireless hands free mouse operated with head movements. It detects motion and transforms it into intuitive on-screen cursor movement. A tiny handsfree Bluetooth mouse for people who can't use desktop mice with their hands. With simple head movements the user can accurately move the cursor on any modern computer or mobile device.

7453 Quaha Zono Mouse X

£930

Quaha Sento

With the addition of Quaha Sento, the world's first contactless puff switch to your Quaha mouse, clicking and cursor movements are precise and intuitive. Supplied with an Adjustable Headband Quaha Zono Mouse sold seperately.

9693 Quaha Sento with Adjustable Headband

£299

NEW TiPY One-Handed Keyboard

An ergonomic one-handed keyboard designed specifically for people who have difficulty typing with both hands. It is also suitable for heavy typists and gaming enthusiasts and can be used with various operating systems such as Windows, macOS, iOS and Android. Dimensions: 28cm x 18cm x 3cm.

10205 TiPY One-Handed Keyboard

£849

10206 Case for TiPY

£77

NEW AccuMed AQUA Standard Keyboard & Mouse

The AccuMed AQUA is similar to a standard keyboard

and mouse in looks but has a unique feature, it is fully sealed so can be completely submersed, washed and cleansed and has antibacterial protection to reduce the spread of germs.

NEW **eyetuitive**

Introducing the world's most advanced multi-platform eye tracker.

eyetuitive

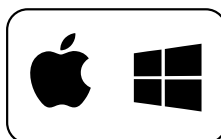

Experience effortless control and communication with eyetuitive, the world's most advanced, AI-powered, Apple MFi-certified, multiplatform eye tracker.

▼ **AI Powered Eye Tracking.**

eyetuitive is the world's smallest embedded eye tracker that uses the most advanced AI-based eye tracking software algorithms, combined with best eye tracking hardware.

eyetuitive uses eye and face detection with neural networks and is the only eye tracker with a dedicated accelerator chip/processor for neural networks. This innovative technology offers superior tracking performance, even for eye gaze users with glasses, setting a new standard in accessibility and convenience.

▼ **Compatibility - iPad and Windows.**

eyetuitive is compatible with Windows and iPadOS (MFi-certified by Apple) and is the only device on the market that natively supports both iPadOS and Windows. eyetuitive works with both platforms out of the box and does not need any intermediate applications or licences to work with both operating systems - just 'plug and play' to either platform and the eyetuitive eye tracker works seamlessly.

Compatible with the iPad Pro 12.9" (3rd through 6th generation) and Windows 10 and 11.

▼ **eyetuitive is Apple MFi Approved.**

Compatibility:
When you see the "Made for Apple" logo, you can trust that the accessory will work seamlessly with your Apple device.

Quality Assurance:
Apple ensures that certified accessories meet high-quality standards.

Safety:
Certified accessories are safe to use and will not harm your device.

eyetuitive is designed for everyone. Whatever your specific vision needs, eyetuitive ensures that everyone can experience the full benefits of eye-tracking technology.

▼ Calibration.

Choose from 1, 5 or 9 calibration points to look at on screen. The more points you look at, the more calibration data eyetuitive has, resulting in more accurate eye tracking.

Indicators will display on completion to show calibration quality. Points of calibration can also be adjusted in size and style to increase engagement and success.

▼ Positioning and Mounting.

Our eyetuitive package includes a lightweight protective case with a 75x75 VESA hole pattern and VESA to REHAdapt 75x75 Mounting Plate which can be mounted on REHAdapt UDS table and floor stands or mounting arms.

Alternatively, you can mount eyetuitive onto a desk or wheelchair using the robust and adaptable Inclusive Triple Mounting Solution. For a height adjustable, simple and portable desk mounting solution use the REHAdapt Table Stand. For a more versatile solution use a REHAdapt Floor Stand.

▼ Communicate, Learn and Play.

eyetuitive is the most flexible device for individuals with a range of disabilities, enabling individuals to control their device or appliances in the home or school. The possibilities are endless with eyetuitive and the millions of iOS Apps and Windows Apps and Software to choose from.

- Independent Access.
- Computer Control.
- Augmentative and Alternative Communication (AAC).
- Environmental Control.
- Learning and Education.
- Entertainment and Leisure.

▼ What's Included.

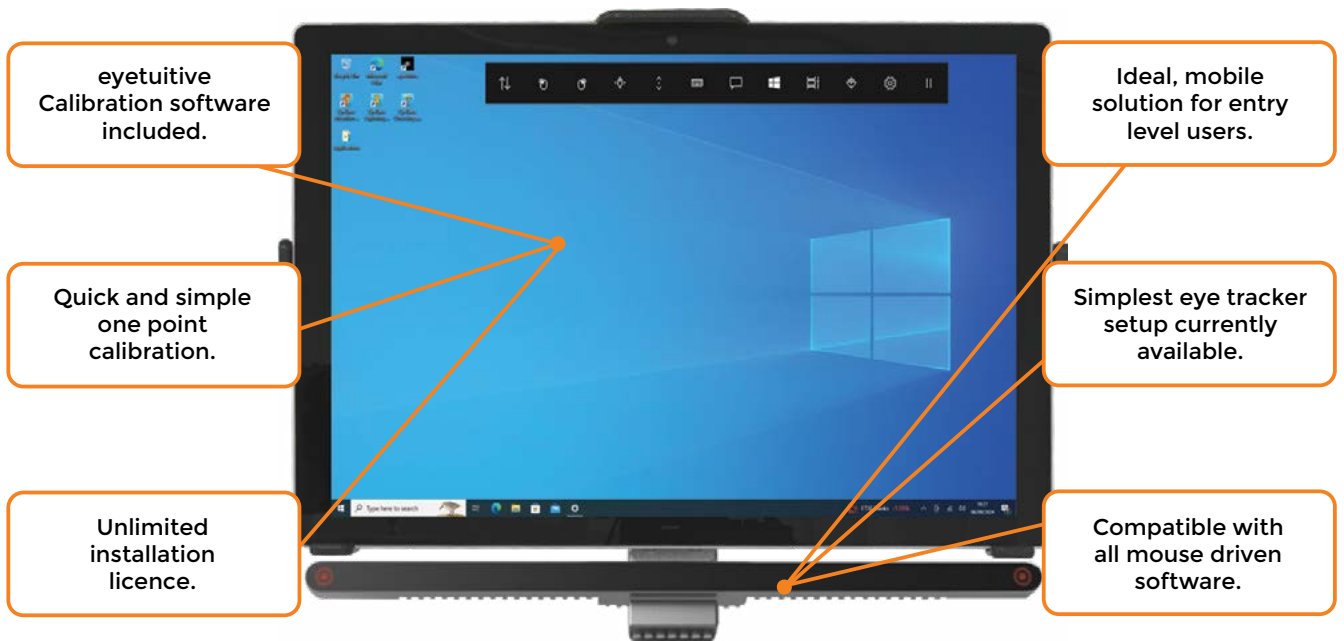

- eyetuitive eye tracker.
- Protective case for iPad Pro 12.9" with VESA/ REHAdapt mounting interface.
- Windows mounting bracket.
- eyetuitive Powerbox.
- eyetuitive App for positioning, calibration and personalisation.

Please note: iPad Pro 12.9" displayed in our marketing images is not included in the package.

10193 eyetuitive for iPadOS £2,495
This product has a 28 day returns policy.

NEW eyetuitive Eye Tracker - for Windows

Eye Gaze Control Made Easy

MS Surface Tablet not included.

Easy and simple, eyetuitive for Windows is the first choice for eye gaze users in every classroom. Indiscriminate of skill, it is perfect for multi-user settings. It allows anyone to start at any level of ability and build their gaze control skills at their own pace. With eyetuitive for Windows installed on a desktop, laptop or tablet, anyone can use their gaze to explore, play games, learn, participate in classroom activities, communicate and more.

What's included

▼ eyetuitive for Windows Eye Tracker.

The eyetuitive for Windows Eye Tracker, a state-of-the-art access device that tracks where your eyes are looking and turns that into computer access!

- Works with any assistive and mouse driven software.
- Works with most lighting conditions.
- Small and portable - easily transported between computers at home or school.
- Can be used across any Windows devices with 10" - 24" screens.
- Compatible with Windows Eye Control.

▼ eyetuitive Calibration Software.

Designed for the needs of 'independent' users as well as 'supported' users and their teachers and parents:

- Intuitive guided positioning.
- Mouse-over-gaze precedence provides control and convenience to teachers.
- Rich calibration and customisation to cater for specific individual needs and interests.
- Includes 1, 5 or 9-point calibration making it the perfect solution for both early and advanced eye gaze users.

▼ **From Simple Eye Gaze to Full Computer Access.**

eyetuitive for Windows is designed for simplicity and ease of use, suitable for those new to eye gaze and for use with all levels of ability. You no longer need specialist support and training to get started. Launch one application and follow the simple guide to set up in seconds!

▼ **Who is it for?**

eyetuitive for Windows can be used with many children and adults with conditions such as:

- Physical Difficulties.
- Communication Difficulties.
- Intellectual Disabilities.
- ALS and Multiple Sclerosis.
- Cerebral Palsy and Rett Syndrome.
- Autistic Spectrum Disorder.

▼ **What can you do with it?**

eyetuitive for Windows will follow your gaze on the screen and let you move the cursor and issue mouse commands such as:

- Dwell.
- Double Click.
- Right Click.
- Scroll.
- and more.

10322 eyetuitive Eye Tracker for Windows **£1,595**

NEW

EyeOn Elite for AAC

EyeOn Elite from EyeTech™ Digital Systems combines next generation eye tracking technology with the power of a portable, lightweight tablet, making it a fast and accurate device for AAC.

With a quick glance of their eyes, users have the opportunity to communicate using simple to complex language and use other eye tracking software to help unlock their potential.

- EyeOn Elite is a simple to use communication aid and is a sleek, fast, 18mm thin, Windows tablet PC with integrated next-generation eye tracking and a flip stand.
- Includes a PowerGrip handle which adds extra battery life, switch ports, Infrared and Radio home automation and creates a natural angle for use when reclined on a table.
- EyeOn Elite can allow people to learn how to use eye gaze, communicate with symbols or text, use social media and control windows and provides support for switch, touch, voice an alternate mice.

- Communication needs and abilities change over time. EyeOn Elite is easy to update and adapt to meet the needs of both adults and children.
- The integrated home automation in the EyeOn Elite allows you to interact with Infrared enabled consumer electronics such as TV and set-top boxes.
- Radio frequency allows control of specialist equipment like sockets and door openers.
- EyeOn elite comes supplied with a BumpGuard - a robust surround that protects the device when it is accidentally bumped into doors or walls.

Specifications

- Processor: Intel core i5-7Y54.
- Memory: 8GB RAM; 256GB SSD.
- Operating System: Windows 10 Pro.
- Screen: 14".
- Size: 36.2cm (width), 24.8cm (height), 1.8cm (depth).
- Weight: 2kg.
- Stand & Mounting: 100mm VESA; Rehadapt & Daessy compatible mounting plate; integrated flip stand.

Every EyeOn Elite device comes supplied with OnBright software suite, designed to give a voice to non-verbal individuals. It aims to empower communication, control of environment and improve quality of life and is controlled via eye gaze.

Grid 3

Grid 3 is a complete communication solution that enables people to have a voice, control their environment and live more independent lives. It's designed for anyone with complex communication or access needs and includes a wide range of resources that you can control with touch, switch, eye gaze and pointing devices. You'll find grid sets for talking with symbols or text, and content for all ages and abilities.

Symbol communication - a range of vocabularies are available. Super Core, a research-based core vocabulary, makes it easier for early AAC users to get started and experience success with symbol communication. Popular symbol libraries are included: Widgit, PCS, SymbolStix and Snap Photos.

Simple editing - personalising resources is simple, or you can even create your own. Whether you prefer larger text, high contrast colours or larger cells to target.

Tools for home and school - computer control gives you full access to Windows using eye gaze, pointing devices, or a switch. Control any application, whether at home, school or at work.

8100 Grid 3 1-49 licences each

£550

Grid for iPad

An AAC App that gives a voice to people without speech. This is a complete AAC platform and includes instant access to resources for both symbol and text

communication. Includes a whole library of resources and more powerful grammar and language tools. From powerful communication tools for text users, to grid sets for communicating with symbols and developing literacy. Easily add and organise your grid sets from Grid Explorer, your home screen within the App. This is where all your grid sets are stored.

Features

- Wide range of resources for different ages and abilities.
- Research-based approach to symbol and text AAC.
- Fast and intuitive in-app editing.
- Remote editing from any Windows computer.
- Do more with Grid - new resources added every day.
- Available in 32 languages.

7464 Grid for iPad App Licence Code

£250

Look to Learn and Scenes & Sounds Add On

Look to Learn is a package of forty activities designed for those starting out with eye gaze technology. Each activity develops a different skill, ranging from early cause and effect through to accurate eye gaze control. The forty activities are relevant to five key areas of learning and development: Sensory, Explore, Target, Choose and Control. Scenes & Sounds is a collection of twenty six activities designed for children and adults starting out with eye gaze. Available as an expansion pack for Look to Learn, this software focuses on interactive scenes, music and sound as well as eye gaze skills activities. You can add Scenes & Sounds to your existing Look to Learn licence or purchase both software titles together.

7906 Look to Learn 1-49 licences each **£360**
 7915 Scenes & Sounds Add On 1-49 licences each **£180**

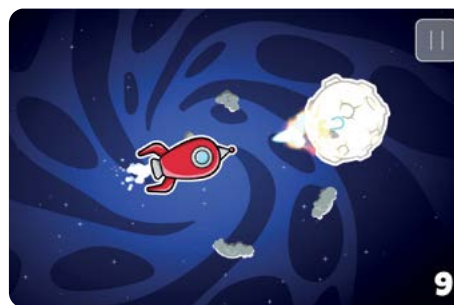

Look to Read

Look to Read enables children with disabilities to experience and enjoy books independently. Suitable for use with eye gaze, switch and touch access. Everyone can enjoy Look to Read as part of their literacy journey - whether they're just starting out or already have some literacy skills. Each book is fully accessible, with exciting content and learning activities to offer support at every stage. It includes; 16 original animated stories, 4 stages of progression, 95 letter sounds and 100 high frequency words, 64 learning activities, symbolised chat grids for every story, a workbook for tracking and recording progress and high contrast mode for users with visual impairment.

9355 Look to Read 1-49 licences each **£180**

Look Lab

A comprehensive collection of 38 accessible games and creative activities that will help people get started with, practise and challenge their eye gaze skills as they progress. Developed in consultation with SEN teachers and professionals, Look Lab activities effectively nurture 12 different eye gaze skills. Each activity encourages users to engage with the screen in different ways, including hitting targets, dwelling, tracking objects and moving the cursor around the screen. There are also customisable options for each activity. Easy mode allows users to explore activities at their own pace, free from the fear of losing or running out of time. Standard mode introduces a competitive edge, where activities increase in difficulty and include time constraints and limit attempts to win.

7537 Look Lab - Download Only **£480**

Eye Can Fly

24 unique and exciting missions. Master control of your aircraft to become a fully fledged pilot whilst learning Geography skills such as compass directions, landmarks and regions across the world as well as enhancing your eye gaze skills. In addition to eye gaze, play can also be controlled with any mouse pointer device, the keyboard, switches and joysticks. Designed for students with some experience of eye gaze control and ability to follow simple verbal instructions, this package is easy to set up and takes the students through carefully graded activities to learn how to use eye gaze with precision and control.

NEW Serene

A mobile, electronically height-adjustable interactive screen with various tilt and swivel positions.

Experience intuitive interaction and enhanced mobility with the Serene, an adaptable and portable device designed to enhance accessibility and engagement in a special education environment.

Serene is equipped with a range of features to accommodate seated individuals, wheelchair users, those receiving bed care and group activities, ensuring inclusivity and ease of use for all. It features height adjustment at the touch of a button along with various degrees of rotation, tilt and swivel as well as an optional battery pack.

Serene comes with interactive software installed and captivates attention and motivates users to participate. The dynamic and multi-sensory nature of its interactive content appeals to diverse learning styles, making learning more enjoyable and engaging for students with additional needs.

▼ Features.

Users in wheelchairs can face challenges accessing traditional screens due to fixed heights and angles. Serene eliminates this barrier by allowing caregivers to raise or lower the screen to the optimal height for each user. The tilt and swivel function enable precise positioning, ensuring users can comfortably interact with the screen without straining or discomfort.

Technical Details.

- 24" Multi Touch Interactive toughened screen.
- Built-in Windows PC and speakers.
- Includes the Imagine Suite of software as standard.
- Electronically height adjustable.
- Provides 360-degree rotation, 180-degree swivel as well as tilt.
- Optional battery provides approximately 5 hours run time from 1 hour charge.
- Dimensions: Height 153cm to 171cm. Width 50cm. Length 68cm. Lowest position 91cm.
- Weight: 35kg.

▼ Imagine Software Suite.

Imagine includes an exciting range of captivating and interactive themes such as splat the balloons, scatter the flowers, interactive fishpond, jigsaw, questions and bingo. The Serene with Imagine boasts a vast library of a thousand pictures and videos, and hundreds of sounds – ensuring endless possibilities for engaging experiences.

Specifically designed for use in SEN environments, education establishments, hospitals and at home, there are over 500 interactive activities within Imagine plus it provides the opportunity to create your own via the editor portal.

Simply Works Wireless Range

Access Technology anywhere in the classroom

With Simply Works you can have switches, joysticks, rollerballs, communicators, toy control devices and a keyboard that work together wirelessly.

Simply connect the it-Receive to your computer and you are ready to use an it-Roll rollerball, it-Stick joystick or control your switch software using the it-Switch. Each connects wirelessly with a range of 10m (32 feet) and can work from anywhere in the classroom - ideal for including everyone in an interactive lesson.

SimplyWorks for iPad

Provides wireless switch access using an it-switch for the iPad home screen, switch adapted Apps, music and HelpKidzLearn Apps.

it-Send Pro

This 6 channel wireless transmitter takes up to six wired switches and enables you to work your computer software or control toys.

it-Send

This single channel wireless transmitter converts any wired single switch, fitted with a standard 3.5mm jack, to work with Simply Works.

it-Stick

A wireless joystick ideal for those with motor skill difficulties. It is ideal for use with groups or in the classroom to ensure that everyone can join in.

it-Receive

Pair up to six Simply Works devices on one computer when you plug in this simple USB receiver. Program special switch functions for individual needs.

it-Roll

A compact rollerball for users with motor skill difficulties. Ensures precise cursor control and light ball movement.

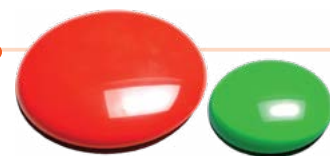

it-Control

A compact controller and receiver. Small enough to fasten on to an adapted toy or other battery device and connected using the cable supplied.

it-Keys Keyboard

A tough wireless keyboard which is clear and child friendly with large keys and lowercase letters. The simple layout and colour coding makes it easy to find the keys.

it-Switch

A wireless switch with a unique, low slanted profile. Gives good tactile feedback with no protruding base and can be operated with the slightest movement.

6081 SimplyWorks for iPad **£159**
 4414 it-Send Pro **£94**
 4413 it-Send **£68**

4415 it-Stick **£215**
 4404 it-Receive **£47**
 4412 it-Roll **£143**

4417 it-Control **£79**
 4861 it-Keys Keyboard **£109**
 n/a it-Switch - Large / Small **£68**

Environmental Control

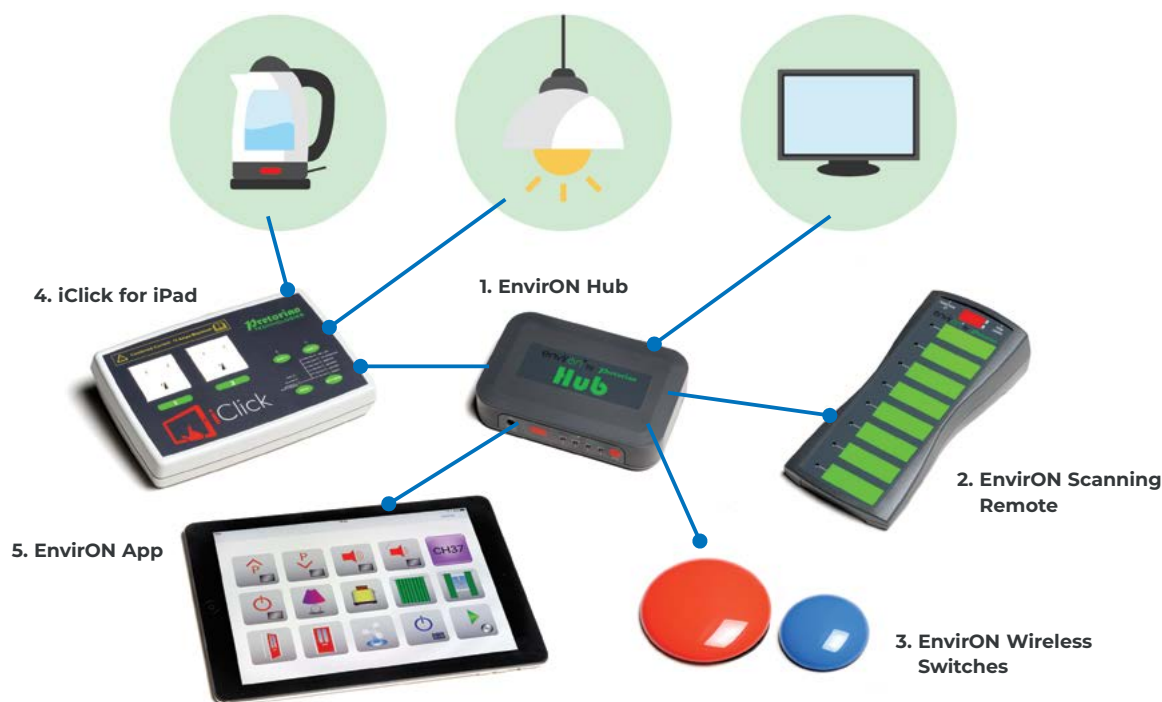

- ▶ Providing innovative independent control

Our range of environmental control technology gives users the means to control their world via specially designed infra-red and wireless devices.

[Learn More](#)

EnvirON

The means to control your world

The EnvirON range of products is a great way to introduce and to teach environmental control to your students in the classroom. Whether you want teach your students how to control a TV, radio, lamps or kitchen appliances and access them through their iPad, switches or a scanning remote, EnvirON is a unique versatile range of products which allows simple control of both infra-red (IR) appliances and mains powered appliances of any kind. Setting up an EnvirON system is simple and straightforward with helpful online videos.

1. EnvirON Hub is the heart of the EnvirON system. Its principal purpose is to receive information from the EnvirON App, wireless switches or scanning remote and turn them into signals to control a TV, music player or any other IR device. It is able to learn the signals from your existing remote controls simply by pointing the remote at the Hub and pressing the buttons you need. EnvirON Hub also provides a connection between the App and any iClick (**page 27**) mains appliance controllers. Dimensions: 14.5cm x 10cm x 3cm.

2. EnvirON Scanning Remote provides the user with a method to control both IR and mains powered appliances from a single remote control. Large, touch sensitive buttons on the unit allow up to eight functions to be programmed. Can also be used for single or two switch scanning. Dimensions: 20.7cm x 9.2cm x 4.7cm. Each touch button 5cm x 1.5cm.

3. EnvirON Wireless Switches can be used to control any single function within the EnvirON system, whether it's putting the TV on a particular channel, turning on a lamp or just turning up the volume on your radio. Available in two sizes: 125mm and 75mm diameter and in red, yellow, green and blue.

4. iClick for iPad allows you to turn electrical appliances on and off wirelessly using the free of charge iClick App on your iPad. Simply plug your favourite appliances into iClick and control them from your iPad in the following innovative ways:

- **Direct** - appliance/toy is powered for as long as the user touches the switch on the iPad screen
- **Latching** - touch once for on and again for off.
- **Timed** - one touch turns the device on for a period determined within the App, from as little as 1 second up to 250 minutes.
- **Cooperative** - requires two users to work together for the device to turn on and off.
- **On/Off** - one switch turns on the device and the other turns it off.

Dimensions: 24cm x 16cm x 4cm.

5. EnvirON App is available free of charge on the Apple App Store, the EnvirON App easily connects to the Hub to control your IR and mains devices. EnvirON App is fully compatible with iOS Switch Control allowing the buttons to be scanned using a Bluetooth device such as APPLICATOR (**page 27**) or iSwitch (**page 28**).

8774	EnvirON Hub	£324
8775	EnvirON Scanning Remote	£293
n/a	EnvirON Switch Large or Small	£93
8254	iClick for iPad	£226

Control USB

Features a USB type C connection that operates any infra-red controlled device, from TVs to toys, and any mains powered device, directly from a Windows device. You can simply design on-screen grids to: Memorise the functions of any infra-red device from the device's remote handset. Control up to 16 mains powered devices via Enabler Socket+ (see below).

8359 Control USB £240

Control+

Control infra-red devices and access the App via your usual method. Customise the cells, create as many cells as you need, select the number of cells and their distribution plus create macros to activate a sequence of actions from a single cell. Memorise the functions of any infra-red remote control, plus control any switch adapted toy from the switch output. Pair it with the Enabler Socket+ (see below) to operate mains devices.

8686 Control+ £520

NEW PicSeePal

A lightweight, portable, splashproof and customisable solution for AAC users.

Whether at home, school or on the go, this durable and modular device ensures that communication tools are always at hand, empowering users wherever they are. If you're seeking a light-tech communication aid that is adaptable and easy to use, you're in the right place! The PicSeePal is designed with both simplicity and flexibility in mind, making it the perfect addition to any home, classroom or therapy setting.

Customisable and versatile: discover free, multi-lingual symbol sets from Cboard, specifically designed to integrate with PicSeePal. Simply export them as a PicSeePal PDF and print them out!

Modular and portable: it's easy to attach, adjust and carry. Use PicSeePal as a stand-alone communication tool or in combination with high-tech systems.

Splashproof: ready for real-life use, this robust housing is built to endure, even in active environments.

Low-tech but powerful: this is the perfect balance between simplicity and function, ideal for those who want an AAC system that works seamlessly in everyday life.

PicSeePal Housing Case

Plastic housing for any type of visual support, including high-tech AAC print outs to social stories.

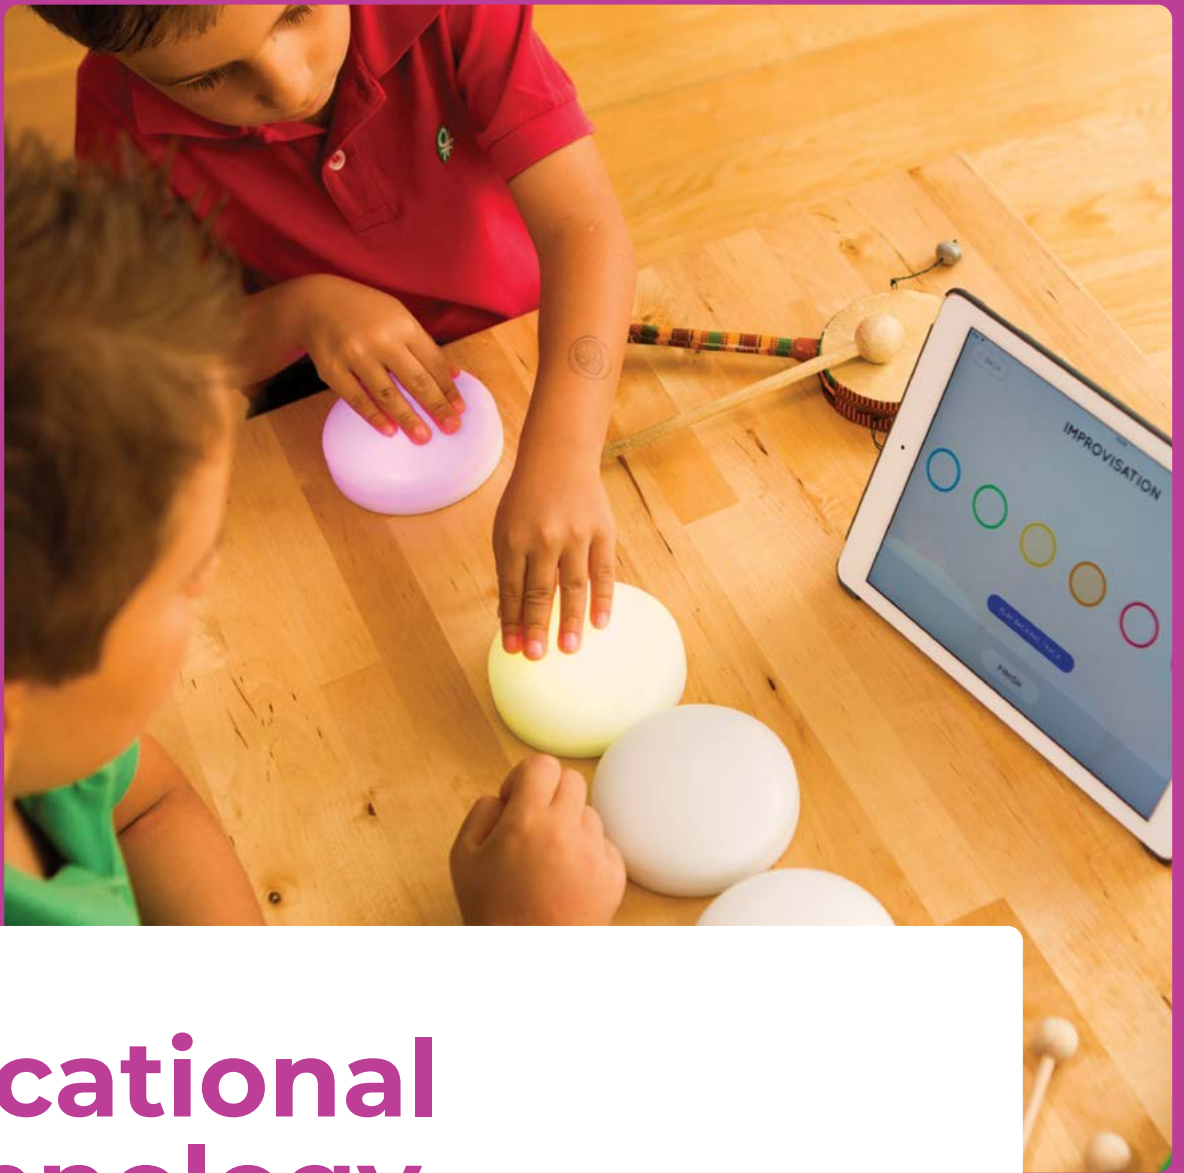

PicSeePal Snaps

These additional snap-in panels allow you to expand the versatility of your PicSeePal by providing even more room to store communication symbols.

10420	PicSeePal Housing	£95
10421	PicSeePal Snaps	£80

Educational Technology

- ▶ Making learning fun, noisy and entertaining

Engage learners with educational equipment; browse our range of headphones, remote controlled toys, recorders, musical technology and more!

[Learn More](#)

Arcana Strum

A musical instrument designed to be extremely simple to learn

and easy to play. It's the perfect musical solution, providing a full musical experience, with chords, tunes, riffs and scales, so that anyone can enjoy the uplifting rapture of playing music. Arcana Strum is a compact device that can help anyone play guitar regardless of their physical ability. Operation of the device's unique handle design simulates the feeling of strumming a guitar whilst pressing one of the device's keys produces a chord sound. All sound is produced via connection to an external device such as an iPhone or iPad. Arcana Strum is adaptive and easily accessible, offering adjustable keys and handle sensitivity as well as right or left handed playing options. A range of optional accessories are also available, enabling users to play along using assistive switches or using alternative strum stick handles.

See www.inclusive.com for options. Innovative and intuitive, Arcana Strum can also help early users learn and develop their music education whilst igniting their passion for playing and listening to music in a fun and engaging way! Dimensions: 47cm x 16cm x 5.5cm.

7471 Arcana Strum

£1,070

CMPSR Complete Music Maker

An inclusive digital music education approach and fully adaptable for students and teachers of all experience levels. CMPSR is built to engage students who are traditionally difficult to reach and who are often excluded from music education. It's an excellent choice for schools looking to offer an inclusive digital curriculum. With its always-in-key feature and built-in chord and scale engines, simply connect to a device and you can play the sound of any instrument! Use the joystick and music pads for a unique composition and access to endless sound possibilities. Paired with Arrownotes' use of colour, shape and direction it's designed to allow non-specialist teachers to deliver inclusive, easy-to-follow music activities and lessons. If you can follow and match, then you can play and perform. It's suitable for all children and teachers, making it a complete music-making solution for the whole classroom. Dimensions: 11cm x 18.5cm x 8cm.

2893 CMPSR Complete Music Maker

£378

AACTivity Communicator & Musical Device

A highly versatile communicator and musical device with eight buttons, 8 levels and 8 minutes of recording time. The AACTivity also benefits from 64 pre-recorded sounds arranged in 8 categories. Supports single or two-switch scanning and can also be used with SimplyWorks wireless switches. Selecting the Freestyle Music activity allows the unit to be used as a single octave piano, whereas selecting the Music Scanning activity allows the user to play well-known songs by following the scanning lights. Once a song is completed the user is rewarded with the song being played back at normal tempo.

Includes eight legendable buttons for ease of access to multiple messages and eight minutes of recording time across eight levels.

Dimensions: 51cm x 28cm x 6cm.

9548 AACTivity Communicator & Musical Device £466

Simple Music Player

An easy-to-use and robust MP3 music player. Great for use in the classroom or at home - to operate users simply play music by lifting the clearly indicated lid, and close the lid to stop. Originally designed for users with Dementia, this great device can also be used in an SEN environment.

- Underneath the lid is one large button that can be used to a skip track if required.
- Volume can be set so it cannot be accidentally changed.
- Robust and excellent quality design.
- Music is uploaded via USB to any Windows, Apple, or Linux PC.
- Storage capacity: 4GB (approximately 1000 songs).
- Includes a standard headphone socket. UK mains powered.
- Available in Red or Green (please specify colour when ordering).
- Optional 'Lift to play music' and 'Close to stop music' stickers included. The lid can easily be clipped back on if accidentally removed.
- Dimensions: 30cm x 19cm x 11cm.

n/a Simple Music Player

£97

Inclusive MP3 Player

Adapted for use with up to three switches (not included), this high quality, robust, lightweight and portable Bluetooth MP3 player is ideal for playing music or listening to books in an SEN classroom setting, at home or on the move. Simply plug in a USB memory stick (not included) or connect to a Bluetooth sound source e.g. iPad, mobile phone or tablet to operate. The Inclusive MP3 Player has a long battery life with clear sound and large high contrast tactile buttons (buttons/switch press activates Play/Pause, Forwards/Skip Track Forwards, Back/Skip Track Back). It offers a simple audio playback solution for switch users, visually impaired users or those living with Alzheimer's, Autism, Dementia, reduced motor function or other access challenges.
Dimensions: 18cm x 8cm x 4.5cm.

2774 Inclusive MP3 Player £119
2777 Inclusive MP3 Player - 5 pack £565

Quester Joystick

A compact, desktop joystick specifically designed for PC gaming where WASD and Arrow Key navigation are used. A gaming user may either use the mode switch to shuttle between modes, or two Quester Joysticks may be plugged into the PC to allow both to be operated simultaneously.
Dimensions: 18cm x 10cm x 12cm.

2998 Quester Joystick £192

Quester Switchbox

A simple USB device for achieving PC game play using assistive switches. Six 3.5mm sockets are provided, the functions of which are set by selecting one of four levels. Levels 1-3 are fixed function, whereas each socket in Level 4 can be programmed to be any key on the keyboard or a mouse click, plus some gaming specific functions.
Dimensions: 13cm x 6.5cm x 2.5cm.

3003 Quester Switchbox £104

Sensory Ear Defenders

Great for those with Autism and Sensory Processing issues who are sensitive to noise and certain sounds, they reduce the sounds of the world and help

provide a safe space for the wearer. Available in six colours; Lime Green, Black, Red, Dark Blue, Pink, and Light Blue (please specify when ordering).

n/a Sensory Ear Defenders £14
2251 Sensory Ear Defenders - 6 pack £77

Clevy Hearsafe Headphones

As well as looking smart, Clevy Hearsafe Headphones are robust and durable without compromising comfort. They feature an integrated safe volume limiter which minimises the risk of damage to the user's hearing with frequent usage. Detachable and extra-long cable for optimal freedom of movement. Compatible with all portable MP3 players, iPods, CD / DVD players, PC and Mac.

9798 Clevy Hearsafe Headphones £24

Ricoh Theta 360 Degree Camera

Create immersive spherical content and experiences for your Inclusive ClassVR and Inclusive ClassVR Premium with this 360 degree camera that offers high performance, easy operation and a light-weight, compact handheld solution. Has a quick response which means that images can be taken about 1.5 seconds after the power is turned on.

Dimensions: 22.5cm x 3.5cm x 15.2cm.

9804 Sci-Plus 3300 Scientific Talking Calculator £535

Inclusive CLASSVR

Inclusive ClassVR is a simple, affordable package that gives you the power to play and create your own Virtual Reality experiences for the classroom.

► Virtual Reality (VR).

Inclusive ClassVR provides immersive, sensory experiences where students can safely interact and explore virtual worlds and environments without boundaries or the restriction of physical limitations. Virtual Reality provides engaging, multi-sensory stimulation and opportunity for those students with physical disabilities to experience things they may not be able to physically access. The perfect solution for students with learning difficulties, sensory impairments and physical disabilities in SEN classrooms or establishments!

► Augmented Reality (AR).

Inclusive ClassVR headsets also include a front-facing camera and our Augmented Reality Classroom (ARC) App. Enabling you to bring educational content to life and allow students to view and interact with exciting 3D models. Students can see their normal surroundings, but when they look at special QR codes on our worksheets or posters, the content comes to life! This allows them to get up close and personal with content, such as a beating heart, spitfire, triceratops, planets and other exciting educational resources.

▶ **Inclusive Experiences.**

Inclusive ClassVR gives access to a wide range of 360° videos and resources including:

Sensory Experiences - a selection of videos that provide engaging multi-sensory stimulation including landscapes, environments and scenes.

Physical Development - parachute, scuba dive with turtles, ski and surf. Providing some students with the opportunity to experience things they may not be able to physically access.

▶ **Curriculum Activities.**

Curriculum Activities - search hundreds of readymade resources to build your own lesson. There are currently over 500 pre-made activities covering a huge range of topics and curriculum subject areas aligned to UK National Curriculum and US State Standards.

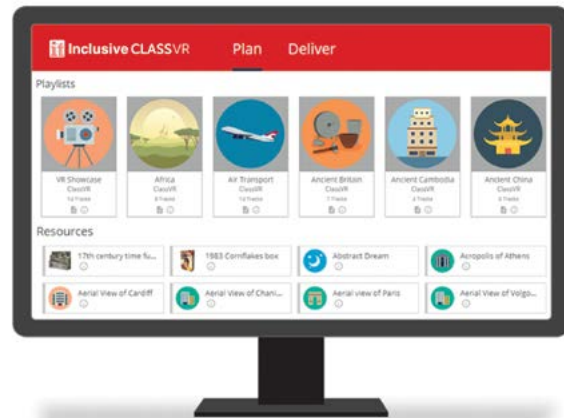

Personalised Content - with a 360° camera, teachers can create personalised content and teach important life skills activities that can help, educate and ready students to live. The possibilities are endless.

▶ **Headsets, Storage and Charging Case.**

Inclusive ClassVR includes four 'standalone' headsets that deliver fully immersive experiences. Unlike other VR headsets, Inclusive ClassVR does not require any additional devices, such as phones.

Headsets come in a rugged storage and charging case providing maximum security and ensures all headsets are charged safely and swiftly whilst being portable between classrooms. Premium version available.

▶ **ClassVR Portal & CPD Training.**

Plan lessons in just a few simple steps and deliver a defined playlist of resources to multiple headsets simultaneously. Monitor what students are seeing and guide them through the experience, highlighting points of interest. Teachers also have access to ClassVR Online CPD Training which includes comprehensive, bite-sized lectures, videos and quizzes. Designed to help you get the most from your new investment.

7370 Inclusive ClassVR Premium 28 days return policy **£2,695**

Includes a 12 month subscription to Eduverse (includes the ClassVR Portal & Avantis World).

Healthcare Products

► Aids to support and assist

We supply Headmaster Collars, Drinkup Drinking systems, arm supports and speech amplifiers. Please get in touch if you'd like to purchase healthcare products we don't currently supply.

[Learn More](#)

The Headmaster Collar is an industry leading neck immobilisation support collar, designed to prevent over-extension of the neck and promote optimal healing with regards to straightness. The collar bends to adjust for neck flexion or extension, is designed to allow access to a tracheal tube enabling easy access in the case of medical emergencies, comes in multiple sizes and is available for all ages.

Headmaster Collar

A comfortable cervical spine support. Originally designed for people suffering from arthritis, but has been found to be appropriate and of great benefit to people suffering from many other disabilities including: Progressive neurological conditions such as motor neurone disease, congenital conditions such as cerebral palsy, whiplash, head and spinal cord injury and burns. Constructed from surgical rubber tubing around a malleable core, the tubing is

covered with a brushed nylon material that allows the VELCRO® attachments to adhere anywhere. Each collar is supplied pre-assembled and ready to use - just bend it to the desired fit by hand. Fitting Instructions are enclosed with the collar. Extension Pads, Neck Pads, spare Chin Pads, Spare Neck Straps and Anterior Support is available.

Please note: this product is non-returnable. Collar to be fitted by a professional, contains latex.

Available in non-latex.

See www.inclusive.com for all options.

NEW Echo MegaLoop Pro with Remote Control

Allows easy connection to most modern digital TV sets with either line and/or digital inputs (Phono Phono/Toslink/Coaxial) and comes supplied with a remote control. It features an integrated Digital Audio Converter to connect to the digital optical output socket on the TV and is simple to install using the Toslink cable provided.

9630 Echo MegaLoop Pro with Remote Control £129

SHIDU Voice Amplifier

A very lightweight personal voice amplifier for those who have difficulty with the volume and range of their voice. Available in wired and wireless versions. The SHIDU is a small but powerful voice amplifier which provides crystal clear voice amplification and is comfortable to wear and easy to set up. It is loud and clear - with 10W power output its sound covers over 900 square meters. Offering long transmission distance it is suitable for indoor and outdoor usage. Rechargeable with a built-in lithium battery - use for up to 12 hours. Dimensions: 11.2cm x 4.2cm x 9cm.

10055 SHIDU Voice Amplifier - Wired £45
 10056 SHIDU Voice Amplifier - Wireless £95

Savant Headrest

The Savant Headrest is a unique wheelchair headrest for total head control. It is cool, light-weight and can easily be shaped by the hand. It provides support at three levels on the head to control lateral flexion and rotation. An optional headband can be used for anterior support. It is available in three sizes: Large, Small and Paediatric in black. Quick release clasps hold the headband in place. Easy release for fine adjustment. The pads are filled with a soft gel for added comfort.

A cool and comfortable headrest, the modular design of the cushions allows for air circulation.

Please note: Due to the nature of this product it is non-returnable.

Visit www.inclusive.com for full details and accessories.

NEW Echo Port-A-Loop Portable Room Loop System

The Echo Port-A-Loop system provides an induction loop system that is both portable and flexible. Rooms of up to 100m² in size may be looped. The loop pad offers the ideal solution for looping smaller areas such as a desk or a chair, negating the need to wire the room.

9528 Echo Port-A-Loop Portable System £380

EchoVoice® EV7™

A compact voice amplification system that is sensitive enough to dramatically amplify the faintest voice with a 10 Watt digital amplifier providing high power audio output and clear sound quality. Speech amplifiers will maintain volume and clarity, when sometimes a voice can't. They enhance even a faint voice or whisper, so minimal effort is required by the user. Powerful, discreet and comfortable to wear, it can be used in classroom situations for teachers or for people with communication difficulties. Dimensions: approximately 9cm x 11cm x 4cm.

9973 EchoVoice EV7 Speech Amplifier £255

NEW Echo RadioLink Wireless Listener

A wireless TV listener and personal listener in one device. Enjoy crisp and clear amplified sound and easily hear TV's at home or other people when going out and about. Includes headset and neckloop (for hearing and non-hearing aid users). Outstanding amplification - suitable for severe hearing loss. Includes a built-in sensitive microphone. Wireless range of up to 30m. Up to 30 hours rechargeable battery life. Suitable for TVs with analogue or optical connections (digital). **Please view the statement from the manufacturer on our website before placing your order.**

9529 Echo RadioLink Wireless Listener £188

Echo® MiniTech Pro™

A digital personal listener which gives the user superb amplification at the touch of a button. Incorporates digitally controlled buttons which make the unit easier to use for those who may have dexterity problems, and its ergonomic design fits easily and comfortably in the hand. Offers accurate and quick volume control, easily adjusted by visual and tactile volume pads with large symbols and raised dots. Includes a microphone, built-in telecoil, aux connection, fast automatic gain control circuit to protect against sudden/loud noises. Includes a headset and neck loop. 2 x AA batteries included. Dimensions: 8.5cm x 5.5cm x 3cm.

8583 Echo MiniTech Pro £110

Echo® EV200™

A multi-purpose 2.4G wireless microphone system consisting of a lightweight lapel microphone transmitter and a mini receiver. The receiver picks up speech from the transmitter and can be used as an audio source for a wide variety of systems such as speaker amplifiers, communication equipment and personal listeners. The receiver is inserted into any standard microphone socket/line input. The lapel microphone transmitter is positioned on a lapel/near the mouth to pick up speech. Speech is transmitted wirelessly to the receiver and the volume can be adjusted on the device to the desirable level.

9527 Echo EV200 Wireless Microphone £145

Micro Voice Amp

A high quality voice amp with loud and clear sound plus reduced distortion and feedback. Fast charging, extremely long battery life. Lightweight and portable enough to wear or carry. Simple operation - volume control, coloured LED indicators, mute function. Supplied with a high quality AVI Headset Microphone. Optional Lapel Microphone or a Transdermal Microphone. Ports: 3.5mm mono input, 3.5mm stereo output. Comes with: charger, belt clip, waist strap, user guide. Dimensions: 12cm x 4.5cm x 6.5cm.

6891 Micro Voice Amp / Headset Microphone £350
 9558 Transdermal Microphone £55
 9559 Lapel Clip Microphone £55

Echo® MiniTechT™

A portable personal listener which can be used with either a headset or neck loop and gives excellent amplification. Utilizes a digital volume control that allows a wide range of volume to be easily, quickly and accurately adjusted. The addition of active tone control allows excellent adjustability of bass and treble providing superb sound quality. Can be used with a digital quality under chin headset, stereo headphones or if used with a hearing aid, a high powered neck loop that transmits the sound to the hearing aid when switched to the 'T' setting. Microphone: Electret condenser. Headset socket: 3.5mm Stereo. Dimensions: 9.5cm x 5.5cm x 2.2cm.

5754 Echo MiniTechT £105

Educational Software

► Supporting your learners every day

Innovative software providing support for those with learning difficulties; including word prediction, reading & spelling, mind mapping, typing and speech & language.

Kokolingo

Kokolingo was carefully developed to provide the tools needed to build learners speech skills from the foundation up. It offers easy to use play based learning. Purchase one licence per SLT or Teacher to use with unlimited learners and create profiles to track progress. The levels in Kokolingo begin simply and grow gradually more complex. As the user masters sound production in short syllables and nonsense words, the exercises become harder over time. See www.inclusive.com for annual licence details.

7463 Kokolingo single user annual subscription **£119**

WordShark 5

Combines the excitement of games with the serious task of learning to read and spell. Each of the 60 games is designed to address discreet skills in the teaching and reinforcing of reading and spelling. It has dedicated games to support synthetic phonics, involving blending sounds into words for reading and segmenting words into sounds and syllables for spelling. The games and selection of pre-recorded words are specially structured to assist with dyslexia, but work equally well for a wide range of users.

9724 Single user licence Activation Code **£220**
5951 Single user USB **£240**

NumberShark 5

50 games to teach and reinforce numeracy and improve understanding and use of numbers. It is most often used by students aged between 6 and 15. Older students, with reasonable number skills, can use it to improve their mental maths. It addresses many of the difficulties which lead students to dislike maths. These include poor short term memory, limited attention span and poor sequencing skills. Many of the games give a visual idea of what is happening when you add, subtract, multiply or divide.

9725 Single user licence Activation Code **£170**
7520 Single user USB **£180**

Penfriend XP and XL V5

Penfriend XP is a powerful tool for adding word prediction, speech and an on-screen keyboard to almost any other software.

It works with your word processor and tries to guess the word you are typing. Penfriend XL offers multiple languages, screen reading and on-screen keyboards. It helps anyone learning foreign languages, provides speech feedback and screen reading of virtually any electronic text in native voices and highlights spoken words.

7271 XP V5 Windows CD - Rom - single user PC **£60**
7273 XP V5 Portable - single user USB **£80**
7276 XL V5 Windows CD-Rom - single user PC **£95**

Dragon Professional V16

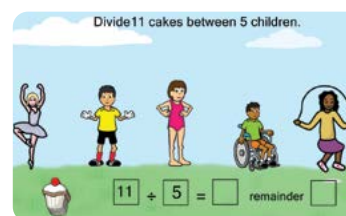

Dragon V16 is up to 99% accurate out of the box with minimal voice profile training required to start achieving highly accurate results. Supports both Windows 11 and Windows 10 operating systems. Powerful features like custom voice commands, autotexts, customisable vocabulary and formatting options makes Dragon Professional V16 an incredibly user friendly yet potent tool for creating documentation with ease. Dragon learns your voice from corrections and custom words, providing you with an evolving and ever improving voice profile. This product is non-returnable.

10088 Individual licence - Download **£599**

Splash!

A flexible tool that enables learners with a wide range of abilities to create accurate illustrations for Maths and Science. It forms an accessible work space allowing students to carry out Maths, Science and drawing activities. Splash! includes full keyboard access, pointer only access or mixed mode control. Splash! Primary and Splash! Secondary come with lots of easy-to-use resources for KS1 to KS4 Maths and KS3/4 Science.

6934 Splash! Primary - KS1+2 single user PC **£138**
6935 Splash! Secondary - KS3+ single user PC **£138**
7077 Splash! All Ages single user PC **£159**

Touch Type 2

This typing tutor works at your own pace. See the letter, hear it, then type it. A full on-screen picture of the keyboard teaches the home keys first, then introduces the others through a range of exercises. The program also includes a monitoring system to show where you need practice. Touch Type 2 is suitable for all ages and is adaptable for special needs. The program speaks the next letter to be typed and has the option of changing the font, font size and font colour - suitable for visually impaired users.

0185 Win/Mac CD-Rom £39

IT Mouse Skills

Teaches the many applications of the mouse in an entertaining and visually appealing atmosphere. Move the mouse over an object, drag and drop, drag along a path and practice using drop down menus. Various clicking activities are included, such as clicking anywhere, click timing and double-clicking. Introductions to each activity are provided and the successful completion of a task is met with a range of pleasing rewards. Adjust the difficulty level and change the background for high contrast.

8935 Single user Activation Code £45
8936 Additional user Activation Code £12

ABC Maestro

Learn and develop reading, writing and typing skills within an engaging, especially designed interface, jam packed with motivating, fun exercises and content. ABC Maestro has been designed to offer faster learning through play and includes a variety of letter, word, spelling and number learning games that perfectly accompanies the Clevy 2 Keyboard (see page 37).

9339 ABC Maestro Home - 1 user licence profile £44
9340 ABC Maestro Home - 3 user licence profile £89

KAZ Typing Tutor (SEN/Dyslexia)

A fast way to learn to type, its accelerated learning method teaches users to touch type correctly in minutes. Recently developed further with the 'Dyslexic Research Trust', to produce a multi-sensory program teaching typing skills whilst addressing disturbances related to 'visual stress', by means of a unique 'Preference Screen' offering choices of; dyslexic friendly typefaces, font size, font colour, background/filter screens, keyboard and 'speaking keys'.

6566 Annual Subscription Junior single user £30
6567 Annual Subscription Adult single user £30

Five Finger Typist

A complete set of typing lessons for both the right and left hand. It teaches the keyboarding technique for single handed touch typing on the QWERTY keyboard. Users learn the home position, then complete exercises which introduce new keys and revise keys already learned. The application remembers the last lesson worked on in a user's document file. Lessons are graded, starting with simple exercises. An animated hand graphic on the screen shows the correct hand movement as keys are typed.

0597 Win/Mac CD-Rom £51

Coping with Chaos

Sam goes to different places and you must help him cope with the things that happen to him there. First you must recognise how Sam feels, then you decide what he does about it. Coping with Chaos includes 14 different mini-stories featuring realistic animations in 3D that cover emotions and behaviour suitable for children with learning difficulties. Use as a motivating focus for discussion in a PSHE lesson.

Communication Software

► Communication made simple

A full range of pioneering software which uses symbols and pictures to enable communication including our own Matrix Maker Plus which we designed to provide comprehensive communication opportunities simply and affordably.

[Learn More](#)

Matrix Maker Plus

An intuitive, easy to use program for producing a wide variety of printed picture resources.

Matrix Maker Plus has been specifically designed to be the simplest and most affordable software for making communication overlays and educational resources. With an easy to use intuitive interface, you can start creating and printing straight away with no need for training.

1. Choose your template

Includes a huge bank of readymade templates ranging from switch, communication device templates, worksheets and more.

2. Add your pictures

You can add pictures from either the IT Media Library, the Internet, your own pictures from your computer or take a picture with your webcam.

3. Print it out

Once you have added your pictures and text to your template, it is now ready to be printed out. It's as simple as that!

Includes over 26,000 symbols and pictures

► Over 11,000 Widgit Symbols

The ever expanding Widgit Symbol Set has been developed over the past 25 years and now contains more than 11,000 symbols, which cover an English vocabulary of over 40,000 words.

► Over 3,000 IT Pictures

IT pictures contains pictures, symbols and illustrations ready to use in Matrix Maker Plus. Each image is clear and concise and is supported by strong black outlines for clearer definition.

► Over 13,000 SymbolStix Symbols

Originally designed and developed by News-2-You, SymbolStix depicts people as lively stick figures with no gender, age or culturally specific attributes, so that learners can focus on the concepts without being distracted by detail.

Pragmatic Organisation Dynamic Display (PODD)

This software helps create a wide range of communication books to suit varying communication, language and sensory requirements. This comprehensive resource provides detailed information and a range of templates to support the production and use of Pragmatic Organisation Dynamic Display (PODD) communication books.

PODD provides practitioners with templates and guidelines to develop an appropriate communication book and also describes comprehensive strategies to enable the use of the system in the child's daily life - at home, at school and in the community.

Who is this resource for? This resource is for people supporting children who are learning to communicate using aided symbols (pictographs, graphic symbols, whole written words). Therapists, teachers and parents will all have the opportunity to access the materials in this resource for their clients, students, children and young people.

What does the resource contain?

The resource provides templates to create a range of PODD communication books designed for children who use direct pointing with a whole hand, finger or pointer. Some of these page sets can also be modified to accommodate pick up and give/show or partner assisted scanning access methodologies.

The 3 x CD-Rom set includes

- An electronic version of the book titled Pragmatic Organisation Dynamic Display communication books by Gayle Porter (2007). This publication describes the theoretical underpinnings and features of PODD communication books and includes a detailed section on teaching learning strategies.
- Templates for fourteen different PODD communication books from simple early functions to complex syntax. These templates can be viewed and customised using Boardmaker version 5 or later (not included).

Each set of templates includes

- An information file providing a detailed description for that communication book's language, page layout, vocabulary organisation and navigation pathways.
- Construction files providing specific instructions for printing and constructing each communication book.

System requirements

- Boardmaker for Windows or Mac version 5 or later for printing and customising the templates.
- PODD Alternative Access A4 Version offers a new alternative method of access to PODD templates.

6023	Pragmatic Organisation Dynamic Display	£199
8720	PODD Alternative Access	£199

Clicker

bett
AWARDS 2023
WINNER

Clicker is the complete writing solution for the primary and SEN classroom, providing every pupil with just the right level of support and challenge. In addition to enhancing the core Clicker features that teachers know and love, it includes Clicker Cloze, Clicker Analytics, Picturize, and more.

Help every child achieve writing success - at the heart of Clicker sits a child-friendly word processor. Watch your pupils confidently tackle writing tasks with help from Clicker's realistic speech feedback, talking spell checker and word predictor.

Clicker Grids enable pupils to write with whole words and phrases. Emerging writers build sentences word-by-word, while Word Banks provide scaffolding to support developing writers. Clicker's 'Picturize' button instantly adds pictures to any Clicker Grid, helping children to find the word they want.

Choose from over 4500 Clicker curriculum pictures or use your own. Boost speaking, listening and reading skills and make curriculum content accessible for all with talking Clicker Books, support emergent readers and EAL pupils with Matching Sets, or use Talk Sets to develop speaking and listening skills.

Organising ideas is a vital first step in the writing process, and one that many learners struggle with. Clicker includes a child-friendly mind mapping area to help learners prepare for writing. It includes free access to Learning Grids, an ever-growing bank of ready-made classroom resources.

Activities are created by experienced teachers and cover a range of primary topics. Cloze activities are a great way to assess pupils' topic knowledge, as well as their ability to use semantic and contextual clues. Clicker's Analytics tool gives you a unique insight into each learner's writing process, helping you make informed decisions about their current support levels and the most effective next steps.

In addition to extensive support for learners with reading and writing difficulties, Clicker opens the door for pupils with a wide range of additional needs, including switch and eye gaze users.

Clicker's universal licensing enables you to 'mix and match' depending on your school's set-up. Install Clicker on your computers and use the Clicker Apps on your iPads and Chromebooks.

Let's Go To The Seaside

Let's Go To The Seaside is a delightful on-screen story book with decision making activities and animations to link the story together.

It encourages the discussion of preferences and promotes life skills. Each page has a limited number of things to click on, making it easy for those learning switch scanning skills. Let's Go To The Seaside is also useful for developing early reading skills, recognising patterns and matching sizes and colour.

Let's Go To Town

A superb story program with nine interactive scenes. Let's Go To Town encourages decision making and discussion of real life activities at a basic level. It suits students of all ages, principally with severe learning difficulties and/or little reading ability. The large, eye catching animations are designed with the visually impaired student in mind, and fun for all of us! The limited interaction is very useful for students learning scanning using one or two switches.

Touch Balloons

Great fun on the touch monitor or Inclusive Interactive Touch Screen. Also use a switch, mouse or alternative pointing device. Choose a large pointer or a cross-hair to aim. Alter the colour, speed and number of balloons; choose bold or pastel colours to develop visual skills. You can even change the background - add your own pictures. The program has bold or pastel colour choices to allow you to design activities to develop visual and tracking skills.

8921	Single user Activation Code	£35
8922	Additional Users	£12

Target & Touch: Patterns

A range of activities with different styles of animated patterns and music rewards - the bright colours contrasting with a black background

make them ideal for users with visual difficulties, such as cerebral visual impairment. The different styles and movements of the patterns have been carefully chosen to provide a wide range of different visual experiences to encourage users to look at the screen.

Touch anywhere with a choice of patterns and colourful grids - great for cause and effect.

- Touch It and Find and Touch It to encourage looking and targeting.
- Peeping targets introduces a fun timing element - catch them before they disappear.
- Scattered targets need a series of presses before giving a reward.
- Objects in a Line helps to encourage left to right tracking.

8817	Single user Activation Code	£59
8818	5 user Activation Code	£109
8819	Site licence Activation Code	£169

Target & Touch: Music

Touch screen training activities with a cast of twenty musicians, from classical to fantasy, with a great selection of music. It offers lots of opportunities for

language development and listening skills. Bright characters on a dark background really stand out, making this program ideal for people with visual and perceptual difficulties. The program introduces some additional touch activities, making it a good progression from Target and Touch: Patterns, including an introduction to dragging.

- Touch anywhere to see who is playing this time.
- Touch It and Find It includes a wrapped up instrument - guess what it is before opening the bag to hear it play.
- Silhouette of the musicians - guess who it is and open the curtains to see if you are right.
- Peeping musicians - catch them to get a performance.
- Scattered musicians need a series of presses before giving a reward.

SwitchIt! Bob the Builder™

We are delighted to donate all proceeds from this software to the New Children's Hospital Appeal in Manchester. We have raised over **£81,000** for the appeal so far! See www.inclusive.com and www.rmchcharity.org.uk for further information.

Bob the Builder™ and other characters are used with the kind permission of HIT Entertainment. ©2006 HIT/K Chapman.

8823	Single user Activation Code	£49
8824	5 user Activation Code	£98
8825	Site licence Activation Code	£147

SwitchIt! Technology Extra

Twelve everyday technologies, sometimes with unexpected results! We are sure that lots of classroom discussion will be encouraged with everyone sharing

their experiences about photo booths, car washes, vending machines, lifts, mobile phones and more - great as preparation or follow up for a visit. Use with keyboard, mouse, touch screen or switch.

8826	Single user Activation Code	£69
8827	5 user Activation Code	£129
8828	Site licence Activation Code	£189

SwitchIt! Sports Extra

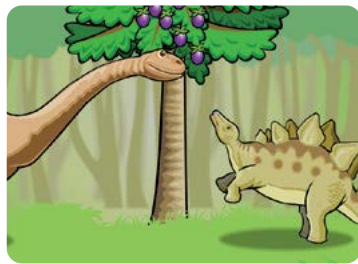

Twelve stories demonstrating different sports, plus flashcards and animations for cause and effect work. Watch the footballers use teamwork to score a goal. Find out why going jogging is good for you. Sprinting, rounders and other sports played in school and college are also featured. Sports played by people with disabilities are included, such as wheelchair basketball, boccia and new age curling.

8829	Single user Activation Code	£69
8830	5 user Activation Code	£129
8831	Site licence Activation Code	£189

SwitchIt! Dinosaurs Extra

Encounter lots of creatures in this exciting addition to the series. Shows dinosaurs' behaviour, their habitat and how they hunt or forage.

8847	Single user Activation Code	£69
8848	5 user Activation Code	£129
8849	Site licence Activation Code	£189

SwitchIt! Hygiene Extra

Includes hair care, showering, cleaning teeth, clean clothes, food hygiene and being well dressed. A great way of covering PSHE.

8838	Single user Activation Code	£69
8839	5 user Activation Code	£129
8840	Site licence Activation Code	£189

SwitchIt! People Extra

All about the people we see every day. See how the nurse, lollipop lady, postman and checkout assistant do their jobs while at work.

8844	Single user Activation Code	£69
8845	5 user Activation Code	£129
8846	Site licence Activation Code	£189

Switch Skills 1

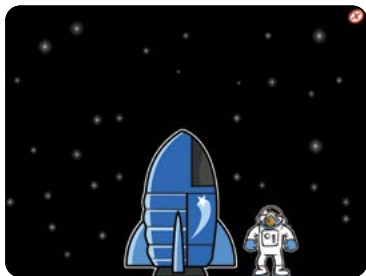

This collection of easy switch timing activities is fun for all ages. The exciting themes provide all the motivation needed to help students who understand cause and effect to develop more disciplined switch use. It also encourages speaking and listening and helps develop concentration skills. The bright, clear graphics are suitable for those with visual impairment and there is lots of sound and music.

8856	Single user Activation Code	£59
8857	5 user Activation Code	£109
8858	Site licence Activation Code	£169

Switch Skills 2

Twenty activities at an elementary level. Press the switch or the touch screen when a big, bright object appears and see an animated reward. Higher level activities require more visual discrimination, although most can still be played successfully by those with severe visual impairment. Configurable options allow you to meet individual needs or develop learners' skills in small steps.

8859	Single user Activation Code	£59
8860	5 user Activation Code	£109
8861	Site licence Activation Code	£169

Switch Skills 3

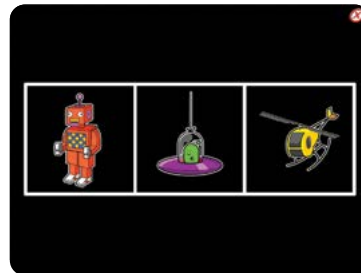

Fifteen activities at a higher level than Switch Skills 2, split into four sections. The first section features six activities with a large target, for example Splat the Clowns - watch a clown move across the screen and throw a custard pie at him when he reaches the middle. The next section has four activities which are more demanding, with smaller targets in different places on the screen. For example, lighting fireworks.

8862	Single user Activation Code	£59
8863	5 user Activation Code	£109
8864	Site licence Activation Code	£169

Switch Skills Scanning

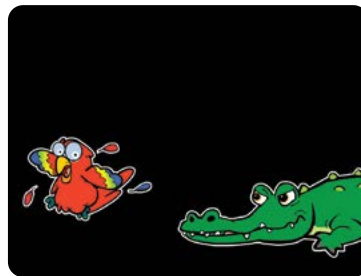

A set of twenty two simple and motivating switch activities. It is designed for students who are learning how to use switches to make choices, either within software or scanning communication devices. The activities can be used with one or two switches and are split into five sections with increasing levels of skill and complexity in small steps. These begin with free choice activities that allow experimental play.

8865	Single user Activation Code	£59
8866	5 user Activation Code	£109
8867	Site licence Activation Code	£169

Switch Skills for Two Set 1

Sixteen activities in carefully graded sections. It provides an accessible environment to encourage the learner to move beyond the stage of cause and effect. Thinking, experimenting, observing and interacting are encouraged by providing simple activities that delight and engage. For example, in the Two Objects section, choose to press the left switch (or spacebar) to make the ballerina dance.

8871	Single user Activation Code	£59
8872	5 user Activation Code	£109
8873	Site licence Activation Code	£169

Switch Skills for Two Set 2

Eleven activities for experimenting and progressing towards effective scanning skills. Also suitable for two learners as a basis for cooperative play. Build Up promotes the use of one switch to add items to the screen, with the second switch used to start the action or watch the animated reward. Build a tin can tower and knock it down, make a rocket and launch it or blow up a balloon until it pops.

8874	Single user Activation Code	£59
8875	5 user Activation Code	£109
8876	Site licence Activation Code	£169

Switch Skills Champions

Every child can be a champion with these fun games that help develop switch timing skills. The program features five sports that are included in the Olympics or Paralympics.

For one or two players - useful for developing turntaking skills. Try basketball, volleyball, boccia, ice hockey or hurdles. It includes a simple training activity for early learners.

Just wait for a player to appear on the screen, then press the switch to win a medal. You can change the difficulty level for each player. Accessible using a switch, mouse, keyboard, touch monitor or whiteboard.

All proceeds are donated to Leonard Cheshire Disability. We have raised over **£26,000** for the appeal so far! See www.leonardcheshire.org

8868	Single user Activation Code	£59
8869	5 user Activation Code	£109
8870	Site licence Activation Code	£169

Chooselt Maker

Create, edit and play personalised learning activities that can be used in your classroom and with individual

students securely online on any device including Windows, Mac, Chromebook, iPad or Android tablets! With Chooselt Maker turn your photographs, images, symbols, text and sounds into:

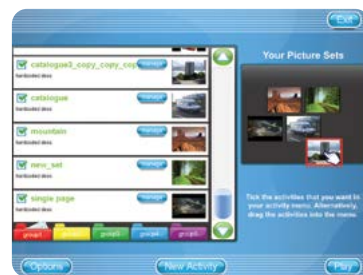

- Question and answer activities.
- Cause and effect resources.
- Assessment activities.
- Game based learning.
- Quizzes, communication aids and more.

With its easy to use editor, upload a photo or image and make an activity with your child or class in minutes. They can all join in and then proudly present it to the rest of the school, family and friends. Chooselt Maker is an important tool for those learners who respond best to familiar materials, such as pictures of themselves, their families, their classmates and places they know well. See **pages 10-11** for more information.

6708	1 user - 12 month subscription	£130
6709	5 user - 12 month subscription	£230
6710	Site licence - 12 month subscription	£310

Slideshow Maker

Makes it easy for the busy SEN or Early Years practitioner to make simple slideshows with music for early switch users. The slideshows can also be used with

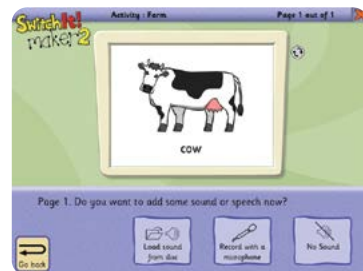

a touch screen or mouse. Simply choose a set of pictures, add a music track and you're away. Slideshows can be started and stopped using one or two switches. This is useful for teaching two switch control or taking turns, and is invaluable for learners with PMLD or those learning to make choices using a switch or by pointing. The slideshow can also be given a timer so it automatically stops after a certain time. For early choice making, a picture board can be set up with between two and nine pictures to choose from by pointing, switch scanning or using the mouse. Each picture starts a different slideshow, then the picture board is shown again, this is good for turn taking with a group. More able learners who can use a mouse or touch screen will enjoy making their own slideshows with the editor, which is free of clutter and the buttons are large and have symbols.

7595	Single user Activation Code	£79
7596	5 user Activation Code	£149
7597	Site licence Activation Code	£229

SwitchIt! Maker 2

Make your own talking books in a matter of minutes with SwitchIt! Maker 2. Press a switch to see a picture, photo

or video clip with sounds and text (also works with mouse, touch monitor or whiteboard). Press the switch again to turn the page and see more. Use your own digital images or import pictures and sounds from the Internet. Includes a library of over 1,500 pictures, sample videos and music, including a selection of PCS and Rebus symbols. Making it motivational - pop music videos, silly sounds, pictures of Thomas the Tank Engine or motorbikes - put anything in that will get you interested and interacting! All about me - keep a meaningful diary or communication passport. Reinforcing vocabulary - put a photo/picture with the spoken word and text to help learn new words. Sequencing tasks - make step by step instructions with photos of the situation. Talking photo album - share a multimedia record of your holiday or trip. Story telling - make a simple story book that can be read independently.

8877	Single user Activation Code	£79
8878	5 user Activation Code	£149
8879	Site licence Activation Code	£229

SwitchIt! Maker 2 Older Learners Edition

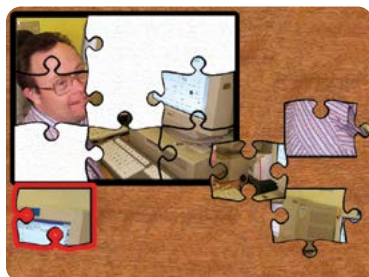

Offering all the benefits of SwitchIt! Maker 2 but also has an interface, example activities and graphics library that are specifically designed for older learners. Ideal for KS3, KS4 and beyond, this software makes it really easy for older users with learning difficulties to create life stories as part of person centred planning.

8880	Single user Activation Code	£79
8882	5 user Activation Code	£149
8883	Site licence Activation Code	£229

SwitchIt! Jigsaw Maker 2

SwitchIt! Jigsaw Maker 2 gives you a easy way of making your own photographs or other pictures into interactive on-screen jigsaws. Pictures can be cut into two, four, or nine piece puzzles. Play on-screen and you'll never have to worry about pieces being chewed up or scattered! Jigsaws can also be printed out for use away from the computer.

8884	Single user Activation Code	£79
8885	5 user Activation Code	£149
8886	Site licence Activation Code	£229

Choose & Tell: Nursery Rhymes

Choose from Humpty Dumpty, The Grand Old Duke of York, Old Mother Hubbard, Old King Cole or Baa Baa Black Sheep. Take Baa Baa Black Sheep off to the beach on a space rocket, or go to the castle with Humpty Dumpty on his green boat. Great for getting children to use their imagination and think about creating a narrative.

8894	Single user Activation Code	£59
8895	5 user Activation Code	£109
8896	Site licence Activation Code	£169

Card Maker

Choose one of twenty-eight different occasions including Christmas, birthdays, Easter, Valentine's Day, anniversaries and more. Add the recipient's name and it will appear on the front of your card (teachers may input different names for switch users to choose from). Each occasion has lots of bright, beautiful card designs to choose from.

8891	Single user Activation Code	£79
8892	5 user Activation Code	£149
8893	Site licence Activation Code	£229

SwitchIt! Facemaker

Add your own photos and decorate them with hats, beards, glasses, earrings and more. Nearly 100 features give you thousands of combinations, engaging students in creative exploration and experimentation. A cause and effect level adds features to a face in response to a simple switch input. Other options allow all learners to be creative according to their own ability.

8888	Single user Activation Code	£79
8889	5 user Activation Code	£149
8890	Site licence Activation Code	£229

Choose & Tell: Legends

Embark on a magical adventure based on exciting legends from different cultures. Choose from Jason, Sir Lancelot, the Pharaoh, Hiawatha or Rama. Packed with fun decisions to make and challenging puzzles to solve. Encounter monsters and answer questions relating to the Key Stage 1 curriculum. Configurable difficulty to suit the user.

8900	Single user Activation Code	£59
8901	5 user Activation Code	£109
8902	Site licence Activation Code	£169

Choose & Tell: More Nursery Rhymes

Choose from Little Bo Peep, Mary Mary Quite Contrary, Little Jack Horner, Yankee Doodle or Pussy Cat. Decide where to go and what to do.

Great for getting children using their imagination. Lots of fun adventures to enjoy, with delightfully comical results. Lots of images are available for printing in colour or for children to colour in.

8897	Single user Activation Code	£59
8898	5 user Activation Code	£109
8899	Site licence Activation Code	£169

Choose & Tell: Fairy Tales

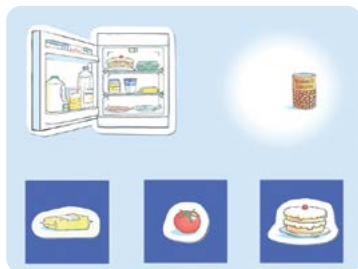

Choose from Snow White, Beauty, Cinderella, Princess Aurora (also known as Sleeping Beauty) or Rapunzel. Travel in a pumpkin coach, on a funky moped or groovy rollerblades. Will you visit a fairy tale castle or go to the supermarket? Will your heroine find her Prince Charming - or will a magical kiss lead to a different surprise? Of course, they all live happily ever after.

8903	Single user Activation Code	£59
8904	5 user Activation Code	£109
8905	Site licence Activation Code	£169

Choose & Cook

An easy, fun, story based program about preparing food and being in the kitchen. Pupils choose a meal to make, then find the ingredients in the kitchen. They are taken through the cooking and preparation process, where they choose the correct utensils. Finally, they invite a friend and enjoy the meal together. The simple recipes have been chosen because they can all be easily produced in the kitchen.

8906	Single user Activation Code	£59
8907	5 user Activation Code	£109
8908	Site licence Activation Code	£169

Counting Songs 1

Ten popular, traditional songs, seven of which have been re-written to count up from 1 to 5. Lively tunes and lovable animated characters engage the children, encouraging them to count along with the music. The songs are offered in three progressive stages:

- Playing all the way through.
- Counting before each verse.
- Asking the child to count before each verse.

8909	Single user Activation Code	£59
8910	5 user Activation Code	£109
8911	Site licence Activation Code	£169

Counting Songs 2

Ten original, contemporary style songs with animations, designed for KS2 children with learning difficulties. Seven of the songs count up from 1 to 5, whilst three count down. Accompanying activities consolidate and expand the childrens' counting skills. There are three progressive stages: simple counting of one character after another; counting characters and identifying sets of objects.
